**SUBJECT: Lee County Resource Recovery Facility
Yard Waste Processing and Recycling Facility
Certification PA 90-30
2004 Annual Report for a Yard Trash Processing Facility**

Donald D. Stilwell
County Manager

David M. Owen
County Attorney

Diana M. Parker
County Hearing
Examiner

Dear Ms. Joyal:

Enclosed please find the 2005 Annual Report for the Lee County Yard Waste Processing and Recycling Facility that was sent in error to the D.E.P. South District office. Mr. Bill Krumbholtz of the South District office returned the report to me and gave me your name as the contact person.

Lee County Solid Waste contracts with Lace Construction, Inc., d/b/a D. J. Casey Enterprises to operate the Yard Waste Processing and Recycling Facility. D. J. Casey grinds yard waste on site and hauls the mulch to an off-site facility for composting.

In accordance with 62-709.320(1)(c) of the Florida Administrative code, registration of the yard waste processing operation is not required because the site is authorized under the Conditions of Certification issued for the Resource Recovery Facility, PA 90-30, which remains valid. Department correspondence dated August 10, 2000, which is attached for reference, approves the construction of the Yard Waste Processing Facility. If you have any questions or require additional information, please call me.

Sincerely,

William T. Newman
Operations Manager
Solid Waste Division

P.O. Box 271
Tallahassee, Florida 32302

Dear Mr. Dee:

The Department has received and reviewed your letter dated August 9, 2000, concerning Lee County's request to modify the Conditions of Certification (COC) for the Lee County Resource Recovery Facility. As noted in your letter, the Department has not received any objections to Lee County's plan to build a Materials Recovery Facility and a Yard Waste Processing Facility on the certified site for the Resource Recovery Facility. We also note that all of the parties involved in the site certification hearing were provided copies of the County's proposal to build a MRF and Yard Waste Processing Facility. Neither the Department nor any of the agencies or other parties have proposed any new or modified conditions of certification to address these two new facilities. Thus, it appears that the conditions of certification for the Lee County Resource Recovery Facility do not need to be modified for the construction of the MRF and Yard Waste Processing Facility.

Based on the Department's review, it appears that the MRF and Yard Waste Processing Facility can be treated as amendments to the County's application for site certification, pursuant to DEP Rule 62-17.205(1)(d), F.A.C. For this reason, the Department has no objection to the County going forward with the construction of the Materials Recovery Facility and Yard Waste Processing Facility.

The Department's conclusions about these issue are subject to several important qualifications. First, the Department assumes that the facts stated in your letter are accurate and correct. If they are not, the Department may need to reconsider and revise its decision. Second, Lee County must comply with

"Protect, Conserve and Manage Florida's Environment and Natural Resources"

Lee County RRF
August 10, 2000
page 2

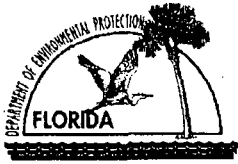

all of the applicable conditions of certification, as well as all of the other applicable local, state and federal laws or requirements, if the County proceeds with its plan to build a MRF and Yard Waste Processing Facility.

Sincerely,

Hamilton S. Owen

URGENT FOR REVIEW PLEASE COMMENT PLEASE REPLY PLEASE RECYCLE

NOTES/COMMENTS. PLEASE CONTACT THE OFFICE IMMEDIATELY IF TRANSMITTAL IS NOT RECEIVED PROPERLY. THANK YOU

Francine: Items 8, 10a, 10b, and 10c are measured on our scale. Items 7d & 7b were estimated last year. Items 11a & b were rechecked by myself and I revised the density based on the BMP. I am confident with the revised measurements and densities for the year end, but adjusted the beginning of Report year numbers. Please call me if you have questions.

Bill
