RE: Lena Road Landfill Quarterly Waste Tire Processing Facility Report  
First Quarter 2013  
Waste Tire Permit #126654-003-WT/02

Dear Ms. Pelz:

Enclosed is the above referenced report for the period of January 1, 2013 to March 31, 2013. The supporting reports are generated from the Lena Road Landfill Scalehouse. Only pertinent information from the reports is included in the waste tire report. This data includes Tires In, Tires Out, and Illegal Dumping – Tires. They are defined as follows:

- o Tires In: Tires delivered to the Landfill by the general public.
- o Tires Out: Tires which are removed from the waste tire storage area by the County's contracted vendor for processing.
- o Illegal Dumping – Tires: Tires that are illegally dumped within Manatee County then subsequently picked up and delivered to the Landfill by various public agencies.

Most tires delivered to the Landfill are stockpiled and subsequently removed from the site by a contracted vendor. A small percentage of tires are not accepted by the vendor per the specifications of their facility; those tires are landfilled and recorded in the adjustments category. No processing or consumption of tires occurs at the Landfill. Therefore, processed and consumed tires have been recorded as zero. All other tire categories have been entered where appropriate. All tires recorded for this report are considered used tires.

If you should have any questions or need additional information, please feel free to call me at 941-748-5543.

Sincerely,

Rhyan Grech  
Recycle Program Coordinator

- Explain all inventory adjustments.  
The Ending Inventory from the last report (Q4 2012) was inaccurate due to a failure to account for landfilled tires. This report shows an Ending Inventory of 0 in order to "reset" the calculation. All reports moving forward will accurately calculate removed vs landfilled tires, the latter of which will be included in the Adjustments box.
- List any period in which one or more category of inventory exceeded the permitted maximum for that category. How was that condition relieved?

For any excess inventory at the end of the quarter, state how and when this condition will be relieved. Attach Additional sheets, if necessary.
