John,

We concur with the draft permit modification language.

Scott

Scott,

Please see email from John Morris below.

I think the permit mod is good for the County in a number of ways but if you still have any concerns please let me know.

Regards,

Rick

Importance: High

Rick:

Good morning. I don't believe I've received anything from Sumter County regarding the draft permit revisions as referenced below. Could you remind them to send an acknowledgement via e-mail? I'd very much like to forward the modification for signature this week.

Thanks.

John

Subject: Sumter County Closed Landfill - LTC Permit Modification

Mr. Morris,

On behalf of Sumter County we have reviewed the draft permit modification to the landfill's long-term care permit, discussed proposed changes with the County, and find the proposed changes acceptable. In accordance with your request, a revised Site Map (Figure 1) showing the locations and numbers of all monitoring wells and piezometers and the configuration of the modified Zone of Discharge boundary is attached.

Concurrence with the draft permit language by Sumter County will be acknowledged by separate email.

Thank you for your helpful assistance with this permit modification. Please let me know if any further action on the part of Sumter County is necessary to complete the permit process.

Best regards,

Richard L. Potts, Jr. P.G.
