Dear Mr. Dick:

I would like to summarize the agreements we made in our October 10 meeting regarding the status of the Citrus County Landfill operation permit.

1. The proposal being prepared presently by Seaburn and Robertson will be submitted by December 1. This should be a complete response to Andy Berry's incompleteness letter of November 27, 1985. If the response is not received by that day, an Intent to Deny will be issued on December 2, and the case will be referred for enforcement.
2. My understanding is that the proposal will outline 2 options, and the Board must choose both an option and whether or not they wish to offer the jobs for bids. This dictates the following possible outcomes.
  - a. Acceptance of Proposal and Seaburn and Robertson to implement- In this case you will have until January 1 in which to notify us as to the chosen option. Implementation will be February 1.
  - b. Rejection of proposal/Bidding of Job- If the board chooses this course of action, we expect immediate notification. We will require a Consent Order be signed in early December which will allow 90 days to notify us of the chosen option and engineering firm. Implementation will be within 30 days of the date of notification.

RECEIVED

OCT 16 1986

Tom Dick, Director  
Page Two

October 13, 1986

We feel that these steps are necessary to ensure that the agreed deadlines are met. We will not allow the passage of these deadlines as has been done for the last year. Failure to submit the required information will result in immediate denial and enforcement action.

Sincerely,

Nicholas A. Bruno, ESII  
Solid Waste Section
