Duval County – Solid Waste**

Dear Mr Parker:

The Florida Department of Environmental Protection (DEP) Northeast District Solid Waste staff has finished reviewing SCS Engineers' December 22, 2010, report entitled, "December 2010 Landfill Fire Mitigation Summary Report Trail Ridge Landfill." Based on the report and our investigation it appears that Trail Ridge personnel acted quickly to identify, contain and extinguish the November 29, 2010, landfill fire. The report further indicates, and DEP concurs, that no damage to the liner or any other landfill structure occurred as a result of the fire. No further action regarding this issue is required at this time.
