RETURN RECEIPT REQUESTED

Re: Groundwater Monitoring Report dated March 19, 2004 and prepared by CH₂M Hill for the Rinker Materials Corporation facility (SW-1117/File-10118) located at, near, or in the vicinity of 1200 NW 137th Avenue, Miami, Miami-Dade County, Florida.

Dear Mr. Emery:

The Department of Environmental Resources Management (DERM) has reviewed the above-referenced document received March 22, 2004. The Pollution Remediation Section acknowledges the fact that MW-8 and MW-19 are no longer accessible. Continue the regularly scheduled GWMP sampling without MW-8 and 19. However, MW-11 must be re-installed and sampled in accordance with the approved Groundwater Monitoring Plan.

Pursuant to permit condition #27 and to Chapter 62-701, Florida Administrative Code, continue with the designated monitoring (sample quarterly), items and timeframes (submit semi-annually) as stipulated in the permit.

Be advised that failure to comply with the above may result in enforcement action for this site.

If you have any questions concerning the above, please contact David B. Shapiro, P.G. of the Pollution Remediation Section at (305) 372-6700.

Sincerely,

A handwritten signature in black ink, appearing to read "Wilbur Mayorga", written over a horizontal line.

Wilbur Mayorga, P.E., Chief
Pollution Remediation Section
