RE: Compliance Assistance Offer

Universal Environmental Services, LLC ~ HW FLR000050369 ~ Seminole County

Site Inspection on October 25, 2023

Dear Mr. Eckoff,

I am writing in response to the Compliance Assistance Offer dated October 25, 2023 in reference to the inspection performed on August 29, 2023. There are 2 noted 'New Potential Violations and Areas of Concern'.

In response to the first item for Rule: 403161(1)(b), the current SPCC Plan and Inspection Record are in place. I would like to schedule a time, at your convenience, for you to return to the site to visually inspect these items in place.

In response to the second item for Rule: 62-710.510(1)(d), concerning type of used oil on the shipping papers, I can offer the following. This was also discussed on April 4, 2023 during an inspection at the UES Ocala location. After communications between Michael Schorr, CHMM, UES Director, Government and Regulatory Affairs and Wanda Robles, Environmental Specialist, Florida Department of Environmental Protection, Central District Office, she found our computer database information sufficient for reporting. We use the same database.

I look forward to your reply.

Sincerely,

Ronald C Patterson
