INSPECTION TYPE:

Construction Completion Certification Inspection for Landfill - Class III facility

ATTACHMENTS TO THE INSPECTION CHECK LIST:

This Cover Page to the Inspection Checklist may include any or all of the following attachments as appropriate.

COMMENTS:

07/26/2013

This site visit was conducted to inspect the construction of the next phase of the active gas collection system. Due to an increase in odors emitting from the Cell 3 disposal area, the timing of the installation of the next gas collection construction event was accelerated.

This construction event included the installation of three horizontal collectors in Cell 3 tied to an existing well head in Cell 2 (GW-7). At the time of this inspection, one line was completed and the second line was being installed. Odor was present within the Cell. No odors were noted off site.
