Re: First Request for Additional Information (RAI)

Aqua Clean Environmental, LLC
EPA ID Number: FLR 000 034 033
Current Used Oil & Material Processing Permit 294693-011-HO & 294693-012-SO
DEP Application Number: 294693-014-HO & 294693-013-SO
Polk County - Hazardous Waste

Dear Mr. Ashmore:

Thank you for your application for an Used Oil & Material Processing Permit Renewal for the above referenced Facility. A Department staff review of the application submitted on March 12, 2025, indicates the application is incomplete. Pursuant to the provisions of Rule 62-730.220, Florida Administrative Code (F.A.C.) and Chapter 403.722, Florida Statutes (F.S.), all processing of the application is suspended when a permit application is deemed incomplete. Please provide the Used Oil information listed below, as well as comments pertaining to Solid Waste (see attached Solid Waste Material Processing Memorandum).

1. Part 1, B. 3 did not reference a topographic map. Additionally, Figure A-3 is referenced as a USGC Topographic map but did not include contour lines representing elevations and potential flood risks. This figure is out of focus and blurred; features such as roads and drainage are difficult to identify. Also, this figure was dated 2018 and may no longer be representative of current site conditions and weather patterns.
2. Figure A-2 FEMA map is not legible, even if zoomed in PDF version. Ensure that the re-submittal is representative of 100-year flood plain data and readable when zoomed; this is especially pertinent with this site, as it appears to be immediately adjacent to swampy low-lying areas.
3. The Spill Prevention Control and Countermeasure Plan (SPCC) is dated August 25, 2022. Please ensure that the SPCC information is up to date.

4. There are minor typo errors within the submittal that should be corrected. Page 2 of 9 bold typed "IS" after ACE US EPA. Section 2.0 of the Used Oil Analysis Plan there is a typo associated with abbreviating Total Organic Halogens, "TH". For clarity, please consider including City of Lakeland Publicly Owned Treatment Works to reference its acronym POTW.

In order for the Department to continue processing your application, please submit the information requested as soon as possible, and refer to this correspondence in your response. The response must be signed, sealed, and dated by a registered Florida Professional Engineer. The Department must receive a response within 30 days of the date of this letter, or April 20, 2025, unless a written request for additional time to provide the requested information is submitted and approved. Pursuant to subsection 62-730.220(6), F.A.C. and Section 120.60, F.S., failure of an applicant to provide the timely requested information by the applicable deadline may result in denial of the application.

Please submit the response in electronic format to HWPP@dep.state.fl.us, with a copy to Jeff.a.ray@floridadep.gov. If the file is very large, you may post it to a folder on this office's ftp site at: <ftp://ftp.dep.state.fl.us/pub/incoming/DWM/RCRA/>. After posting the document, please contact the Department's RCRA Manager and provide notification that it has been posted.

If you have any questions, please contact Jeff Ray by telephone at (850) 245-8913 or Jeff.a.ray@floridadep.gov. Please contact Philip J. Ciaravella for Solid Waste Section questions at (850) 245-8742 or by e-mail at Philip.ciaravella@floridadep.gov.

Sincerely,

Michell Mason Smith, Environmental Administrator
Hazardous Waste Program & Permitting

Memorandum

TO: Jeff Ray

FROM: Phil Ciaravella

SUBJECT: WACS ID 98770. Review Comments, Application for Renewal of the Solid Waste Processing Operation Permit; Aqua Clean Environmental, Lakeland, Florida. Received March 13, 2025

DATE: March 20, 2025

-
1. Please provide a completed solid waste processing facility application form 62-701.900(4). The form can be found at: [Application to Construct, Operate, or Modify a Waste Processing Facility | Florida Department of Environmental Protection](#) (Rule Reference 62-701.710 (2), F.A.C.)
 2. Please provide a description of the operation of the facility including: (Rule Reference 62-701.710(2)(a), F.A.C.).
 - a. The types of materials, i.e., wastes, recyclable materials or recovered materials, to be managed or processed;
 - b. The expected daily average and maximum weights or volumes of materials to be managed or processed;
 - c. How the materials will be managed or processed;
 - d. How the materials will flow through the facility including locations of the loading, unloading, sorting, processing and storage areas;
 - e. The types of equipment that will be used;
 - f. The maximum time materials will be stored at the facility;
 - g. The maximum amounts of wastes, recyclable materials, and recovered materials that will be stored at the facility at any one time; and
 - h. The expected disposition of materials after leaving the facility.

Note: Facility information that was submitted to the Department to support the expiring permit, and which is still valid, does not need to be re-submitted for permit renewal. The permit renewal application shall list and reaffirm that the information is still valid. Rule 62-701.320(10)(c)
