Annual Estimate of the Remaining Life and Capacity

Dear Mr. Lubozynski:

In accordance to Rule 62-701.500(13)(c) of the Florida Administrative Code (FAC), Waste Management Inc. of Florida respectfully submits the attached “Remaining Waste Disposal Capacity and Life” report for the Vista Landfill located in the City of Apopka, Orange County. The remaining waste capacities and disposal life presented in this report are based on aerial topographic mapping performed on December 13, 2013. Note that the City of Apopka copy includes an attached original certified topographic map.

During the period between annual flyover dates of January 14, 2013 and December 13, 2013, approximately 275,450 bank cubic yards of disposal capacity was consumed. During this same period, approximately 179,529 tons of waste was disposed of at the site. This equates to an “Airspace Utilization Factor” (AUF) of 0.65 tons per cubic yard, inclusive of cover soils.

Waste placement occurred in Cell 3.

A summary of the remaining disposal capacity and life is attached. Please feel free to contact me at 407/902-1469 should you have any questions.

Respectfully,

A handwritten signature in blue ink that reads 'Sheree Grant'.
