RE: Variance No. SWV 91-7

Dear Commissioner Harris:

On August 28, 1992, the Department issued Variance No. SWV 91-7 which allows Manatee County to continue to dispose of the unsegregated portion of its yard trash in a lined landfill while it constructs a waste reduction/recycling facility. This variance is valid until April 17, 1993, but provides for an automatic one-year extension if Manatee County is in substantial compliance with its proposed timeframe for completion of the facilities.

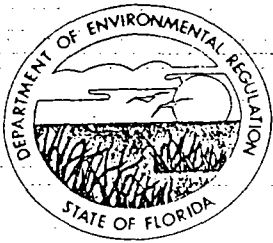

While Manatee County has fallen behind its original schedule, it is clear from the evidence presented that the delays have been beyond the control of the County, and that the County has and continues to proceed in good faith to complete the proposed facility. Therefore, the Department finds that the variance should be automatically extended for another year. Variance No. SWV 91-7 is hereby extended and will remain valid until April 17, 1994. All conditions and requirements of that variance continue in effect.

Sincerely,

John M. Ruddell, Director
Division of Waste Management
