RE: Application for Registration of Yard Trash Processing Facility

Dear Sir or Madam:

This letter is in response to the Departments request that we register our Yard Trash Disposal Site. According to Chapter 62-709.320(2.c) our facility is exempt due to the fact that it is permitted under our current Class I Landfill Operating Permit No. 38414-002-SO. Should you have any questions, please feel free to contact me.

Sincerely,

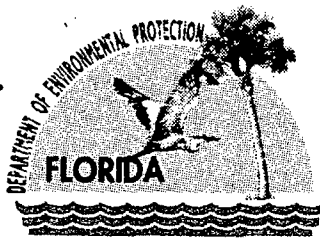

Janice Williamson,
Solid Waste Superintendent

Ms. Janice Williamson
Solid Waste Superintendent
Hardee County Solid
Waste Department
685 Airport Road
Wauchula, Florida 33873-8663

Dear Ms. Williamson:

I have received your letter dated March 12 regarding the application for registration of a Yard Trash Processing Facility. You indicated that your facility is not required to register because it is permitted under your current Class I landfill Operating Permit No. 38414-002-SO.

On March 29, I left a message for you indicated that it is true that those yard trash processing facilities do not need to register when the operation is covered under a DEP solid waste permit. However, we do need to receive a completed annual report. As I have not yet received an annual report for your facility, I am enclosing the annual report form for your use. Please complete this attached form and return to me at the above address, Mail Station 4565.

If I can be of assistance, please contact me. I can be reached at telephone 850/921-9977 or email Francine.Joyal@dep.state.fl.us.

Sincerely,

Francine Joyal

Dear Ms. Joyal:

Attached is the annual report for yard trash processing at our facility.

Upon entering the landfill, each load of yard waste is weighed and recorded. We are not required to re-weigh the yard waste once it has been processed and therefore we cannot provide you with the weights on processed yard waste. Processed yard waste is given away to the public for use as mulch and it is used for erosion control and daily cover in the Class I Landfill. We are required to process the yard waste every six months or when quantities are sufficient (1,000 tons) for our contractor to mobilize.

We hope this information is useful and we thank you for your clarification.

Sincerely,

Janice Williamson,
Solid Waste Superintendent
