Subject: Tomoka Farms Road Landfill Quarterly Landfill Gas Migration Monitoring DRAFT, WACS ID 27540
Date: Friday, September 20, 2013 11:29:00 AM

Mr. Marion:

I have reviewed the “Quarterly Landfill Gas Monitoring Report—Third Quarter 2013” submitted to the Department by Jennifer Stirk on 9/19/13 for the subject facility. The report documents monitoring of methane gas concentrations at the property boundary and within structures on the property to determine the effectiveness of the gas migration controls. The report shows methane gas was not detected at locations designated for monitoring at the time of the 9/17/13 monitoring event. Please continue the quarterly landfill gas monitoring as required by your solid waste permit.
