**Cc:** Madden, Melissa; Tafuni, Steven; Roff, Nick; 'Hartmier,Bruce'; Ronald J. Walker  
**Subject:** RE: Segregated non-MSW and tires records

It has been the County's policy not to receive asbestos materials at the West Pasco Landfill from the opening date back in 1991.

Sincerely,

*John Power*

Pasco County  
Director of Solid Waste  
727-856-0119

**Subject:** RE: Segregated non-MSW and tires records

Viet and John,

Thank you for getting back to me so quickly with the requested information. The only additional information I requested below was asbestos-related records. Has asbestos been received at all in the landfill in the last five years? If not, approximately when was the last shipment of asbestos received, and please provide relevant information as indicated below (e.g., GPS coordinates, quantity, nature of asbestos, etcetera.). If no asbestos has ever been received, please indicate that as well.

Sincerely,  
Amaury

**Subject:** RE: Segregated non-MSW and tires records

Hi Amaury,

The attached waste records show there were no segregated loads of tires delivered during December 2014 and January 2015.

There has not been segregated load of non-MSW materials subject to the percentage weigh limitation received for processing.

**Subject:** Segregated non-MSW and tires records

Hi Viet,

I hope you are well. When you have a chance, can you send me records for (1) December 2014 and January 2015 for Specific Condition A.29 of permit 1010056-008-AV (see below) and (2) records of the most recent asbestos acceptance deliveries and landfill disposal locations, including GPS coordinates, if applicable? I copied John Power in case he knows about any asbestos receipt records, if applicable.

**“A.29. Segregated Solid Waste Record Keeping.** The following records shall be made and kept to demonstrate compliance with the segregated non-MSW percentage limitations of Specific Condition **A.6.** of this subsection:

- a. Each segregated load of non-MSW materials, subject to the percentage weight limitations, which is received for processing, shall be documented as to waste description and weight. The weight of all waste materials received for processing shall be measured and recorded using the facility truck scale.
- b. Each day the total weight of segregated tires received shall be computed, and the daily total shall be added to the sum of the daily totals from the previous days in the current calendar month. At the end of each calendar month, the resultant monthly total weight of tires shall be divided by the total weight of all waste materials received in the same calendar month, and the resultant number shall be multiplied by 100 to express the ratio in percentage terms. The percentage computed shall be compared to the 3% limitation to insure compliance with Specific Condition **A.6.** of this subsection.

- c. Each day the total weight of segregated non-MSW materials received that are subject to the 5% restriction shall be computed, and the daily total shall be added to the sum of the daily totals from the previous days in the current calendar month. At the end of each calendar month, the resultant monthly total weight of segregated non-MSW materials subject to the 5% restriction shall be divided by the total weight of all waste materials received in the same calendar month, and the resultant number shall be multiplied by 100 to express the ratio in percentage terms. The percentage computed shall be compared to the 5% limitation to insure compliance with Specific Condition **A.6.** of this subsection.

[Rules 62-4.070(1) and (3), and 62-212.400(BACT), F.A.C.; and 1010056-007-AC (PSD-FL-127B)]”

If you need help with this request, please let me know.

Thank you,  
Amaury
