Hazardous Waste Inspection Report

FACILITY INFORMATION:

Facility Name: Cleanearth Specialty Waste Solutions INC
On-Site Inspection Start Date: 10/20/2022 **On-Site Inspection End Date:** 10/20/2022
ME ID#: 50192 **EPA ID#:** FL0000702985
Facility Street Address: 8505 NW 74th St , Miami, Florida 33166-2327
Contact Mailing Address: 8505 NW 74th Street, Medley, Florida 33166
County Name: Miami-Dade **Contact Phone:** Data is missing from FIESTA

NOTIFIED AS:

Transporter, Used Oil, VSQG

WASTE ACTIVITIES:

Generator: VSQG **Transporter:** Commercial Waste **Used Oil:** Oil Filters **Other:** Person Authorized to Mangle
Very Small Quantity Waste Generated at Other Facilities **Universal Waste: Indicate types of UW generated
and/or accumulated at the facility: Generate/Accumulate:** Batteries, Pesticides, Mercury Containing Lamps,
Mercury Containing Devices **Transport:** Batteries, Pesticides **Transfer Facility:** Batteries, Pesticides, Mercury
Containing Lamps, Mercury Containing Devices **Maximum quantity of UW handled or transported at any
time:** 5000 kg or more; Large Quantity Handler (LQH)

INSPECTION TYPE:

Routine Inspection for Closed Facility

INSPECTION PARTICIPANTS:

Principal Inspector: Michele C DeFreitas, Inspector
Pamela Coffin, Environmental Specialist I; Johanna Polycart, Environmental Specialist II;
Other Participants: Tarin Tischler, Environmental Specialist III

LATITUDE / LONGITUDE: Lat 25° 50' 28.503" / Long 80° 20' 11.1217"

NAIC: 562112 - Hazardous Waste Collection

TYPE OF OWNERSHIP: Private

Introduction:

On October 20th, 2022 (10/20/2022) Michele De Freitas with the Florida Department of Environmental Protection (FDEP) conducted a Routine Compliance Evaluation Inspection for hazardous waste and used oil transporter and very small quantity generator of hazardous waste at Clean Earth Specialty Waste Solutions Inc (hereinafter Clean Earth or facility), located at 8505 NW 74th Street Miami, Florida, 33166. Clean Earth was inspected to determine the facility's compliance with State and Federal Hazardous Waste Regulations described in Title 40 Code of Federal Regulations (CFR) Parts 260-268, and 279 adopted and incorporated by reference in Rule 62-710, and 62-730 Florida Administrative Code (F.A.C.). The inspector was accompanied by Tarin Tischler, Environmental Specialist II, Johanna Polycart, Environmental Specialist II and Pamela Coffin, Environmental Specialist I with FDEP.

The inspectors arrived onsite at the aforementioned address and observed that it was no longer occupied by Clean Earth but instead a new business took operation at this location called Iron Container Manufacturing. Inspectors inquired with facility representatives if Clean Earth was still in operation at this location however were notified that they had moved to a new address 6100 NW 74th Ave Medley, Florida, 33166.

Notification History:

Clean Earth originally notified with the Department as a Non-handler of hazardous waste on 09/27/1994. The facility was assigned an EPA Identification (EPAID) Number FL0000702985. The facility most recently re-notified

Inspection Date: 10/20/2022

with the Department via submittal of the 8700-12FL form on 01/24/2022 and their Used Oil Annual Report on 01/18/2022 and Certificate of Liability Insurance on 05/07/2022. The facility is registered as a Large Quantity Generator of Hazardous Waste, Used Oil Transporter, Hazardous Waste Transfer Facility. However, the facility ceased operations at this location at the end of March 2022 and moved to the address 6100 NW 74th Ave Medley, Florida, 33166, as of July 2022 under new management. They were issued a new EPA ID for the new location – FLR000258285.

Inspection History:

The facility was last jointly inspected by the Department and the EPA on 08/08/2018 and was found to be out of compliance with State and Federal Regulations for failure to maintain adequate aisle space, fire protection equipment, spill control equipment, and decontamination equipment, failure to conduct a proper waste determination, failure to separate incompatible hazardous waste, failure to properly manage hazardous waste pharmaceuticals, failure to properly manage and store universal waste batteries, failure to notify the Department as a 10-day hazardous waste transfer facility, and failure to conduct weekly inspections on their hazardous waste containers in the CAA. This case was referred to the U.S. EPA for follow-up and closed without formal enforcement action.

Closed Facility Location

New Business at Old Location Address

Conclusion:

The facility no longer occupies this address or EPA ID on file with the Department. The facility submitted the 8700-12FL Florida Notification of Regulated Waste Activity (DEP Form 62-730.900(1)(b), F.A.C.) to officially close this location on 11/02/2022 to the Department.

Inspection Date: 10/20/2022

1.0: Pre-Inspection Checklist

Requirements:

The requirements listed in this section provide an opportunity for the Department's inspector to indicate the conditions found at the time of the inspection. A "Not Ok" response to a requirement indicates either a potential violation of the corresponding rule or an area of concern that requires more attention. Both potential violations and areas of concern are discussed further at the end of this inspection report.

Note: Checklist items with shaded boxes are for informational purposes only.

Item No.	Pre-Inspection Review	Yes	No	N/A
1.1	Has the facility notified with correct status? 262.18(a)			✓
1.2	Has the facility notified of change of status? 62-730.150(2)(b)			✓
1.3	Did the facility conduct a waste determination on all wastes generated? 262.11			✓
