Project Description:

Improving and installing under 1650 linear feet of horse fencing using 4' wood posts and electrobraid rope horse fencing around the existing horse paddock. There is an existing cabin IN the horse paddock and the paddock is surrounded by roads and homes on all sides of the improved property. The request is so that we can get a permit from Collier County to install the 4' wood posts and electrobraid fencing. I have been in communication with Esteban O. Lorenzo-Velez (FL DEP Environmental Specialist) who has been assisting us with this request and process of obtaining the exemption for the horse fencing.

Wetlands Information:

--

Erosion Control Information:

The 4' fence posts are being dug by hand. There is no other impact.

Additional Information:

Collier County requested that I obtain this permission in order to permit the horse fence. I am attempting to comply. Due to the rural complexity of this property, please call me at 954-471-6119 and I will make sure the front gate is unlocked and will meet on site at a mutually convenient time.
