Mr. Brian Durden  
Florida Department of Environmental Protection  
Northeast District  
7825 Baymeadows Way, Suite 200B  
Jacksonville, Florida 32236

**Permit Number 0013494-017-SO**  
**Notification of Continued Waste Placement on Side Slopes**

Dear Mr. Durden:

This is a letter of notification of continued waste placement on side slopes at Trail Ridge Landfill as required by Specific Condition # 13 of our Permit and as outlined in our July 19, 2012 letter to you. At that time we anticipated side slope waste placement to conclude by November 1, 2012, however the time needed to complete the work needs to be extended. Side slope waste placement is in preparation for the next Incremental Closure segment. A larger than normal working face may be required; however, it will only be wide enough to accommodate daily volumes and sized to minimize the exposed waste area and cover material will be applied daily.

Please find attached a map of the area that will receive final waste placement over the next few months. Waste placement will generally progress in a west to east fill sequence. The anticipated completion date will be January 31, 2013.

Please do not hesitate to contact me a (904) 748-6012 if you have any questions or require any additional information.

Sincerely,

A handwritten signature in black ink, appearing to read 'Greg Mathes', written over a circular scribble.

Greg Mathes  
Sr. District Manager  
Waste Management Inc. of Florida
