12/16/2024

This is a closure inspection for 2 Underground Storage Tanks (UST) at Duval County – CIRCLE K #2726188.

Tanks Removed from Site:

Tank 7 – 10,000 gallons for Unleaded Gasoline.

Tank 8 – 8,000 gallons for Premium Gasoline.

Contractor: Coastal Construction and Petroleum Services, Inc.

Environmental: TERRA-COM Environmental Consulting, Inc.

30-45 day & 48-72 hour written notifications: Provided.

On 12/16/2024, COJ EQD inspector Osman Villegas-Avila met with Mark Lyncker from Coastal Construction and Petroleum Services, Inc. to conduct the inspection. Upon arrival, the excavation process was taking place to remove both tanks. The dispenser sumps and pipes had been removed from the ground.

Later that day, both tanks were fully removed from the ground. They appeared to be in fair condition. No petroleum odors or staining were detected where Tanks 7 & 8 were previously located.

The sampling was held instead of the Closure Integrity Evaluation by TERRA-COM Environmental Consulting, Inc.

Tanks 7 & 8 were emptied before removal by Water Recovery, LLC on 12/11/2024. The disposal of liquids/sludges indicated on the waste manifest was Water Recovery, LLC at 1819 Albert St., Jacksonville, FL 32202.

Tanks 7 & 8 were cleaned up by Coastal Construction and Petroleum Services, Inc. All petroleum-contaminated water was safely contained and disposed of by HEPACO, Inc. Both tanks were crushed on site and disposed of into dumpsters provided by North Florida Rolloff Services.

The facility's FDEP Storage Tank Registration was updated to reflect that Tanks 7 & 8 were removed from the site on 1/6/2025, without complying with the required 10 days after the completion of the closure, or by 12/26/2024.

A Full Closure Assessment Report needs to be submitted to tankprogram@coj.net within 60 days of the completion of the closure or by 2/14/2025.

The inspection report and letter were completed off-site and emailed to Ira Lewis at ilewis@circlek.com, Joey

Sissler at joey.sissler@circlek.com and Trey Lyncker at trey@ccpetroleum.net.

Storage tank registration fees are due to the FDEP each year by July 1. Ensure that your contact information is up to date with the FDEP in order to receive updates concerning your annual registration fees. Once fees are paid, you may print a copy of your placard from the FDEP's website (<https://floridadep.gov/waste/storage-tank-compliance>) Note: The up-to-date placard must be posted on site

RECORDS SHALL BE KEPT FOR THREE YEARS IN ACCORDANCE WITH RULE 62-762.711 & 62-761.710 F. A.C.

***NOTE: All testing and monthly inspections for all tanks must be completed and up to date at the time of the next Compliance Inspection. ***

***Comment: Violations that are not resolved within 90 days from the date cited will be referred to the Florida Department of Environmental Protection's Northeast District Office and will be subject to a Consent Order with penalties. ***
