## FLORIDA PROFESSIONAL GEOLOGIST CERTIFICATION

This closure assessment report for the 30,000-gallon used oil tank at the Cemex SCL Cement Mill and Quarry facility located at 1200 NW 137<sup>th</sup> Avenue, Miami, Miami-Dade County, Florida has been reviewed by George K. Foster of Creative Environmental Solutions, Inc. (CES), Brooksville, Florida, and appears to comply with the current standards and practices in the field of geology in the State of Florida. CES's professional services have been performed using the degree of care and skill ordinarily exercised under similar circumstances by other professionals practicing in this field. The certification of geologic work contained herein applies only to the original sealed document(s), and specifically does not pertain to any copies of this document or any portion thereof including mylars, linen, sepia or other materials which can be changed by the entity or entities with whom such document(s) are filed. No other warranty, expressed or implied, is made as to the professional advice in this report.

  
George K. Foster, PG 403

## **INTRODUCTION**

The Cemex SCL Cement Mill and Quarry facility is located at 1200 NW 137<sup>TH</sup> Avenue, Miami, Miami-Dade County, Florida and has been assigned Facility Identification Number 8521974. This Tank Closure Assessment Report (TCAR) is for a 30,000-gallon used oil above ground storage tank (AST) that has been removed. The tank was taken out of service decades ago. A site location map (Figure 1) and a site plan (Figure 2) are attached. The tank had been located at position 25°47'11.67" N and 80°25'10.36" W.

The tank held used oil that fueled the old wet-process cement kiln that was retired decades ago. At the same time, the product line that served the system was abandoned in place and filled with concrete.

## **IDENTIFICATION OF CONTRACTORS**

Cliff Berry, Inc. of Miami, Florida conducted all construction activities. Waste soil and water were disposed in the Waste Management facility in Pompano Beach, Florida. Creative Environmental Solutions, Inc. (CES) of Brooksville, Florida prepared this TCAR.

## **SUMMARY OF CLOSURE ASSESSMENT**

The 30,000-gallon used oil tank was removed on May 30, 2018 after 300 gallons of oily water had been pumped from the tank and disposed offsite. Removal of the underlying slab and enclosing building followed the tank removal. Impacted soil was identified beneath the tank on June 5, 2018, and Miami-Dade County Department of Environmental Resources Management (DERM) was notified of the release via email the same date. Between July 9 and July 11, 2018, impacted soil and concrete from around the base of the tank were excavated and disposed offsite. The presence of impacted soil was based on visual examination only. The areas excavated are shown on Figure 3. Photographs made during the excavation activities are attached. The excavation revealed the presence of free product on the water table. On August 6, 2018, product floating on the water table was skimmed and disposed offsite. The ratio of product to water was not estimated. On August 7, 2018, additional impacted soil was excavated and disposed offsite. Between

August 8 and August 27, 2018, additional product floating on the water table was skimmed and disposed offsite. No soil or groundwater samples were collected and/or analyzed as part of the TCAR. Waste manifests and weigh tickets are attached. A Discharge Reporting Form (DRF) was submitted to DERM on August 20, 2018; a copy is attached.

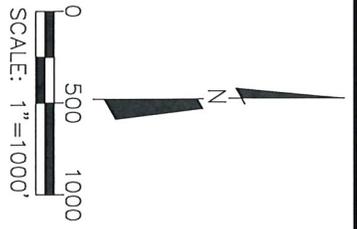

## **RESULTS**

The source removal produced an excavation inside the containment structure roughly 25 feet by 25 feet in area and 6 feet deep. The excavation outside and on the west side of the containment structure was approximately 30 feet long, 5 feet wide and four feet deep. The water table was approximately 5 feet deep at the time of the source removal. According to the manifests, 35,800 gallons of petroleum-impacted water were pumped and disposed offsite. According the manifests and weigh tickets, 289.89 tons of petroleum-impacted soil were excavated and disposed offsite.

## **CONCLUSIONS AND RECOMMENDATIONS**

The closure assessment demonstrated that a petroleum release has occurred at this facility. Additional impacted soil will be excavated and disposed offsite the week of October 8, 2018. The area will be backfilled with clean soil. At that time, a site assessment will be initiated. A formal Site Assessment Report will be delivered to DERM within 270 days of the date of discovery, which was June 5, 2018.

DISCHARGE REPORTING FORM

# Department of Environmental Protection

2600 Blair Stone Road ♦ Tallahassee, Florida 32399-2400

## DISCHARGE REPORT FORM

DEP Form: 62-762.901(1)  
Form Title: Discharge Report Form  
Effective Date: January 2017  
Incorporated in Rule 62-762.411, F.A.C.

Complete all applicable blanks, and submit copies of any analytical or field test results confirming contamination to soils, surface water, or groundwater to the County via email or mail.

Facility ID Number (If Registered): 8521974 Date of Form Completion: 8/20/2018 Date of Discovery: 6/5/2018  
Facility Name: CEMEX Miami Cement Plant County: Miami-Dade  
Facility (Property) Owner: CEMEX Construction Materials of Florida LLC Telephone Number: (305) 229-2949  
Owner Mailing Address: 1200 NW 137th Ave, Miami FL 33182  
Location of Discharge (Facility Street Address): 1200 NW 137th Ave, Miami FL 33182 Lat/Long: 25.783/-80.417  
Date of receipt of any test or analytical results confirming a discharge: N/A Estimated number of gallons discharged: unknown

**Discharge affected:** (Check all that apply)  
 Soil  Groundwater  Soil water (water body name) \_\_\_\_\_  
 Drinking water well(s)  Shoreline  Other (specify) \_\_\_\_\_

**Evidence of discharge:** (Check all that apply)  
 Visual observation of sheen  Results or receipt of results of analytical tests  Stained soils  
 Visual observation of free product  Spill or vehicle overfill > 25 gallons to a pervious surface  Other (explain in comments)

**Method of discovery and confirmation of discharge:** (Check all that apply, see rule language explanation on instructions for this form)  
 Visual observation  Closure/Closure sampling assessment  Surface water analytical results  
 Groundwater analytical results  Soil analytical results  Other (specify) \_\_\_\_\_

**Type of regulated substance discharged:** (Check all that apply)  
 Gasoline  Jet fuel  Mineral acids (ASTs)  
 Diesel  Used/waste oil  Ammonia compound  Chlorine compound  
 Heating oil  New motor/lube oil  Biofuel blends  
 Kerosene  Pesticide  Unknown  
 Aviation gas  Grade 5 & 6 residual oils  Other (specify) \_\_\_\_\_  
 Hazardous substance (USTs) – write name or Chemical Abstract Service (CAS) #: \_\_\_\_\_

**Discharge originated from a:** (Check all that apply)  
 Tank  Other secondary containment  Railroad tankcar  
 Piping  Fitting or pipe connection  Barge, tanker ship or other vessel  
 Spill bucket  Valve  Pipeline  
 Dispenser  Tank truck  Drum  
 Piping sump  Vehicle or customer vehicle  Unknown  
 Dispenser sump  Aircraft  Other (specify) \_\_\_\_\_

**Cause of the discharge:** (Check all that apply)  
 Spill  Material failure (crack, split, etc.)  Collision  Weather  
 Overfill  Material incompatibility  Vehicle accident  Human error  
 Corrosion  Improper installation  Fire/explosion  Unknown  
 Puncture  Loose connection  Vandalism  Other (specify) \_\_\_\_\_

**Actions taken in response to the discharge:**  
Upon discovery of the impacted soil after the tank was removed, Miami-Dade County DERM was notified via email on June 5, 2018. The concrete slab of the building was removed and impacted soil was excavated and disposed off site. Since then, product has been skimmed from the open excavation with a vac truck.

**Comments:**  
Skimming impacted area is ongoing. A plan is being developed to remove the impacted material and remediate the area.

**Agencies notified (as applicable):**  
 Fire Department  County Program Miami-Dade DERM  District Office  State Watch Office  National Response Center  
800-320-0519 800-424-8802

To the best of my knowledge and belief, all information submitted on this form is true, accurate and complete.
