Comrades, most of you have received a copy the application amendment for the addition of another incinerator unit at the Lee Waste-to-Energy facility. Davd Layne is giving us a deadline to review the application and provide comments. I've been asked to coordinate those comments. Please submit your comments to me by December 6, 2002. Likewise, if you have no comments please let me know so we can expedite our response to Mr. Layne.
Thanks for your help!
