Subject: Supplemental Hydrogeological Information
Project: ~~Hardee County Regional Sanitary Landfill~~
EVI Job
Number: 81014-82(1)

BUR OF DW&S

Dear Mr. Lewis:

Enclosed, as supplemental information, are four (4) copies of the results of some additional subsurface exploration work performed at the site. This work was done to complement the work originally presented in the report included with the permit application. This additional work demonstrates that the impervious clay layer beneath the site is continuous. It also shows that the dewatering system is property oriented as shown.

We are available to meet with you, at your convenience, to discuss this transmittal.

Yours truly,
ENVISORS, INC.

Dale D. Ernsberger, P.E.
Project Manager
