Re: Taft Recycling, Inc. Transfer Station/MRF-WPF  
Permit No. SO48-0173968-005  
HSA Project No. 06-404.001

Dear Mr. Bradner:

On behalf of Taft Recycling, Inc. (Taft), HSA Golden is requesting an extension of time for the temporary acceptance of Class I Municipal Solid Waste (MSW) into the existing MRF building.

More specifically, Taft is requesting an additional six (6) months to complete the Orange County Building Department permit approvals and construction for the planned permanent building expansion.

We trust that our request is acceptable, and look forward to your approval. Please call me if you have any questions.

Sincerely,

**HSA GOLDEN**

As requested in your letter, dated June 19, 2006 and received by the Department on June 20, 2006, I have no objection to continued Class I temporary operations authorized in Specific Condition 33 of DEP Permit No. SO48-0173968-005. Please renew this request again if construction of the permanent Class I facilities will not be completed and certified by December 31, 2006. You may call or send a reply by email if you have questions or need further information.

Re: Taft Recycling, Inc. Transfer Station/MRF-WPF  
Permit No. SO48-0173968-005  
HSA Project No. 06-404.001

Dear Mr. Bradner:

On behalf of Taft Recycling, Inc. (Taft), HSA Golden is requesting an extension of time for the temporary acceptance of Class I Municipal Solid Waste (MSW) into the existing MRF building.

We are making some progress, Taft recently received permit approval from Orange County Zoning and Environmental Protection Division, see attached. However, Taft is requesting an additional six (6) months to complete the Building Department permit approvals and construction of the planned permanent building expansion.

We trust that our request is acceptable, and look forward to your approval. Please call me if you have any questions.

Sincerely,

**HSA GOLDEN**

Latitude / Longitude: 28° 25' 33" / 81° 22' 59"

Permittee / Authorized Entity:

**Taft Recycling, Inc.**

This permit is issued as approved by the Orange County Board of County Commissioners under the provisions of the Orange County Code. Upon acceptance of this permit, the permittee agrees that the facility shall be operated in accordance with all federal, state, and local laws, including the Orange County Code, and agrees to conform to the terms and conditions of this permit, including the 75 conditions hereto attached.

A COPY OF THIS PERMIT SHALL BE DISPLAYED IN A PROMINENT PLACE AT THE FACILITY AT ALL TIMES.

General Conditions:

1. In the case of any conflict among these conditions, or between these conditions and applicable laws, the more extensive and restrictive requirements shall apply.
2. It shall be unlawful to operate a solid waste management facility in those areas of Orange County which are not in any municipality and in areas within any municipality that, by ordinance or interlocal agreement, provides for the regulation of solid waste management facilities by Orange County in accordance with the provisions of Chapter 32, Article V, Orange County Code, without a valid Orange County permit.
3. All plans, reports and other supporting documents submitted with the permit application, as approved, are incorporated as part of this permit and operation shall proceed in accordance with these documents. This permit includes, at a minimum, the following documents:
  - a. Permit Application: Class I and III Waste Processing Facility, dated May 2005, and submitted by James E. Golden, P.G., HSA Golden.
  - b. The Environmental Protection Division's (EPD) "Request for Additional Information, dated July 7, 2005.
  - c. Permit Application: Class I and III Waste Processing Facility, dated August 2005, and submitted by James E. Golden, P.G., and David L. Legget, P.E., HSA Golden.
  - d. The EPD's Request for Additional Information, dated January 31, 2006.
  - e. Letter and attachments: Taft Recycling, Inc., Existing Materials Recovery Facility and Proposed Transfer Station, Response to Comments for Permit Application, August 2005 Submittal; Project No. 04-297.013, dated March 1, 2006, and submitted by James E. Golden, P.G., HSA Golden.
  - f. Letter and attachments: Taft Recycling, Inc., Materials Recovery Facility and Proposed Transfer Station; Project No. 04-297.013, dated April 6, 2006, and submitted by James E. Golden, P.G., HSA Golden.
  - g. Letter and attachments: Taft Recycling, Inc., Materials Recovery Facility and Proposed Transfer Station; 375 Seventh Street, Taft, Florida; Project No. 04-297.013, dated April 20, 2006, and submitted by James E. Golden, P.G., HSA Golden.
4. Any modifications to or deviations from this permit must be submitted to the EPD for review. The EPD shall determine if the modification or deviation is minor, or is major or substantial. The EPD may approve or deny minor modifications or deviations. Only the Board of County Commissioners (BCC) may approve substantial deviations from or major modifications to this permit.
5. This permit does not relieve the permittee from the responsibility of obtaining and maintaining any/all other applicable federal, state, or local permits and renewals thereto required for the site.

6. The permittee shall maintain any current valid permit(s) required in Section 62-701 through 62-722 Florida Administrative Code.
7. Solid waste management operations shall not obstruct or materially interfere with natural watercourses, water management or control plans, road system or right-of-way, or cause flooding on adjacent properties.
8. Solid waste cannot be placed in any natural or artificial body of water, including groundwater.
9. No solid waste may be stored, processed, or disposed of in a manner or location that will cause air quality, water quality, or receiving water standards to be violated.
10. The permittee shall maintain and provide to the EPD evidence of financial responsibility, and financial assurance, using an approved method, in an amount equivalent to the County's total cost of closure for the facility for the period of time when the extent and manner of operation make the closing most expensive.
11. After all proposed construction has been completed, and before acceptance of any solid waste in the proposed construction area, the engineer of record shall certify to the EPD that the permitted construction is complete and that it was done in accordance with the plans submitted to the EPD except where minor deviation was necessary. All deviations shall be described in detail and the reasons therefore enumerated. The permittee shall provide at least 14 days advance notice to the EPD prior to accepting solid waste in the proposed construction area so that the EPD has the opportunity to inspect the site.
12. All activities at the facility shall be performed in accordance with the operation and maintenance manual and plans for the facility. Manuals and plans shall be updated whenever relevant operations change.

Security and Access Conditions

13. The facility shall be open to the County for the purpose of inspection during normal working hours of the facility and at any other time when work is in progress.
14. The hours of operation, as approved by the Board of County Commissioners, are:  
    Monday - Friday: 24 hours  
    Saturday: Midnight - 5:00 p.m.  
    Sunday: 9:00 p.m. - Midnight

Receipt or shipment of waste, and waste processing, are limited to within the Hours of Operation. Activities such as maintenance and cleaning are not considered operation and may be scheduled at the facility's discretion.

15. A sign listing the approved hours of operation shall be posted and maintained in a manner that is clearly visible upon approach to the main entrance(s) to the facility.

16. Site access shall be controlled by an at least 6-foot-high security chain link fence, or equivalent approved method. Fences or walls shall comply with Section 32-216(b)(10) and 38-1408, Orange County Code. Site access control shall be inspected at least quarterly and maintained at all times by the permittee. Gates shall be locked when the site is not open for business.
17. Warning signs at least 3 feet square, that does not exceed 4 square feet in copy area, shall be posted and maintained at each corner of the fence and not more than 500 feet apart along the fence. Signs shall be positioned behind the fence and visible from offsite. On the sign shall be printed in letters of not less than 5 inches in height the words, "No Trespassing," or other approved appropriate warning.
18. A scalehouse or gate attendant equipped with radio contact to other facility employees shall be present at all times when the site is open for business, and must be positioned to allow observation of incoming and exiting traffic.

Waste Quality Control

19. The facility may receive, extract recyclable materials from, and temporarily store or hold, but not dispose of on-site, the following materials:
  - a. Class III waste, and construction and demolition debris waste, within the approved tipping floors;
  - b. Class I waste within the approved tipping floors served by the leachate management system.

Wastes shall only be unloaded or loaded within the approved tipping floors. Temporary storage of wastes onsite shall not exceed the quantities covered in latest approved Financial Assurance mechanism.

20. A sign listing waste materials acceptable to the site shall be posted and maintained in a manner that is clearly visible upon approach to the main entrance(s) to the facility.
21. All putrescible wastes shall be removed from the facility within 48 hours.
22. An operator trained in accordance with Rule 62-701.320(15), F.A.C., shall be on duty whenever the facility is operating.
23. Each shipment of incoming waste must be inspected by a spotter, or interim spotter, trained and performing duties in accordance with Rule 62-701.320(15), Florida Administrative Code. Spotters shall perform their duties from a location where they can thoroughly inspect each shipment of waste for prohibited materials. The spotter(s) shall have the authority and responsibility to reject unauthorized loads. If unauthorized waste is identified during or after unloading, the spotter(s) shall have the authority and responsibility to reload the customer's vehicle for removal from the site. Finally, if reloading is not feasible, the spotter(s) shall have the authority and responsibility to assess appropriate surcharges and have the unauthorized material removed by on-site personnel. In all instances the

transporter and generator of the unauthorized solid waste must be notified to prevent future occurrences, and a log of all such unauthorized waste shipments shall be maintained at the site.

24. Hazardous wastes, universal wastes, and regulated nonhazardous wastes shall be managed in accordance with Resource Conservation and Recovery Act and the Florida Administrative Code, as appropriate. Manifests for the shipment of all such wastes must be maintained on-site.
25. The operator shall inform the County immediately of the receipt of any shipment containing greater than 25 gallons or 220 pounds of hazardous waste, or of the greater than de minimis discharge of any hazardous waste in the facility, and provide a written plan within 5 days advising the date of discovery and how the hazardous waste was properly disposed. If laboratory confirmation is needed, the laboratory results shall be provided to the County. Once waste is confirmed to be hazardous, it shall be properly managed within 5 days. In the case of release or discharge above threshold quantities, the State Warning Point (1-800-320-0519) shall be notified.
26. Pressure-treated lumber (i.e., treated with chromated copper arsenate) will not be recovered from the waste stream for chipping or mulching, but will be transported off-site for proper disposal.
27. Rejected wastes must be promptly removed and shipped off-site for management at an appropriate facility. Rejected waste must be removed within 1 week.
28. Recovered materials must be shipped out within 1 year of processing.

#### Ancillary Operations Conditions

29. Appropriate permits must be obtained from local, state, and federal agencies for any ancillary operations.
30. Maintenance of facility equipment will be performed by a properly licensed off-site mobile contractor or at an in-house maintenance facility upon review and approval by the EPD. Any wastes that are generated must be properly managed.

#### Community Stewardship Conditions

31. The only permitted routes for vehicular access to and from the site are those approved by the Orange County Board of County Commissioners. Those are:
  - a. Landstreet Road; Taft Vineland Road; Thorpe Road; 4th Street;
  - b. Sidney Hayes Road;
  - c. West Seventh Street;
  - d. Recycle Center Road, if authorized by owner(s);No vehicular access to and from the site is allowed:

- a. Between Orange Avenue and Sidney Hayes Road on: Pine Street, Palmetto Street, Cypress Street, First Street, Second Street, and Third Street;
- b. Between Landstreet Road and Fourth Street on: Boyce Avenue, Avenue C, and Avenue E.

At least once per quarter, the permittee shall notify customers of routes that are approved and not approved, and of their obligations under this permit and Section 32-111, "Loads on vehicles," Orange County Code.

The permittee shall employ the services of an Orange County Sheriff's Office off-duty deputy, to assist in the enforcement of traffic rules along the routes identified above. These services shall be for a period of not less than:

- a. 8 hours per week during the first year that this permit is in effect;
- b. 8 hours per fortnight during the second year that this permit is in effect;
- c. 8 hours per month for the third and remaining years that this permit is in effect.

32. The permittee shall be responsible for cleanup of all litter generated from the permittee's operation per Section 32-113 and 32-216(b)(10), Orange County Code. In addition, on an as needed basis, but not less than once per week, the permittee shall be responsible for cleanup of customer generated litter from:
  - a. West Seventh Street (east from the facility to Sidney Hayes Road);
  - b. Sidney Hayes Road (between West Seventh Street and Palmetto Street);
  - c. Fourth Street (between Sidney Hayes Road and Boyce Avenue);
  - d. Boggy Creek Canal access road (adjacent to property);
  - e. Recycle Center Road, if authorized by owner(s).

Cleanup shall take place along publicly accessible right-of-ways and with all necessary safety precautions.

33. Hauling companies shall be notified of any of their loads that are uncovered or untied when arriving at the entrance to the facility. Upon the third offense by a driver, that driver shall be banned from the facility for a period of not less than 1 month. A log of banned drivers shall be maintained at the facility.
34. Driveways, streets, and facilities for routing traffic shall be designed in such a manner that entrances and exits to public streets are not hazardous and that traffic congestion is minimized in accordance with Section 32-216(b)(15) and Chapter 38, Orange County Code.
35. The facility shall be operated to control objectionable odors in accordance with Section 38-1453, Orange County Code, and Subsection 62-701.710(4), Florida Administrative Code. At a minimum, odor control shall include the use of a system of misters releasing an environmentally benign odor-masking agent at all building openings.

36. Areas where waste is stored or processed shall be cleaned, at least weekly, to prevent odor or vector problems. Areas where Class I waste is stored or processed shall be cleaned at least daily, and washed at least weekly. All drains and leachate conveyances shall be kept clean so that leachate flow is not impeded.
37. Excessive growth of grass, weeds, and brush on property shall be minimized in accordance with Chapter 28, Article II, Orange County Code.
38. In areas not approved for processing of wastes or storage of recovered materials, accumulation of trash, junk, debris, and nonliving plant material shall be minimized in accordance with Chapter 28, Article II, Orange County Code.
39. Vectors and pests shall be controlled through the appropriate use of pesticides and other approved methods to minimize impact on adjacent properties.
40. Fugitive dust emissions shall be controlled per Section 38-1452, Orange County Code and Section 62-296.320, Florida Administrative Code. In areas that are not paved, dust shall be managed through landscaping where appropriate. Otherwise, off-site release of dust shall be managed by periodic application of water or other approved dust suppressant, at least 3 times per day during operating hours, subject to any water use restrictions of the water management district and rainfall.
41. Setback areas shall be at least:
  - a. Front yard (southern boundary): 35 feet  
10 feet if Seventh Street west end is vacated
  - b. Side yard (western boundary): 25 feet
  - c. Side yard (eastern boundary): 25 feet
  - d. Rear yard (northern boundary): 10 feet
42. Setback areas shall be landscaped to provide a visual buffer from adjacent properties. Landscaping shall be designed to minimize visual impacts of both the operation and the final closed facility from surrounding properties and roads and shall be consistent with the Orange County Landscape Ordinance as codified in Orange County Code, Chapter 24. At a minimum, landscaping shall include the following:
  - a. A 10-foot wide landscape buffer around the perimeter of the property.
  - b. Live oaks, at least 10 feet tall, having a 3-inch caliper diameter at 6 feet height, spaced 50 feet on center, along the western boundary (approximately 12 total); or approved equivalent.
  - c. Live oaks, at least 10 feet tall, having a 3-inch caliper diameter at 6 feet height, spaced 50 feet on center, along the northern boundary (approximately 11 total); or approved equivalent.

- d. Crepe myrtles, at least 7 feet tall, having a 2-inch caliper diameter at 4 feet height, spaced 50 feet on center, along the eastern boundary (approximately 14 total); or approved equivalent.
- 43. Recovered materials may only be stored within approved storage areas. Neither the front yard setback area, nor the landscape buffer area, may be used for open storage. Storage of recovered materials is limited to the quantities covered in latest approved Financial Assurance mechanism.
- 44. The facility shall provide collection and treatment of all stormwater runoff (25-year event) from the facility. If the request to vacate that portion of Seventh street (west of Recycle Center Road) noted in the application is approved by the County, that area shall be considered part of the facility for stormwater management, with the exception of any drainage easement provided for stormwater flow from off-site.
- 45. The permittee shall conduct weekly inspections of the stormwater management system, and any required maintenance or repairs will be conducted within 7 days.

---

Reporting and Record Keeping Conditions

- 46. The following items shall be maintained and available for review at the facility for a period of at least 3 years:
  - a. A copy of the complete permit including plans, reports, and other supporting documents;
  - b. Unauthorized waste receipt logs maintained in an unauthorized waste receipt logbook;
  - c. Manifests and/or receipts for leachate tank pump-out;
  - d. Manifests for any hazardous waste, universal waste, or regulated nonhazardous waste, shipped off-site;
  - e. Credentials for operators and spotters;
  - f. A list of customers notified about haul routes and restrictions;
  - g. A log of drivers banned because of uncovered or untied loads;
  - h. A log of patrol schedule and any activity reports provided by the Orange County Sheriff's Office off-duty deputy hired by the facility to monitor vehicular access routes.
- 47. The following items shall be submitted to the EPD on a quarterly basis, and maintained and available for review at the facility:
  - a. A report of solid waste type and quantity managed at the facility, including the amount and destination of treated, recycled or recovered materials leaving the site for reuse, used as raw material or disposed;
  - b. A report of stormwater management system inspections and any repairs;

- c. A report of site access control (gate and fence) inspections and any repairs.
- 48. The following items shall be submitted to the EPD on an annual basis:
  - a. Cost estimates and proof of financial assurance shall be updated and submitted to the department for review whenever relevant operations change, or annually at a minimum;
  - b. A report of annual leachate collection system and tank inspections and any repairs. This should also include a log of all leachate tank pump-outs.

Transfer/Renewal/Closing/Revocation Conditions

- 49. This permit may be transferred only upon approval by the Orange County Board County Commissioners as outlined in Section 32-214(i).
- 50. Applications for renewal of a permit, with required supporting documentation, shall be submitted at least 90 days in advance of expiration of the existing permit.
- 51. If the facility ceases accepting waste prior to the expiration of this permit, it shall close in accordance with the provisions of this permit.
- 52. Closure shall take place as documented in the application and:
  - a. The owner or operator shall notify the EPD in writing prior to ceasing operations, and shall specify a closing date. No waste shall be received by the facility after the closing date.
  - b. Within 30 days after receiving the final solid waste shipment, the owner or operator shall remove or otherwise dispose of all solid waste or residue in accordance with the approved closure plan. Stored putrescible wastes shall be removed in 48 hours.
  - c. Closure must be completed within 180 days after receiving the final solid waste shipment. Closure will include removal of all recovered materials from the site.
  - d. Regardless of any financial assurance, the permittee is responsible for all costs to properly close operations at the facility.
- 53. This permit may be revoked at any stage per Section 32-217, Orange County Code.

Fires, Emergency Preparedness, and Continuity of Operations Conditions

- 54. Open burning of solid waste is prohibited.
- 55. Adequate fire protection shall be available at all times.
- 56. Methods used to extinguish fires should adequately address any emergency, but should minimize potential adverse impacts on the environment. The use of water

- may produce or spread leachate that can impact groundwater. Alternatives and/or controlled use shall be considered.
57. A fire fighting agreement signed by the solid waste management facility operator and the Orange County Fire Chief, as outlined in 32-215(a)(21), Orange County Code, shall be maintained and updated whenever relevant operations change.
  58. The operator shall inform the EPD immediately of any fires that persist longer than 1 hour.
  59. Class I waste shall not be accepted at any time there is a reasonable anticipation by the permittee or EPD that:
    - a. Due to equipment failure, capacity, or any other reason, the waste or its residue cannot be shipped out within 48 hours; or
    - b. Electricity, whether utility or back-up generator supplied, will not be available to properly operate the leachate collection system or odor control system.
  60. Once approved recovered materials storage limits are reached, no additional recovery of that item can occur. No wastes shall be accepted at any time there is a reasonable anticipation that the lesser of either approved storage limits or available capacity for that waste will be exceeded.

Waivers Conditions

61. As required, the following items have been properly waived by the Board of County Commissioners:
  - a. Hours of Operation as described in Chapter 32, Orange County Code.

Board of Zoning Adjustment Conditions

62. Development in accordance with site plan, dated Received February 24, 2006, the December 21, 2005, Development Review Committee conditions and all other applicable regulations. Any deviations, changes, or modifications to the plan are subject to the Zoning manager's approval. The Zoning manager may require the changes be reviewed by the Board of Zoning Adjustment (BZA) for administrative approval or to determine if the applicant's changes require another BZA public hearing.
63. All outdoor lighting shall be in accordance with Chapter 9, Orange County Code.
64. Access, drainage, roadway improvements and concurrency management shall be determined by the Public Works Department.
65. Landscaping shall be in accordance with Chapter 24, Orange County Code.
66. Outdoor storage of Class I solid waste is prohibited.
67. Hours of operation shall be in accordance with Chapter 32, Orange County Code.

---

**CONDITIONS OF THIS SOLID WASTE MANAGEMENT FACILITY PERMIT**

---

- 68. Prior to operating the site a flood plain permit is required.
- 69. Construction plans shall be submitted within 3 years or this approval becomes null and void.
- 70. Haul route, dust emissions, litter control, odor and screening shall be subject to EPD review and BCC approval of the permit.

Development Review Committee Conditions

- 71. Development shall conform to the Taft Material Recovery Facility and Transfer Station Expansion Site Plan, dated Received February 24, 2006, and to the following conditions of approval. Development based upon this approval shall comply with all applicable federal, state, and county laws, ordinances, and regulations, which are incorporated herein by reference, except to the extent the applicable laws, ordinances, and regulations are expressly waived or modified by these conditions, or by action approved by the BCC, or by action of the BCC.
- 72. Billboards and pole signs shall be prohibited. Other signage shall be consistent with Chapter 31.5 and any state signage requirements.
- 73. Prior to earthwork or construction, the developer shall provide a copy of the completed National Pollutant Discharge Elimination System (NPDES) Notice of Intent (NOI) form for stormwater discharge from construction activities to the EPD, NPDES. The original NOI form shall be sent to the Florida Department of Environmental Protection.
- 74. Outdoor storage of Class I solid waste is prohibited. This shall include the overnight parking of vehicles containing uncovered Class I solid wastes.
- 75. This facility will be required to connect to central sewer service upon notification by the County that central sewer service is available on the west end of 7<sup>th</sup> Street.

- End of Conditions -

Taft Recycling, Inc. Transfer Station/MRF-WPF  
FDEP Permit No. S048-0173968-005  
Request for Six-Month Extension to Continue Acceptance of Class I MSW

Dear Mr. Golden:

This will acknowledge receipt, on February 6, 2006, of your February 3, 2006 letter requesting a six-month extension of time for the temporary acceptance of Class I municipal solid waste (MSW) into the existing MRF building. The existing MRF building had been altered so it could properly accept Class I MSW. The justification for the request is that an additional six months is needed to complete the Orange County Zoning, Environmental Protection Division, and Building Department permit approvals for the permanent building expansion.

The Department agrees to the six-month extension through August 13, 2006, with the stipulation that all operations must continue according to the approved operation plan. If the new construction is not complete by June 13, 2006, you must submit a new request to continue the temporary Class I MSW operation in the existing MRF building (Permit specific condition Number 33). That request must include documentation that not only demonstrates the need for another extension, but also demonstrates there is reasonable expectation that the new construction will be completed. If the new facility is under construction, a statement from the building contractor should be included that provides an estimated date for the Certificate of Occupancy. If the new building is not under construction, documentation from the applicable Orange County government offices must indicate whether permission will ever be granted, and if so, what is the estimated date for that permission.

Neither this letter nor any prior agreement with the Department relieves you of the responsibility for complying with any applicable ordinances, rules, or laws of any local, county, state, or federal government entity.

Please call me at 407-893-3329 if you have questions or need further information.

Sincerely,

James N. Bradner, P.E., Manager  
Solid and Hazardous Waste Program

Re: Taft Recycling, Inc. Transfer Station/MRF-WPF  
Permit No. SO48-0173968-005  
HSA Project No. 04-297.15

Dear Mr. Bradner:

On behalf of Taft Recycling, Inc. (Taft), HSA Golden is requesting an extension of time for the temporary acceptance of Class I Municipal Solid Waste (MSW) into the existing MRF building.

More specifically, Taft is requesting an additional six (6) months to complete the Orange County Zoning, Environmental Protection Division and Building Department permit approvals for the planned permanent building expansion.

We trust that our request is acceptable, and look forward to your approval. Please call me if you have any questions.

Sincerely,

**HSA GOLDEN**

A handwritten signature in black ink, appearing to read "James E. Golden".
