RETURN RECEIPT REQUESTED

Michael D. Vardeman  
CSR Rinker Materials Corp.  
1200 NW 137 Avenue  
Miami, Florida 33182

Dear Mr. Vardeman:

The Department of Environmental Resources Management (DERM) has been delegated by FDEP to review and process state permits. On April 27, 2001, you were notified that your application for the renewal of solid waste management permits, FDEP file Nos. SO13-290034 & SO13-300512, was incomplete. The required information necessary to complete your application was itemized (copy attached). When a permit application is incomplete, all processing of the application is suspended. Pursuant to Section 120.60 Florida Statutes, the Department may deny an application if the applicant, after receiving timely notice, fails to correct errors, omission, or supply additional information within a reasonable period of time.

It has been forty-five (45) days since we notified you of the deficiencies in your application. Please remember that your permit(s) must be renewed by this Department to avoid possible interruption of your operations. Rule 62-4.055(1), F.A.C. states that within thirty days after receipt of an application and the correct processing fee the Department shall review the application and shall request submittal of additional information, which the Department is authorized by law to request. The applicant shall have ninety days after the Department mails a timely request for additional information to submit that information to the Department. If an applicant requires more than ninety days in which to respond to a request for additional information, the applicant may notify the Department in writing of the circumstances, at which time the application shall be held in active status for one additional period of up to ninety days. Additional extensions shall be granted for good cause shown by the applicant. A showing that the applicant is making a diligent effort to obtain the requested additional information shall constitute good cause. Failure of an applicant to provide the timely requested information by the applicable deadline shall result in denial of the application. Failure to submit the itemized information within forty-five (45) days of receipt of this letter may result in proposed agency action denying your application.

If you have any questions, please contact Mr. James Carter, P.E., at telephone number (305)-372-6806.

Sincerely,

Robert E. Johns, P.E., Chief  
Waste Regulation Section  
POLLUTION CONTROL DIVISION

Please advise us if:

- ☐ You wish to withdraw your application.
- ☐ You need additional time to obtain the required information and we will receive the information in approximately \_\_\_\_\_ days.
- ☐ You have questions about our request and you wish to discuss your application with us.

You may check more than one of these items. Please sign and return this cover letter to us within 15 days of the day you receive it.

---

RETURN RECEIPT REQUESTED  
CERTIFIED MAIL NO.  
7099 3400 0000 5915 3139

Dear Mr. Vardeman:

This is to acknowledge receipt of your application for a permit renewal, file number 0133892-002-SO. See item checked below for the status of your application.

- ☐ This letter constitutes notice that a permit will be required for your project pursuant to Chapter(s) \_\_\_\_\_, Florida Statutes.
- ☐ Your application for permit is complete as of \_\_\_\_\_ and processing has begun. You are advised that the Department under Chapter 120, Florida Statutes, must take final action on your application within ninety (90) days unless the time is tolled by administrative hearing.
- ☒ Your application for permit is incomplete. Please provide the information listed on the attached sheet(s) promptly. Evaluation of your proposed project will be delayed until all requested information has been received.
- ☐ The additional information received on \_\_\_\_\_ was reviewed, however, the item(s) listed on the attached sheet(s) remain incomplete. Evaluation of your proposed project will continue to be delayed until we receive all requested information.
- ☐ At this time, no permit is required for your project by the Solid Waste Section. Any modifications in your plans should be submitted for review, as changes may result in permits being required. This letter does not relieve you from the need to obtain any other permits (local, state or federal) which may be required.

If you have any questions, please contact Mr. James Carter, P.E. at telephone number (305)-372-6806. When referring to this project, please use the file number indicated.

Sincerely,

Robert E. Johns, P.E., Chief  
Waste Regulation Section  
POLLUTION CONTROL DIVISION

DERM File # 10118 (SW#1117 )

In order to complete the review of your application pursuant to Sections 403.061, 403.704 and 403.707, Florida Statutes (F.S.), and Section 62-713, Florida Administrative Code (F.A.C.), please provide the following information.

#### REQUEST FOR ADDITIONAL INFORMATION

To be in compliance with the requirements of Rule 62-713.400 (1) (c) an application must include an operations plan. Please note the following:

1. The subject application refers to the original application for Permit No. SO13-300512 found in FDEP's files. Said application, received January 29, 1997, has attached a "Report in support of application for a material reduction facility". The report describes a "high solids slurry" process. However, it is the Department's understanding that a dry process Portland cement plant was constructed by Rinker Materials Corp (RMC).
2. Wash water and other liquid wastes generated at the subject facility had been re-used in said "high solids slurry" process. A change to a dry process may necessitate the disposal of said liquid wastes.
3. In accordance with Rule 62-713.400 (3), F.A.C, a groundwater monitoring plan is required. Based on CH2MHILL's Historical Groundwater Monitoring Report, dated June 8, 2000, monitoring wells No. 11 through No. 14 were removed from the sampling plan. Said removal was approved by FDEP on January 5, 1993. In addition, FDEP, in a letter dated March 6, 2000, required an update of monitoring well locations.
4. DERM and FDEP files show several other modifications of the permits listed in Item No. 3 above.
5. A permit for the thermal treatment of contaminated soil issued under 62-713 F.A.C. would result in the combination of Permits Nos. SO13-290034 (GP) and SO13-300512, which expire June 7, 2001 and June 4, 2002, respectively.

Therefore, the Department requires the submittal of revised operations and site plans, and an updated groundwater monitoring plan for the subject facility.
