RE: Certification of Construction Completion  
Phase 1 Closure of the Class 1 Landfill – Permit No. 22755-021-SF/01  
Northwest Waste Management Facility (ID SWD-27-40722)  
Hernando County, Florida

Dear Mr. Harper:

The Department has reviewed the above mentioned document prepared in support of the Certification of Construction Completion for the Phase 1 closure of the Class 1 Landfill located at the Northwest Waste Management Facility (WACS 40722) located in Hernando County, Florida.

With the exception of the Deviations in Design (section 4.0) identified in the submittal, the Department has determined that the Phase 1 closure was constructed substantially in accordance with the approved design and construction requirements of the Permit No. 22755-021-SF/01.

The Department therefore approves the Certification of Construction Completion Report for the Phase 1 Landfill Closure of the Class 1 Landfill.

If you would like to discuss any issue in this letter, please contact either Phil Ciaravella at (850) 245-8742 ([philip.ciaravella@dep.state.fl.us](mailto:philip.ciaravella@dep.state.fl.us)) or myself at (850) 245- 8760. ([henry.freedenberg@dep.state.fl.us](mailto:henry.freedenberg@dep.state.fl.us)).

Sincerely,

Henry Freedenberg, P.E./P.G
