Re: Visual Tank Test

On 04-22-99, Criner Petroleum & Wellpoint Service, Inc. of Orlando, Fl. performed a visual site inspection of tanks on property. New valves and fittings had been installed on tanks where noted before. All tanks were full of fuel and lines were full also. No leaks in either tanks or lines were noticed upon inspection.

Thank You,

James E. Criner
Field Supervisor
Criner Petroleum & Wellpoint Service, Inc.
