### **C. EMERGENCY PROCEDURES**

Every effort shall be made to operate the facility in a safe manner. In the event of a small fire, the personnel discovering the fire should determine if it can be extinguished safely and quickly with the available fire extinguisher. If the fire can safely be extinguished with available materials, appropriate actions should be taken, and timely notification made to the Director or Customer Service Crew Leader.

In the event of a larger fire, the Director and/or Customer Service Crew Leader, or other such person as may from time to time be designated, shall be notified immediately and he/she shall notify 911, and mobilize on-site equipment, which include one (1) 1,000 gallon water tank with pump, until emergency response vehicles arrive at the site. In addition, there is a fire hydrant in the vicinity of the southwest corner of the tire storage area. The Citrus County Fire Rescue, the emergency response agency for the Central Landfill, has a facility located approximately one and one-half miles from the Central Landfill.

In the event of a large fire creating oily material at the site, the following procedure shall be implemented:

- 1) The area shall be diked with absorbent to prevent spreading;
- 2) Absorbents shall be spread to clean up material;
- 3) Used absorbents shall be contained in 55 gallon steel drums;
- 4) The drums shall be properly disposed of through the County's Hazardous Waste Disposal Contractor;
- 5) Other such steps as are deemed necessary by the Fire Services officer-in-charge at the scene and/or the Director of Solid Waste Management.

All materials needed for clean up and disposal are stored in the Household Hazardous Waste Collection Center located at the southwest corner of the Central Landfill.

### **D. FOLLOW UP**

In the event of an emergency, the permittee shall immediately (within 24 hours) notify the FDEP explaining the occurrence and remedial measures to be taken, method to prevent reoccurrence, and time needed for repair. Written, detailed notification shall be submitted to the FDEP within seven (7) days following the occurrence.
