**Subject: Tomoka Farms Road, North Cell Closure
Permit # SF64-0078767-027**

Dear Mr. Lubozynski:

As discussed on August 22, 2011, HDR found a typographical error in the Intermediate Modification Permit Application, dated August 2010 for the Tomoka Farms Road Landfill North Cell Class I Closure that was submitted and approved by the FDEP. In Appendix D (Technical Specifications) of the permit application, the specification 02930 – Geocomposite contains a table for the Geocomposite Properties (Table 02930-3). The specified value for the Transmissivity listed in that table should be $9.0 \times 10^{-4} \text{ m}^2/\text{s}$ as opposed to what is presented in the table. This table can be found on page 02930-9 of the specification.

We apologize for any confusion this may have caused. If you have any questions concerning the specification, please feel free to contact me at 904.598.8900 or Lenny Marion at 386.943.7889.

Very truly yours,
HDR Engineering, Inc.

Carlo Lebron, P.E.
Vice President
