Part II - Adjustments

**Economic Benefit (EB) Calculations**  
**EB = AC(1-T) + DC(I) + DirC**  
**AC** = Avoided Costs - expenditures nullified by violator's failure to comply (operating and maintenance costs)  
**T** = Corporate Tax Rate = 21% (in 2020)  
**DC** = Delayed Costs - expenditures deferred by violator's failure to comply  
**I** = Interest rate charged by IRS for delinquent accounts = 4% (in 2020)  
**DirC** = Direct Costs - Special category Avoided costs. E.g. Monitoring, Permit Fees, or WW treatment costs

Violation	Description	AC	T	DC	I	DirC	Count	EB
1	The facility did not conduct and document HW determinations on two wastestreams: Item 1. Cost estimate for TCLP volatile 2,4-dinitrotoluene retain sample analysis = \$242 + \$150 sampling fee = \$392. DC = \$392(0.04) = \$15.68 Item 2: Cost estimate for TCLP volatile 2,4-dinitrotoluene retain sample analysis = \$242 + \$150 sampling fee = \$392. DC = \$392(0.04) = \$15.68 \$15.68 + \$15.68= \$31.36		21%	\$784	4%			\$31.36
8	The facility did not conduct six required inspections: Cost for senior staff to conduct the inspections at a labor rate of \$40 per hour = 6(40)(1-.21)= \$189.60	\$240	21%		4%			\$189.60
