Re: Guidance
Characteristic Wastewater Release
Aqua Clean Environmental
FLR000034033

Dear Coral:

I'm seeking guidance on suitable backfill options. I've located a potential source at the CC Calhoun Pit, which is situated at 3000 Bannan Island Rd, Haines City, Florida. The supplier has provided a clean fill certification (see attachment) for the pit; however, the most recent sample certification is dated March 24, 2009. Will this fill comply with FDEP's clean fill standards? If it doesn't, do you have a list of pre-approved vendors that you could share?

Thank you for your attention to this matter. Please let us know if you need any additional information or clarification.
