Good morning,

Triumvirate has submitted a partial response to the FDEP 1st RAI dated July 14, 2023. The Department accepts the responses submitted with the following stipulations. Please submit the following edited corrections for the following items of the Permit Application.

1. Comment #8. John McQuillan was added correctly to Attachment B, Part I-General, Line #10. However, the Revision at the top is listed as #2, which is correct. Line #3 has the revision listed as 1. Please submit a corrected page with the number 2 listed as the revision, to match the top of the page.
2. Comment #9. Submit a corrected page 73/384 omitting the last sentence of the **Consolidation/Stabilization Operations**, "Once approved and the operations commence proper equipment will be purchased."
3. Comment #15. Figure II.A.5-1, Modified Facility Site Plan, the comment states that "no berm is needed, and the Stabilization and Consolidation Area will remain as it is currently." Please submit a corrected figure that deletes the berm shown between the Non-Hazardous Waste Storage and Waste Consolidation and Stabilization Area.

Please submit the requested items within the next 30 days.

Call with any questions at your earliest convenience.

Regards,
Bob Cook
