Re: Lee County Solid Waste Resource Recovery Facility
Ground Water and Surface Water Monitoring Plan - Revised Well Location

Dear Mr. Gould:

As per our telephone conversation on November 4, 1992, enclosed please find a copy of revised Figure 13 entitled "Proposed On-site Monitoring Locations". As illustrated on Figure 13, well nest #4 has been relocated to correspond with the location of the existing on-site shallow well MW-5. The Revised Figure 13 replaces Figure 13 of the Monitoring Plan.

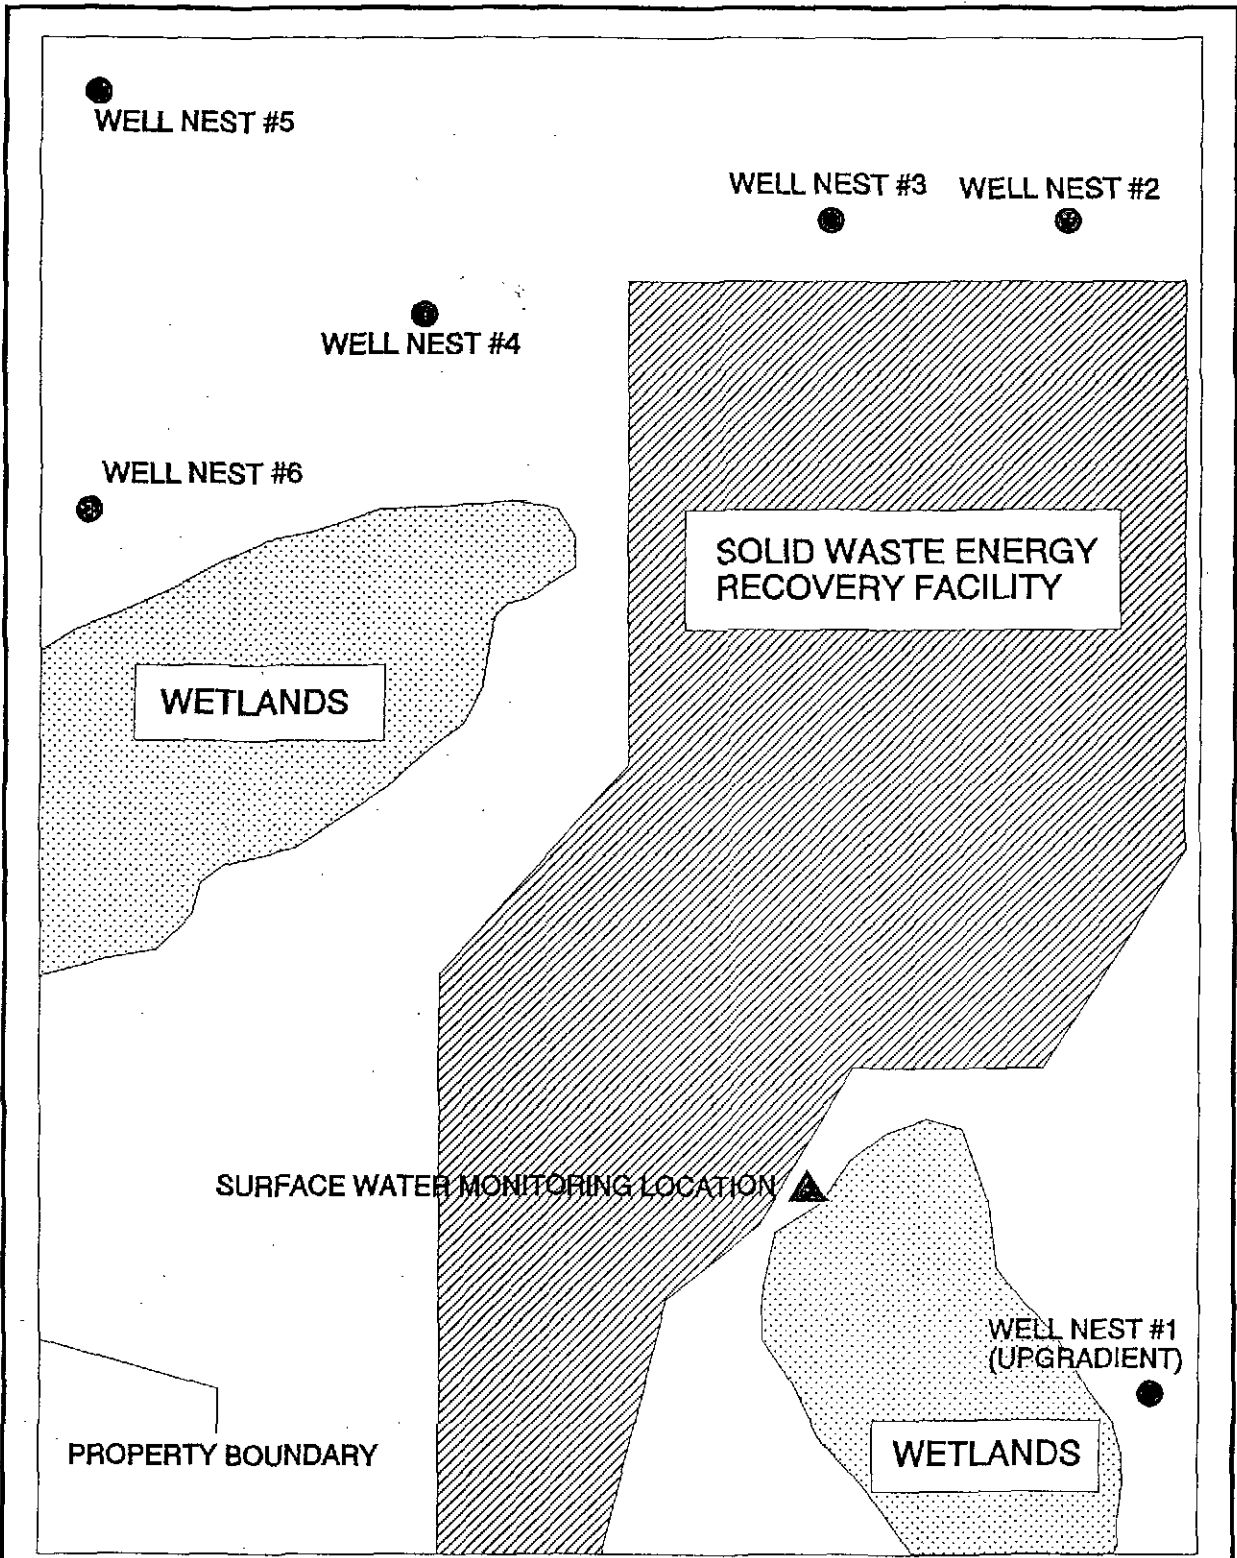

As we discussed, drilling activities are anticipated to be conducted from November 11, 1992 through November 20, 1992. I look forward to meeting you at the site sometime during the field activities. Please feel free to call me if you have any questions.

Very truly yours,

MALCOLM PIRNIE, INC.

Michael van der Heijden
Project Engineer
