Re: CEMEX Construction Materials Florida, LLC, Brooksville North Cement Plant Waste  
Tire Processing Facility, Permit No. 71066-003-WT/02

Dear Ms. Madden:

This letter is in response to your letter dated January 10, 2011; requesting proof of financial assurance in the name of CEMEX Construction Materials Florida, LLC; for the above referenced permit. On February 1, 2011, I provided an email from Corporate; staff indicating that the process of acquiring the new financial instruments was nearing completion. However, as of today's date, I have not received indication that the process has progressed to completion. The new bond and standby trust fund agreement was submitted to Mr. Frank Hornbrook, FDEP, and the trust fund required revision. As a result of the time it takes to move through the process; I am requesting an extension of the time provided by your office to submit the documents. In order to allow sufficient time for the process to move through the CEMEX Corporate office and FDEP; I am requesting an extension of time until March 18, 2011.

Your assistance in this matter would be greatly appreciated. Should you have any questions and/or comments or require additional information, please contact me at 352-799-7881, ext 104, or [gtownsend@cemexusa.com](mailto:gtownsend@cemexusa.com).

Respectfully,

George Townsend  
Environmental Manager

pc: James S. Daniel, Plant Manager
