Volusia County – SW WACS # 27540  
Tomoka Farms Road Landfill  
Phase III Landfill GCCS Construction for Closure  
Approval of Certification of Construction Report

Dear Mr. Marion:

The Department has completed the review of the report titled “Report of Construction, December 9, 2011 – April 16, 2012, Phase III Landfill Gas Collection and Control System Construction for Closure, Sequence 1, Tomoka Farms Road Landfill,” submitted on your behalf by HDR Engineering, Inc. The report was dated September 10, 2012 and received by the Department on September 19, 2012. The report and DEP Form 62-701.900(2) were signed and sealed by Professional Engineer of Record, Mr. Clifford G. Koenig, P.E., of HDR Engineering, Inc.

In the Report, DEP Form 62-701.900(2) was filled out and states “No deviations from gas collection system masterplan.” Multiple deviations to the original design were detailed in the Report, section Summary of Construction, including the addition of three vertical gas extraction wells. The Department deems such changes to be deviations significant enough to be listed on DEP Form 62-701.900(2). Regardless, the deviations were detailed and thoroughly explained within the report. Therefore, based upon the Report, the deviations from plans outlined in the Report, and the certification by the Professional Engineer of Record, the Department concurs that the North Cell gas collection system construction for closure sequence 1 has been completed and is substantially consistent with the intent, plans and specifications approved in DEP Permit No. SF64-0078767-028.

Mr. Marion
