PERMITTEE

Hardee County Solid Waste
Department
Ms. Janice Williamson,
Solid Waste Superintendent
685 Airport Road
Wauchula, Fl 33873

PERMIT/CERTIFICATION

GMS ID No: 4025C30001
Permit No: 126620-001-SO
Date of Issue: 07/13/2000
Expiration Date: 07/01/2005
County: Hardee
Lat/Long: 27°34'00"N
81°46'50"W
Sec/Town/Rge: 35/33S/25E
Project: Hardee County
Materials Recovery
Facility

This permit is issued under the provisions of Chapter 403, Florida Statutes, and Florida Administrative Code Rule(s) 62-3, 62-4, 62-25, 62-522, 62-550, 62-701, and 62-711. The above named permittee is hereby authorized to perform the work or operate the facility shown on the application and approved drawing(s), plans and other documents, attached hereto or on file with the Department and made a part hereof and specifically described as follows:

To **operate** a materials recovery facility, referred to as the **Hardee County Materials Recovery Facility**, located on Airport Road, near the City of Wauchula, Hardee County, Florida, subject to the specific and general conditions attached. The specific conditions attached are for the operation of:

1. Materials Recovery Facility

Replaces Permit Number: S025-271793

This permit contains compliance items summarized in **Attachment 1** that shall be complied with and submitted to the Department by the dates noted. If the compliance dates are not met and submittals are not received by the Department on the dates noted, enforcement action may be initiated to assure compliance with the conditions of this permit.

GENERAL CONDITIONS:

1. The terms, conditions, requirements, limitations and restrictions set forth in this permit, are "permit conditions" and are binding and enforceable pursuant to Sections 403.141, 403.161, 403.727, or 403.861, Florida Statutes. The permittee is placed on notice that the Department will review this permit periodically and may initiate enforcement action for any violation of these conditions.
2. This permit is valid only for the specific processes and operations applied for and indicated in the approved drawings or exhibits. Any unauthorized deviation from the approved drawings, exhibits, specifications, or conditions of this permit may constitute grounds for revocation and enforcement action by the Department.
3. As provided in subsections 403.087(6) and 403.722(5), F.S., the issuance of this permit does not convey any vested rights or any exclusive privileges. Neither does it authorize any injury to public or private property or any invasion of rights, nor any infringement of federal, State, or local laws or regulations. This permit is not a waiver of or approval of any other Department permit that may be required for other aspects of the total project which are not addressed in this permit.
4. This permit conveys no title to land or water, does not constitute State recognition or acknowledgment of title, and does not constitute authority for the use of submerged lands unless herein provided and the necessary title or leasehold interests have been obtained from the State. Only the Trustees of the Internal Improvement Trust Fund may express State opinion as to title.
5. This permit does not relieve the permittee from liability for harm or injury to human health or welfare, animal, or plant life, or property caused by the construction or operation of this permitted source, or from penalties therefore; nor does it allow the permittee to cause pollution in contravention of Florida Statutes and Department rules, unless specifically authorized by an order from the Department.
6. The permittee shall properly operate and maintain the facility and systems of treatment and control (and related appurtenances) that are installed and used by the permittee to achieve compliance with the conditions of this permit, are required by Department rules. This provision includes the operation of backup or auxiliary facilities or similar systems when necessary to achieve compliance with the conditions of the permit and when required by Department rules.

GENERAL CONDITIONS:

7. The permittee, by accepting this permit, specifically agrees to allow authorized Department personnel, upon presentation of credentials or other documents as may be required by law and at reasonable times, access to the premises where the permitted activity is located or conducted to:

- (a) Have access to and copy any records that must be kept under conditions of the permit;
- (b) Inspect the facility, equipment, practices, or operations regulated or required under this permit; and
- (c) Sample or monitor any substances or parameters at any location reasonably necessary to assure compliance with this permit or Department rules.

Reasonable time may depend on the nature of the concern being investigated.

8. If, for any reason, the permittee does not comply with or will be unable to comply with any condition or limitation specified in this permit, the permittee shall immediately provide the Department with the following information:

- (a) A description of and cause of noncompliance; and
- (b) The period of noncompliance, including dates and times; or, if not corrected, the anticipated time the noncompliance is expected to continue, and steps being taken to reduce, eliminate, and prevent recurrence of the noncompliance.

The permittee shall be responsible for any and all damages which may result and may be subject to enforcement action by the Department for penalties or for revocation of this permit.

9. In accepting this permit, the permittee understands and agrees that all records, notes, monitoring data and other information relating to the construction or operation of this permitted source which are submitted to the Department may be used by the Department as evidence in any enforcement case involving the permitted source arising under the Florida Statutes or Department rules, except where such use is prescribed by Sections 403.111 and 403.73, F.S. Such evidence shall only be used to the extent it is consistent with the Florida Rules of Civil Procedure and appropriate evidentiary rules.

10. The permittee agrees to comply with changes in Department rules and Florida Statutes after a reasonable time for compliance; provided, however, the permittee does not waive any other rights granted by Florida Statutes or Department rules.

GENERAL CONDITIONS:

11. This permit is transferable only upon Department approval in accordance with Rule 62-4.120 and 62-730.300, Florida Administrative Code, as applicable. The permittee shall be liable for any non-compliance of the permitted activity until the transfer is approved by the Department.

12. This permit or a copy thereof shall be kept at the work site of the permitted activity.

13. This permit also constitutes:

- (a) Determination of Best Available Control Technology (BACT)
- (b) Determination of Prevention of Significant Deterioration (PSD)
- (c) Certification of compliance with State Water Quality Standards (Section 401, PL 92-500)
- (d) Compliance with New Source Performance Standards

14. The permittee shall comply with the following:

(a) Upon request, the permittee shall furnish all records and plans required under Department rules. During enforcement actions, the retention period for all records will be extended automatically unless otherwise stipulated by the Department.

(b) The permittee shall hold at the facility or other location designated by this permit records of all monitoring information (including all calibration and maintenance records and all original strip chart recordings for continuous monitoring instrumentation) required by the permit, copies of all reports required by this permit, and records of all data used to complete the application for this permit. These materials shall be retained at least three years from the date of the sample, measurement, report, or application unless otherwise specified by Department rule.

(c) Records of monitoring information shall include:

- 1. the date, exact place, and time of sampling or measurements;
- 2. the person responsible for performing the sampling or measurements;
- 3. the dates analyses were performed;
- 4. the person responsible for performing the analyses;
- 5. the analytical techniques or methods used;
- 6. the results of such analyses.

GENERAL CONDITIONS:

15. When requested by the Department, the permittee shall within a reasonable time furnish any information required by law which is needed to determine compliance with the permit. If the permittee becomes aware the relevant facts were not submitted or were incorrect in the permit application or in any report to the Department, such facts or information shall be corrected promptly.

16. In the case of an underground injection control permit, the following permit conditions also shall apply:

(a) All reports or information required by the Department shall be certified as being true, accurate and complete.

(b) Reports of compliance or noncompliance with, or any progress reports on, requirements contained in any compliance schedule of this permit shall be submitted no later than 14 days following each schedule date.

(c) Notification of any noncompliance which may endanger health or the environment shall be reported verbally to the Department within 24 hours and again within 72 hours, and a final written report provided within two weeks.

1. The verbal reports shall contain any monitoring or other information which indicate that any contaminant may endanger an underground source of drinking water and any noncompliance with a permit condition or malfunction of the injection system which may cause fluid migration into or between underground sources of drinking water.

2. The written submission shall contain a description of and a discussion of the cause of the noncompliance and, if it has not been corrected, the anticipated time the noncompliance is expected to continue, the steps being taken to reduce, eliminate, and prevent recurrence of the noncompliance, and all information required by Rule 62-28.230(4)(b), F.A.C.

(d) The Department shall be notified at least 180 days before conversion or abandonment of an injection well, unless abandonment within a lesser period of time is necessary to protect waters of the State.

GENERAL CONDITIONS:

17. The following conditions also shall apply to a hazardous waste facility permit.

(a) The following reports shall be submitted to the Department:

1. Manifest discrepancy report. If a significant discrepancy in a manifest is discovered, the permittee shall attempt to rectify the discrepancy. If not resolved within 15 days after the waste is received, the permittee shall immediately submit a letter report, including a copy of the manifest, to the Department.
2. Unmanifested waste report. The permittee shall submit an unmanifested waste report to the Department within 15 days of receipt of unmanifested waste.
3. Biennial report. A biennial report covering facility activities during the previous calendar year shall be submitted by March 1 of each even numbered year pursuant to Chapter 62-730, F.A.C.

(b) Notification of any noncompliance which may endanger health or the environment, including the release of any hazardous waste that may endanger public drinking water supplies or the occurrence of a fire or explosion from the facility which could threaten the environment or human health outside the facility, shall be reported verbally to the Department within 24 hours, and a written report shall be provided within 5 days. The verbal report shall include the name, address, I.D. number, and telephone number of the facility, its owner or operator, the name and quantity of materials involved, the extent of any injuries, an assessment of actual or potential hazards, and the estimated quantity and disposition of recovered material. The written submission shall contain:

1. A description and cause of the noncompliance.
2. If not corrected, the expected time of correction, and the steps being taken to reduce, eliminate, and prevent recurrence of the noncompliance.

(c) Reports of compliance or noncompliance with, or any progress reports on, requirements in any compliance schedule shall be submitted no later than 14 days after each schedule date.

(d) All reports or information required by the Department by a hazardous waste permittee shall be signed by a person authorized to sign a permit application.

SPECIFIC CONDITIONS:

1. **Facility Designation.** This site shall be classified as a materials recovery facility for materials recovery, sorting and recycling, and shall be constructed and operated in accordance with all applicable requirements of Chapters 62-3, 62-4, 62-25, 62-28, 62-520, 62-522, 62-550, and 62-701 Florida Administrative Code (F.A.C.) and all applicable requirements of Department Rules.
2. **Permit Application Documentation.** This permit is valid for operation of the material recovery facility and related facilities in accordance with the reports, plans and other information, submitted by Hardee County, as follows:
 - a. - Application for Permit Renewal for Hardee County Board of-county Commissioners, Material Recovery Facility, dated March 2000 (received April 18, 2000);
 - b. Additional information dated May 17, 2000 (received May 26, 2000 and July 11, 2000 via fax);
 - c. Record Drawings received May 31, 1995, entitled, Hardee County Solid Waste Recycling Center, originally dated December 1991 and prepared by Briley, Wild and Associates;
 - d. and in accordance with all applicable requirements of Department rules.
3. **Permit Modifications.** Any activities not previously approved as part of this permit shall require a separate Department permit unless the Department determines a permit modification to be more appropriate. Any significant changes to the facility shall require a permit modification. Permits shall be modified in accordance with the requirements of Rule 62-4.080, F.A.C. A modification which is reasonably expected to lead to substantially different environmental impacts, and which requires a detailed review by the Department, is considered a substantial modification.
4. **Permit Renewal.** No later than **sixty (60) days** before the expiration of the Department Permit, the permittee shall apply for a renewal of a permit on forms and in a manner prescribed by the Department, in order to assure conformance with all applicable Department rules.
5. **Prohibitions.** The prohibitions of Rule 62-701.300, F.A.C., shall not be violated by the operation of this facility.
6. **Facility Operation Requirements.**
 - a. The permittee shall operate this facility in accordance with Rule 62-701.700, F.A.C.; the information and drawings as listed in Specific Condition #2 above; and any other applicable requirements.
 - b. Litter shall be collected at least once daily.

SPECIFIC CONDITIONS:

(Specific Condition #6 cont'd)

- c. In the event of extended downtime (greater than 72 hours) of equipment, or other emergency conditions, unprocessed materials and residuals shall be removed and transported to the onsite Class I Landfill or other appropriate disposal facility.
 - d. The owner or operator shall remove from the site 75% of all recyclable goods each year, either for recycling or disposal.
 - e. At no time shall any material be allowed to be stored on the tipping floor for more than **72 hours** from the time of receipt.
 - f. Except as authorized by Class I Landfill permit 38414-002-SO or its successors, all incoming loads of waste and recyclables shall be unloaded and processed inside the building only.
7. **Operation Plan and Operating Record.** A copy of the Department approved permit, operational plan, construction reports and record drawings, and supporting information shall be kept at the facility at all times for reference and inspections. The operations plan shall be reviewed and all changes, or a statement indicating that no changes have occurred, shall be submitted to the Department **annually, by April 15th** each year.
8. **Storage of Materials.**
- a. Storage of processed and unprocessed materials, and residuals, shall not exceed the quantities or timeframes listed in **Attachment 2** of this permit, or as otherwise specified by this permit.
 - b. All materials which are stored outside the building, shall be stored on impermeable surfaces and shall be covered, or shall be stored in covered containers to prevent precipitation infiltration of the materials.
 - c. All residuals (non-recoverable, non-recyclable materials) shall be stored in areas with leachate collection, and shall be disposed of **within 24 hours** of processing the material and generating the residual.
 - d. All recovered materials shall be removed from the site for recycling or disposal in accordance with the schedule outlined in **Attachment 2** of this permit. In any event, recovered materials shall be removed from the facility within one year of processing/recovering the material.

SPECIFIC CONDITIONS:

9. **Waste Records.** The owner or operator of the materials recovery facility shall record, in tons per day, the amount of material received at the MRF. The quantity, in tons, of each material (e.g. aluminum cans, steel/tin cans, glass, plastic, newsprint, cardboard, residuals, etc.) which is removed from the site for recycling or disposal shall be compiled monthly and submitted to the Department **quarterly**, by **January 15th, April 15th, July 15th and October 15th** of each year. The operating authority shall remove from the site, 75% of all recovered materials each year, for recycling or disposal.

10. **Monitoring of Waste.** The permittee shall not accept hazardous waste or any hazardous substance at this site. Hazardous waste is a waste in Chapter 62-730, F.A.C. Hazardous substances are those defined in Section - 403.703, Florida Statute or in any other applicable state or federal law or administrative rule.

12. **Drainage Requirements.**

a. All areas shall be cleaned at the end of each day's operation, at a minimum, or as needed, to prevent odor or vector problems. All washdown water shall be contained within the building. All liquids discharged from unloading vehicles shall be contained within the building. Floors shall be free of standing liquids.

b. All drains and leachate collection sumps shall be inspected for damage and clogging at least **daily**, and shall be cleaned as required. The leachate collection drains and sumps shall be cleaned at least **weekly**. In the event that liquids do not freely flow into the drains, the grates shall **immediately (within 24 hours)** be removed and cleaned. In no event shall leachate be allowed to discharge beyond the leachate collection system. In the event that the drains do not provide adequate removal of leachate from the building, corrective actions shall be taken to correct the deficiencies in accordance with Specific condition #18, below.

13. **Closure Requirements.** The facility owner or operator shall notify the Department of the facility's closure, **no later than 180 days** prior to the date when the facility is expected to close, as required by Rule 62-701.700(3)(d), F.A.C. The facility shall be closed in accordance with Rule 62-701.700(3)(d), F.A.C., and the Closure Plan submitted in the information listed in Specific Condition #2, above.

14. **Financial Assurance.** The permittee shall provide financial assurance for the material recovery facility site in accordance with Rule 62-701.700(4), F.A.C.

a. All costs for closure shall be adjusted for inflation and changes in the facility operations, and submitted **annually, by September 1st each year** to: Solid Waste Manager, Solid Waste Section, Department of Environmental Protection, 3804 Coconut Palm Drive, Tampa, Florida 33619-8318.

SPECIFIC CONDITIONS:

(Specific Condition #14 cont'd)

- b. Proof that the financial mechanism has been adequately funded shall be submitted **annually**, to: Financial Coordinator, Solid Waste Section, MS#4565, Department of Environmental Protection, 2600 Blair Stone Road, Tallahassee, Florida 32399-2400.
15. **Control of Nuisance Conditions.** The operating authority shall be responsible for the control of odors and fugitive particulates arising from this construction and operation. Such control shall minimize the creation of nuisance conditions on adjoining property. Complaints received from the general public, and confirmed by Department personnel upon site inspection, shall constitute a nuisance condition, and the permittee must take immediate (**within 24 hours**) corrective action to abate the nuisance. The owner or operator shall control disease vectors so as to protect the public health and welfare.
16. **Stormwater System.** The site shall continue to have a stormwater management system operated and maintained to prevent surface water flow into waste processing and storage areas. The stormwater management system shall be operated and maintained in accordance with Chapter 62-330, F.A.C., and any other applicable Department or water management district rules.
17. **Fire Safety Survey.**
 - a. **Annually**, the permittee shall arrange for a fire safety inspection by the local fire protection authorities. The inspection shall be conducted no later than **January 15th** each year. The fire safety inspection report, which includes a statement from the local protection authorities that the site meets the requirements of the local fire protection authorities, shall be maintained at the facility for five years, and copies shall be provided to the Department upon request.
 - b. In the event that deficiencies are noted, **within 30 days** of completion, the permittee shall provide documentation to the Department indicating correction of any deficiencies noted in the annual Fire Safety Survey. The documentation shall include approval of the corrections by the local fire authority.
18. **Facility Maintenance and Repair.**
 - a. The site shall be properly maintained including building maintenance, and maintenance of equipment, drainage systems, leachate collection and removal systems, and stormwater systems. In the event of damage to any portion of the site facilities or failure of any portion of the associated systems, the permittee shall **immediately (within 24 hours)** notify the Department explaining such occurrence and remedial measures to be taken and time needed for repairs. Written detailed notification shall be submitted to the Department **within seven (7) days** following the occurrence.

SPECIFIC CONDITIONS:

(Specific Condition #18 cont'd)

b. In the event of a fire which requires outside assistance from the local fire protection authorities, the MRF shall cease accepting waste until the fire is completely extinguished and normal operations may resume.

19. **Professional Certification.** Where required by Chapter 471 (P.E.) or Chapter 492 (P.G.), Florida Statutes, applicable portions of permit applications and supporting documents which are submitted to the Department for public record shall be signed and sealed by the professional(s) who prepared or approved them.

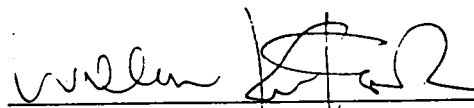

20. **General Conditions.** The permittee shall be aware of and operate under the "General Conditions". General Conditions are binding upon the permittee and enforceable pursuant to Chapter 403, Florida Statutes.

21. **Permit Acceptance.** By acceptance of this Permit, the Permittee certifies that he/she has read and understands the obligations imposed by the Specific and General Conditions contained herein and also including date of permit expiration and renewal deadlines. It is a violation of this permit for failure to comply with all conditions and deadlines.

22. **Regulations.** Rule 62-701.700, F.A.C., effective April 23, 1997, is incorporated into this permit by reference. In the event that the regulations governing this permitted operation are revised, the Department will notify the permittee, and the permittee shall request modification of those specific conditions which are affected by the revised regulations to incorporate those revisions.

CERTIFIED MAIL
RETURN RECEIPT REQUESTED

July 13, 2000

In the matter of an
Application for Permit by: DEP File No. 126620-001-SO,
Hardee County

NOTICE OF PERMIT

Hardee County Solid Waste Department
Ms. Janice Williamson, Superintendent
685 Airport Road
Wauchula, Fl. 33873

Dear Ms. Williamson:

Enclosed is Material Recovery Facility **Operation Permit Number 126620-001-SO**, issued pursuant to Section(s) 403.087(1), Florida Statutes.

A person whose substantial interests are affected by this permit may petition for an administrative proceeding (hearing) in accordance with Section 120.57, Florida Statutes. The petition must contain the information set forth below and must be filed (received) in the Department's Office of General Counsel, 3900 Commonwealth Blvd., Mail Station #35, Tallahassee, 32399-3000, within fourteen (14) days of receipt of this notice. Petitioner shall mail a copy of the petition to the applicant at the address indicated above at the time of filing. Failure to file a petition within fourteen (14) days shall constitute a waiver of any right such person has to an administrative determination (hearing) pursuant to Section 120.57, Florida Statutes.

The petition shall contain the following information;

- (a) The name, address, and telephone number of each petitioner, the applicant's name and address, the Department Permit File Number and the county in which the project is proposed;
- (b) A statement of how and when each petitioner received notice of Department's action, or proposed action;
- (c) A statement of how each petitioner's substantial interests are affected by the Department's action or proposed action;

"More Protection, Less Process"

Printed on recycled paper.

- (d) A statement of the material facts disputed by Petitioner, if any;
- (e) A statement of facts which petitioner contends warrant reversal or modification of the Department's action or proposed action;
- (f) A statement of which rules or statutes petitioner contends warrant reversal or modification of the Department's action or proposed action; and
- (g) A statement of the relief sought by petitioner, stating precisely the action petitioner wants the Department to take with respect to the Department's action or proposed action.

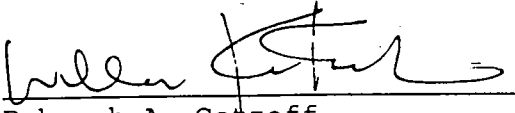

If a petition is filed, the administrative hearing process is designed to formulate agency action. Accordingly, the Department's final action may be different from the position taken by it in this notice. Persons whose substantial interests will be affected by any decision of the Department with regard to the application have the right to petition to become a party to the proceeding. The petition must conform to the requirements specified above and be filed (received) within 14 days of publication of this notice in the Office of General Counsel at the above address of the Department. Failure to petition within the allowed time frame constitutes a waiver of any right such person has to request a hearing under Section 120.57, F.S., and to participate as a party to this proceeding. Any subsequent intervention will only be at the approval of the presiding officer upon motion filed pursuant to Rule 28-5.207, F.A.C. Mediation is not available in this proceeding.

This permit is final and effective on the date filed with the Clerk of the Department unless a petition is filed in accordance with the above paragraphs or unless a request for extension of time in which to file a petition is filed within the time specified for filing a petition and conforms to Chapters 62-110, and 28-106, F.A.C. Upon timely filing of a petition or a request for an extension of time this permit will not be effective until further Order of the Department.

When the Order (Permit) is final, any party to the Order has the right to seek judicial review of the Order pursuant to Section 120.68, Florida Statutes, by the filing of a Notice of Appeal pursuant to Rule 9.110, Florida Rules of Appellate Procedure, with the Clerk of the Department in the Office of General Counsel, 3900 Commonwealth Blvd., Mail Station #35, Tallahassee, 32399-3000; and by filing a copy of the Notice of Appeal accompanied by the applicable filing fees with the appropriate District Court of Appeal. The Notice of Appeal must be filed within 30 days from the date the Final Order is filed with the Clerk of the Department.

Executed in Tampa, Florida.

Materials Recovery
Facility

This permit is issued under the provisions of Chapter 403, Florida Statutes, and Florida Administrative Code Rule(s) 62-3, 62-4, 62-25, 62-522, 62-550, 62-701, and 62-711. The above named permittee is hereby authorized to perform the work or operate the facility shown on the application and approved drawing(s), plans and other documents, attached hereto or on file with the Department and made a part hereof and specifically described as follows:

To construct and operate a materials recovery facility, referred to as the Hardee County Materials Recovery Facility, located on Airport Road, near the City of Wauchula, Hardee County, Florida, subject to the specific and general conditions attached,. The specific conditions attached are for the operation of:

1. Materials Recovery Facility

Replaces Permit Number: SC25-179573

This permit contains compliance items summarized in Attachment 1 that shall be complied with and submitted to the Department by the dates noted. If the compliance dates are not met and submittals are not received by the Department on the dates noted, enforcement action may be initiated to assure compliance with the conditions of this permit.

GENERAL CONDITIONS:

1. The terms, conditions, requirements, limitations and restrictions set forth in this permit, are "permit conditions" and are binding and enforceable pursuant to Sections 403.141, 403.161, 403.727, or 403.861, Florida Statutes. The permittee is placed on notice that the Department will review this permit periodically and may initiate enforcement action for any violation of these conditions.
2. This permit is valid only for the specific processes and operations applied for and indicated in the approved drawings or exhibits. Any unauthorized deviation from the approved drawings, exhibits, specifications, or conditions of this permit may constitute grounds for revocation and enforcement action by the Department.
3. As provided in subsections 403.087(6) and 403.722(5), F.S., the issuance of this permit does not convey any vested rights or any exclusive privileges. Neither does it authorize any injury to public or private property or any invasion of rights, nor any infringement of federal, State, or local laws or regulations. This permit is not a waiver of or approval of any other Department permit that may be required for other aspects of the total project which are not addressed in this permit.
4. This permit conveys no title to land or water, does not constitute State recognition or acknowledgment of title, and does not constitute authority for the use of submerged lands unless herein provided and the necessary title or leasehold interests have been obtained from the State. Only the Trustees of the Internal Improvement Trust Fund may express State opinion as to title.
5. This permit does not relieve the permittee from liability for harm or injury to human health or welfare, animal, or plant life, or property caused by the construction or operation of this permitted source, or from penalties therefore; nor does it allow the permittee to cause pollution in contravention of Florida Statutes and Department rules, unless specifically authorized by an order from the Department.
6. The permittee shall properly operate and maintain the facility and systems of treatment and control (and related appurtenances) that are installed and used by the permittee to achieve compliance with the conditions of this permit, are required by Department rules. This provision includes the operation of backup or auxiliary facilities or similar systems when necessary to achieve compliance with the conditions of the permit and when required by Department rules.

GENERAL CONDITIONS:

7. The permittee, by accepting this permit, specifically agrees to allow authorized Department personnel, upon presentation of credentials or other documents as may be required by law and at reasonable times, access to the premises where the permitted activity is located or conducted to:

- (a) Have access to and copy any records that must be kept under conditions of the permit;
- (b) Inspect the facility, equipment, practices, or operations regulated or required under this permit; and
- (c) Sample or monitor any substances or parameters at any location reasonably necessary to assure compliance with this permit or Department rules.

Reasonable time may depend on the nature of the concern being investigated.

8. If, for any reason, the permittee does not comply with or will be unable to comply with any condition or limitation specified in this permit, the permittee shall immediately provide the Department with the following information:

- (a) A description of and cause of noncompliance; and
- (b) The period of noncompliance, including dates and times; or, if not corrected, the anticipated time the noncompliance is expected to continue, and steps being taken to reduce, eliminate, and prevent recurrence of the noncompliance.

The permittee shall be responsible for any and all damages which may result and may be subject to enforcement action by the Department for penalties or for revocation of this permit.

9. In accepting this permit, the permittee understands and agrees that all records, notes, monitoring data and other information relating to the construction or operation of this permitted source which are submitted to the Department may be used by the Department as evidence in any enforcement case involving the permitted source arising under the Florida Statutes or Department rules, except where such use is prescribed by Sections 403.111 and 403.73, F.S. Such evidence shall only be used to the extent it is consistent with the Florida Rules of Civil Procedure and appropriate evidentiary rules.

10. The permittee agrees to comply with changes in Department rules and Florida Statutes after a reasonable time for compliance; provided, however, the permittee does not waive any other rights granted by Florida Statutes or Department rules.

GENERAL CONDITIONS:

11. This permit is transferable only upon Department approval in accordance with Rule 62-4.120 and 62-730.300, Florida Administrative Code, as applicable. The permittee shall be liable for any non-compliance of the permitted activity until the transfer is approved by the Department.

12. This permit or a copy thereof shall be kept at the work site of the permitted activity.

13. This permit also constitutes:

- (a) Determination of Best Available Control Technology (BACT)
- (b) Determination of Prevention of Significant Deterioration (PSD)
- (c) Certification of compliance with State Water Quality Standards (Section 401, PL 92-500)
- (d) Compliance with New Source Performance Standards

14. The permittee shall comply with the following:

- (a) Upon request, the permittee shall furnish all records and plans required under Department rules. During enforcement actions, the retention period for all records will be extended automatically unless otherwise stipulated by the Department.
- (b) The permittee shall hold at the facility or other location designated by this permit records of all monitoring information (including all calibration and maintenance records and all original strip chart recordings for continuous monitoring instrumentation) required by the permit, copies of all reports required by this permit, and records of all data used to complete the application for this permit. These materials shall be retained at least three years from the date of the sample, measurement, report, or application unless otherwise specified by Department rule.
- (c) Records of monitoring information shall include:
 - 1. the date, exact place, and time of sampling or measurements;
 - 2. the person responsible for performing the sampling or measurements;
 - 3. the dates analyses were performed;
 - 4. the person responsible for performing the analyses;
 - 5. the analytical techniques or methods used;
 - 6. the results of such analyses.

PERMITTEE:Hardee Co. Board of County of Commissioners
Mr. J. R. Prestridge, Asst. County Manager

PERMIT NO: S025-271793
Hardee Co. MRF

GENERAL CONDITIONS:

15. When requested by the Department, the permittee shall within a reasonable time furnish any information required by law which is needed to determine compliance with the permit. If the permittee becomes aware the relevant facts were not submitted or were incorrect in the permit application or in any report to the Department, such facts or information shall be corrected promptly.

SPECIFIC CONDITIONS:

1. **Facility Designation.** This site shall be classified as a resource recovery facility for materials recovery, sorting and recycling, and shall be constructed and operated in accordance with all applicable requirements of Chapters 62-3, 62-4, 62-25, 62-28, 62-520, 62-522, 62-550, and 62-701 Florida Administrative Code (F.A.C.) and all applicable requirements of Department Rules.

2. **Permit Application Documentation.** This permit is valid for operation of the material recovery facility and related facilities in accordance with the reports, plans and other information, submitted by Hardee County, Mr. Ronald D. Stowers, P.E., as follows:

Renewal Application - Solid Waste Recycle Center dated May 31, 1995;
Additional information dated June 29, 1995;
Record Drawings received May 31, 1995, entitled, Hardee County Solid Waste Recycling Center, originally dated December 1991 and prepared by Briley, Wild and Associates;
and in accordance with all applicable requirements of Department rules.

3. **Permit Modifications.** Any activities not previously approved as part of this permit shall require a separate Department permit unless the Department determines a permit modification to be more appropriate. Any significant changes to the operations at the facility shall require a permit modification. Permits shall be modified in accordance with the requirements of 62-4.080, F.A.C. A modification which is reasonably expected to lead to substantially different environmental impacts which require a detailed review by the Department is considered a substantial modification.

4. **Permit Renewal.** As required by F.A.C. 62-4.090(1), no later than sixty (60) days before the expiration of the Department Permit, the permittee shall apply for a renewal of a permit on forms and in a manner prescribed by the Department, in order to assure conformance with all applicable Department rules. Permits shall be renewed at least every five years as required by F.A.C. 62-701.330(3).

5. **Prohibitions.** The prohibitions of F.A.C. 62-701.300 shall not be violated.

6. **Facility Operation Requirements.** The permittee shall operate this facility in accordance with F.A.C. 62-701.700; and the Operations Plan in Renewal Application - Solid Waste Recycle Center dated May 31, 1995; the additional information dated June 29, 1995; and any other applicable requirements.

SPECIFIC CONDITIONS:

7. **Operation Plan and Operating Record.** A copy of the Department approved permit, operational plan, construction reports and record drawings, and supporting information shall be kept at the facility at all times for reference and inspections. The operations plan shall be reviewed and all changes, or a statement indicating that no changes have occurred, shall be submitted to the Department annually, by April 15th each year.
8. **Storage of Materials.**
 - a. All materials shall be stored as indicated on the Table, "Method of Storage for Recyclables" dated June 29, 1995.
 - b. All materials which are stored outside the building, shall be stored on impermeable surfaces and shall be covered, or shall be stored in covered containers to prevent precipitation infiltration of the materials.
 - c. All residuals (non-recoverable, non-recyclable materials) shall be stored in areas with leachate collection, and shall be disposed of within 24 hours of processing the material and generating the residual.
 - d. All recovered materials shall be removed from the site for recycling or disposal in accordance with the schedule outlined in the Table, "Method of Storage for Recyclables" dated June 29, 1995. In any event, recovered materials shall be removed from the facility within one year of processing/recovering the material.
9. **Waste Records.** The owner or operator of the materials recovery facility shall record, in tons per day, the amount of material received. The quantity, in tons, of each material (e.g. aluminum cans, steel/tin cans, glass (clear, amber), plastic (#1-7), newsprint, cardboard, residuals, etc.) which is removed from the site for recycling or disposal shall be compiled monthly and submitted to the Department quarterly, by January 15th, April 15th, July 15th and October 15th of each year. The operating authority shall remove from the site, 75% of all recovered materials each year, for recycling or disposal.
10. **Monitoring of Waste.** The permittee shall not accept hazardous waste or any hazardous substance at this site. Hazardous waste is a waste in Chapter 62-730, F.A.C. Hazardous substances are those defined in Section 403.703, Florida Statute or in any other applicable state or federal law or administrative rule.

SPECIFIC CONDITIONS:

11. Drainage Requirements. All areas shall be cleaned at the end of each day's operation, at a minimum, or as needed, to prevent odor or vector problems. All liquids shall be contained within the building. Floors shall be free of standing liquids. All drains and conveyor pits shall be inspected for damage and clogging at least weekly, and shall be cleaned as required.

12. Closure Requirements. The facility owner or operator shall notify the Department of the facility's closure, no later than **180 days prior** to the date when the facility is expected to close, as required by F.A.C. 62-701.700(3)(d). The facility shall be closed in accordance with F.A.C. 62-701.700(3)(d) and the Closure Plan submitted in the Renewal Application - Solid Waste Recycle Center dated May 31, 1995.

13. Financial Assurance. The permittee shall provide financial assurance for the material recovery facility site in accordance with F.A.C. 62-701.700(4).

a. All costs for closure shall be adjusted and submitted **annually, by March 1st each year** to: Solid Waste Manager, Solid Waste Section, Department of Environmental Protection, 3804 Coconut Palm Drive, Tampa, Florida 33619-8318.

b. Proof that the financial mechanism has been adequately funded shall be submitted **annually, by September 1st each year**, to: Financial Coordinator, Solid Waste Section, Department of Environmental Protection, 2600 Blair Stone Road, Tallahassee, Florida 32399-2400.

14. Control of Nuisance Conditions. The operating authority shall be responsible for the control of odors and fugitive particulates arising from this construction and operation. Such control shall minimize the creation of nuisance conditions on adjoining property. Complaints received from the general public, and confirmed by Department personnel upon site inspection, shall constitute a nuisance condition, and the permittee must take immediate corrective action to abate the nuisance. The owner or operator shall control disease vectors so as to protect the public health and welfare.

15. Stormwater System. The site shall continue to have a stormwater management system operated and maintained in accordance with F.A.C. 62-25, 62-330, and any other applicable Department rules.

16. Fire Safety. The permittee shall submit to the Department a fire safety survey **annually** which includes a statement from the local protection authorities that the site meets the requirements of the local fire protection authorities. This report shall be submitted by **January 15th** of each year.

SPECIFIC CONDITIONS:

17. **Facility Maintenance and Repair.** The site shall be properly maintained including building maintenance, and maintenance of processing equipment, drainage systems, and stormwater systems. In the event of damage to any portion of the site facilities or failure of any portion of the associated systems, the permittee shall immediately (**within 24 hours**) notify the Department of Environmental Protection explaining such occurrence and remedial measures to be taken and time needed for repairs. Written detailed notification shall be submitted to the Department **within seven (7) days** following the occurrence.

18. **Professional Certification.** Where required by Chapter 471 (P.E.) or Chapter 492 (P.G.), Florida Statutes, applicable portions of permit applications and supporting documents which are submitted to the Department for public record shall be signed and sealed by the professional(s) who prepared or approved them.

19. **General Conditions.** The permittee shall be aware of and operate under the "General Conditions". General Conditions are binding upon the permittee and enforceable pursuant to Chapter 403, Florida Statutes.

20. **Permit Acceptance.** By acceptance of this Permit, the Permittee certifies that he/she has read and understands the obligations imposed by the Specific and General Conditions contained herein and also including date of permit expiration and renewal deadlines. It is a violation of this permit for failure to comply with all conditions and deadlines.

21. **Regulations.** A copy of F.A.C. 62-701.700, effective May 19, 1994, attached, is a part of this permit and shall remain attached for future reference. In the event that these regulations governing this permitted operation are revised, the Department shall notify the permittee, and the permittee shall request modification of those specific conditions which are affected by the revision of regulations to incorporate those revisions.

Executed in Tampa, Florida.

17.	Within 7 days of occurrence	Written notification

62-701.700 Materials Recovery Facilities.

(1) Applicability. No person shall construct or operate a materials recovery facility without a permit issued by the Department.

(2) Engineering report. A permit application for a materials recovery facility shall include the information required in Rule 62-701.320, F.A.C., and an engineering report that includes:

(a) A description of the solid waste that is proposed to be collected, stored, processed or disposed of by the facility, a projection of those waste types and quantities expected in future years, and the assumptions used to make the projections;

(b) A description of the operation and functions of all processing equipment that will be used, with design criteria and expected performance. The description shall show the flow of solid waste and associated operations in detail, and shall include:

1. Regular facility operations as they are expected to occur;

2. Procedures for start up operations, and scheduled and unscheduled shut down operations; and

3. Potential safety hazards and control methods, including fire detection and control;

(c) A description of loading, unloading, and processing areas. If wastes which are reasonably expected to produce leachate are being processed, the facility shall be designed with a leachate control system to prevent discharge of leachate and mixing of leachate with stormwater;

(d) Identification and capacity of temporary on-site storage areas for recyclable materials, non-processable wastes, unauthorized wastes, and residues;

(e) Provisions for solid waste and leachate containment;

(f) Identification of potential ground water and surface water contamination; and

(g) A plan for disposal of unmarketable recyclable materials and residue, and for waste handling capability in the event of breakdowns in the operations or equipment. Wastes shall be handled on a first-in, first-out basis. Stored putrescible wastes shall not be allowed to remain unprocessed for more than 48 hours unless provisions are made to control vectors and odors.

(3) Operational requirements. A permit application for a materials recovery facility shall include the following operational requirements:

(a) An operation and maintenance manual describing the facility operations, the persons responsible for the operations, and types of equipment that will be used. All activities at the facility shall be performed in accordance with the manual and plans for the facility. Manuals and plans shall be updated as operations change but no less frequently than upon renewal of the operation permit;

62-701.700(1) - 62-701.700(3)(a)

(b) A plan to screen the wastes received by the facility, that specifies inspection procedures and procedures to handle unauthorized wastes;

(c) A contingency plan to cover operations interruptions and emergencies such as fires, explosions, or natural disasters; and

(d) A closure plan that identifies the steps needed to close the facility. The closure plan shall provide for the following:

1. Owner or operator notification to the Department in writing 180 days before the date the facility is expected to close. No waste shall be received by the facility after the expected closing date;

2. Within 30 days after receiving the final solid waste shipment, the owner or operator shall remove or otherwise dispose of all solid waste or residue in accordance with the approved closure plan; and

3. Closure must be completed within 180 days after receiving the final waste quantity. Closure will include removal of all recovered materials from the site. When closure is completed, the owner or operator shall certify in writing to the Department that closure is complete. The Department will make an inspection within 30 days to verify the closure and advise the owner or operator of the closure status.

(4) Financial responsibility. The owner or operator of a materials recovery facility shall post a performance bond payable to the Department to cover the cost of properly closing the facility, if one or more of the following conditions exist:

(a) Where the owner of the land or materials recovery facility and the operator of the facility are not the same person; or

(b) If the operator of the facility could stockpile waste that may create an environmental threat if the facility closes without properly disposing of the waste.

(5) Stormwater. Stormwater shall be controlled in accordance with Chapters 62-25 and 62-330, F.A.C. A copy of any permit for stormwater control issued by the Department, or documentation that no such permit is required, shall be submitted to the Department before the facility receives waste. Applicants should be aware that other government agencies may also regulate stormwater management and may require separate permits.

CERTIFIED MAIL
RETURN RECEIPT REQUESTED

SEP - 8 1995

NOTICE OF PERMIT

Hardee County Board of County Commissioners
Mr. J.R. Prestridge, Assistant County Manager
413 West Orange Street
Wauchula, Fl. 33873

Dear Mr. Prestridge:

Enclosed operation Permit Number **S025-271793**, issued pursuant to Section(s) 403.087(1), Florida Statutes.

A person whose substantial interests are affected by this permit may petition for an administrative proceeding (hearing) in accordance with Section 120.57, Florida Statutes. The petition must contain the information set forth below and must be filed (received) in the Department's Office of General Counsel, 2600 Blair Stone Road, Tallahassee, 32399-2400, within fourteen (14) days of receipt of this notice. Petitioner shall mail a copy of the petition to the applicant at the address indicated above at the time of filing. Failure to file a petition within fourteen (14) days shall constitute a waiver of any right such person has to an administrative determination (hearing) pursuant to Section 120.57, Florida Statutes.

The petition shall contain the following information;

- (a) The name, address, and telephone number of each petitioner, the applicant's name and address, the Department Permit File Number and the county in which the project is proposed;
- (b) A statement of how and when each petitioner received notice of Department's action, or proposed action;
- (c) A statement of how each petitioner's substantial interests are affected by the Department's action or proposed action;
- (d) A statement of the material facts disputed by Petitioner, if any;

- (e) A statement of facts which petitioner contends warrant reversal or modification of the Department's action or proposed action;
- (f) A statement of which rules or statutes petitioner contends warrant reversal or modification of the Department's action or proposed action; and
- (g) A statement of the relief sought by petitioner, stating precisely the action petitioner wants the Department to take with respect to the Department's action or proposed action.

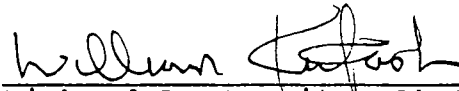

If a petition is filed, the administrative hearing process is designed to formulate agency action. Accordingly, the Department's final action may be different from the position taken by it in this notice. Persons whose substantial interests will be affected by any decision of the Department with regard to the application have the right to petition to become a party to the proceeding. The petition must conform to the requirements specified above and be filed (received) within 14 days of publication of this notice in the Office of General Counsel at the above address of the Department. Failure to petition within the allowed time frame constitutes a waiver of any right such person has to request a hearing under Section 120.57, F.S., and to participate as a party to this proceeding. Any subsequent intervention will only be at the approval of the presiding officer upon motion filed pursuant to Rule 28-5.207, F.A.C.

This permit is final and effective on the date filed with the Clerk of the Department unless a petition is filed in accordance with the above paragraphs or unless a request for extension of time in which to file a petition is filed within the time specified for filing a petition and conforms to Rule 17-103.070, F.A.C. Upon timely filing of a petition or a request for an extension of time this permit will not be effective until further Order of the Department.

When the Order (Permit) is final, any party to the Order has the right to seek judicial review of the Order pursuant to Section 120.68, Florida Statutes, by the filing of a Notice of Appeal pursuant to Rule 9.110, Florida Rules of Appellate Procedure, with the Clerk of the Department in the Office of General Counsel, 2600 Blair Stone Road, Tallahassee, 32399-2400; and by filing a copy of the Notice of Appeal accompanied by the applicable filing fees with the appropriate District Court of Appeal. The Notice of Appeal must be filed within 30 days from the date the Final Order is filed with the Clerk of the Department.

Executed in Tampa, Florida.

RE: Specific Condition Number 7 of permit number SO25-271793
Hardee County Material Recovery Facility

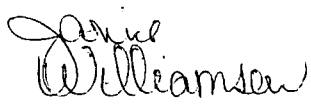

Dear Mr. Ford:

Hardee County is in the process of refurbishing the Material Recovery Facility. This project consist of the replacement of the baler system, replacement of the steel belt conveyor system, replacement of the small cross belt, recapping the concrete floor and repair of concrete walls. This project began on May 1, 2002 and is scheduled for completion by September 10, 2002.

During this period, normal operations of the facility will be discontinued. All waste will be directed to the Class I Landfill to be loose filled in the remaining ditch area. Upon completion of this project, the operational plan will be modified to include an updated vendors list and equipment list. There are no changes to the floor plan or the operation of the facility. Equipment scheduled for replacement is consistent with existing equipment and the floors are being resurfaced to original grades.

Enclosed for your review, is a copy of the time schedule developed for this project and a copy of the specifications on the new equipment. Should you have any additional questions or concerns, please feel free to contact me.

Sincerely,

Janice Williamson,
Solid Waste Superintendent

MATERIAL RECOVERY FACILITY TIME LINE CHART FOR RENOVATIONS AND BALER REPLACEMENT

TARGET DATES

HARRIS BALER SPECIFICATIONBADGER L 125S-4-11/8I. Dimensions:

A. Bale Chamber:	29" high x 43" wide x 57" deep
B. Charge Box:	29" high x 43" wide x 155" long
C. Overall Length:	355"
D. Box Opening:	43" x 85"
E. Standard Hopper:	
1. Hopper Opening (Top):	65" wide x 94" long
2. Hopper Height:	92"
3. Max. Machine Height:	106"
4. Max. Machine Width:	Without extended side ram 161" With extended side ram 185"
F. Approximate Weight W/Oil:	23.5 tons w/out door, <u>26 tons w/combo door</u>
G. Approx. Exp. Bale Size:	31" x 46" x 61"
H. Approx Bale Volume:	50 cu/ft.

II. Performance Ratings - Solid Waste: Input Density: 12.0-15.0 lbs./cu.ft.

A. Density:	38 - 48 lbs./cu.ft.
B. Bale Weight:	1850 - 2450 lbs.
C. Tons/Hour w/o door:	20 - 40
D. Tons/Hour with door:	19 - 35

III. Hydraulics:

3500 p.s.i. system operating pressure.

A. Main Cylinder:	11" bore 166 tons force, 269 p.s.i. ram face pressure. 60% ram penetration.
B. Eject Cylinder:	8" bore secured to 88 tons force 110 p.s.i. ram face pressure
C. Hydraulic Pumps:	Main pumps = 4 Main flow = 378 GPM Circulation = 107 GPM Tier = 12 GPM Total Flow = 497 GPM
D. Hydraulic Valving:	State-of-the-art cartridge and spool valves controlling all hydraulic functions
E. Reservoir Capacity:	700 gallons.
F. Filter:	10 micron.
G. Cooler:	Oil to air - thermostatically controlled.

H. Heaters:	(1) 2200 watt thermostatically controlled oil heater.
IV. <u>Power Unit:</u>	
A. Motors:	<u>Main</u> - (1) 125HP, 460/3/60, 1750 RPM. Open, drip proof. <u>Cooler Fan</u> - (2) 1 HP 460/3/60, 1140 RPM. TEAO <u>Oil. Circ./Tier</u> – 20 HP, 460/3/60
B. Starters:	Across-the-line motor starters with overload protection. Reduced voltage starting is available as an option.
C. Location:	Standard power unit location is at the end of the bale compression chamber. Optional power unit locations available at additional cost.
V. <u>Controls:</u>	
A. Type:	Solid-state programmable controller with operator console.
B. Functions:	Automatic or manual baling cycles. Push buttons and joy stick, mounted on operator console. System pressure gauge. Self diagnostics with visual display. Multiple baling and strapping modes.
C. Location:	Control console mounted over compression chamber.
VI. <u>Electrical Enclosures:</u>	Standard enclosures are NEMA 12 and are NOT suitable for outdoor operation.
VII. <u>Construction:</u>	
A. Main Frame:	The main frame and compression chamber are constructed of heavy steel plate and reinforcing ribs. Critical components are machined to insure proper fit. Wear surfaces are covered with replaceable hardened alloy steel. Back wall is reinforced solid steel plate. Floor ribs are standard.
B. Platens:	Both the gathering and eject platens are heavy steel weldments, machined as necessary to achieve tolerances.
C. Piping:	ASTM A-106 Schedule 160 and 80. Joints are welded with bolted, O-ring sealed flange connections. Suitable pipe clamps and supports are provided for all pipe runs.

- D. Fixed Knife: Fitted with Harris' unique ***"Smart-knife" adjusting system. No shims are required.
- E. Liners: Harris' quick-change floor liner and main platen shoe replacement system ***"Sky-jacker" is standard and includes segmented floor liners for easy handling and replacement. Main platen shoe and floor liner can be replaced without removal of main platen.
- VIII. Tying Unit: U. S. Model 342 or equivalent.
- IX. Testing: Machine will be assembled and tested prior to shipment.
- X. Startup Service: This proposal includes the services of a qualified installation specialist for two (2) eight hour working days. He will place the baler in operation and instruct your operator in recommended operating and maintenance procedures. (Transportation and sustenance outside of continental U.S. is for the Purchaser's account.)
- XI. Purchaser to provide:
(Unless stated otherwise in Proposal or Contract.)
- A. Approximately 700 gallons of hydraulic oil.
 - B. Electric power to baler motor control center.
 - C. Foundation and anchoring plan acceptable to Harris, conveyors, conveyor pits, and all required site preparation.
 - D. Personnel, equipment and tools to unload, assemble and install equipment. Spreader bars are required for lifting equipment.
 - E. Wire for automatic tier.
 - F. Adequate and appropriate materials for processing during the Start-up/Training period.
 - G. Conveyor pit and apron closures, guards and access.
 - H. Tools and spare parts for performing maintenance, adjustments and troubleshooting.

XII. Limited Warranty: All Harris Manufactured Products.

This machine is covered under Harris Warranty (HWMG, Inc. 990101W-Std) which is attached.

XIII. Options: Harris offers many options including:

- Installation or installation assistance
- Conveyors
- Hopper extension
- Bale run out table
- Climate controlled operator's cab
- Oversize bale release - *partial door*
- Combination bale release and separation door - *included*
- Plus many more - consult your Harris Representative

XIV. Acceptable Materials: This baler is intended to process the following materials; any materials other than these could severely damage the machine and will void the warranty.

- A. Empty aluminum cans.
- B. Empty tin cans, buckets or barrels, 55 gallons or less.
- C. High grade paper if segregated and "delumped."
- D. Corrugated paper.
- E. Solid waste (excluding large pieces of masonry, steel or other such non compressibles.) Ferrous metals greater than 1/8" thickness or 3/8" in diameter along with masonry and concrete greater than 2 square inches in cross section or 12" in length are not acceptable materials for processing. Glass, masonry and other such abrasive NON compressibles can cause excessive wear or damage and can interfere with baler functions such as shearing or the operation of the door. Therefore, the content of this type material should be minimized.
- F. Drywall.
- G. Wooden pallets.
- H. Empty PET bottles.
- I. "White goods" without motors and transmissions.
- J. Newsprint if segregated and "delumped."
- K. Aluminum siding and aluminum cable less than 1" diameter.
- L. Aluminum extrusions less than 1/2".
- M. Copper less than 1/2" thick.
- N. Radiators (automobile only made of aluminum or brass).
- O. Steel cable less than 3/8" in diameter.
- P. Non-magnetic ferrous material with a thickness no greater than 1/8".
- Q. Rags.
- R. Ferrous material with a tensile strength of less than 50,000 lbs/sq. inch, a thickness of no more than 1/8" and a cross section of no more than 1/4" sq. inches.

NOTE: 1. Some bridging may occur in the hopper depending upon the material being processed and how the material is being presented to the hopper. Wet solid waste may tend to extrude the plug bale if the baler has no baling door. Some materials may require pre-conditioning, consult your Harris representative.

2. The knife edges and the vertical blade clearance must be maintained within the limits established by the Harris knife blade gauge furnished with the machine; however, the clearance must, in any event, be less than the thickness of the thinnest metallic material being processed.

SPECIFICATIONS SUBJECT TO CHANGE WITHOUT NOTICE.

The provisions of this specification shall apply unless specifically provided for otherwise in your Proposal or Contract.

Hardy County Landfill
685 Airport Road
Wauchula, FL 33873
TEL: (863) 773-5089
FAX: (863) 773-3907

Dear Janice:

As requested, please find enclosed pricing and specifications the following conveyor system. The conveyors quoted are being quoted as per the dimensions you provided earlier.

Item #1: 1) 60" wide x 38'6" long 1/4" plate 9" pitch Steel Belt Sort Line Feed Conveyor

DIMENSIONS:

Belt Width: 60"
Belt Length: 38'6" measured along belt path
Belt Path Style: "S" shaped with a lower horizontal loading area of 11' (top of belt to be 12" below grade), an incline section of 38'6" at 35 degrees.

BELTING:

Belt Pans: 1/4" plate 9" pitch Piano Hinge Steel Belt constructed as follows:
1/4" thick, 60" wide precision die formed pans with fully closed loops
Reinforcements: Channel reinforcements welded to the underside across the width of every other hinge link. This increases the strength of belt pan as well as limits deflection of belt under severe impact.
Side Wings: 4" high precision die formed interlocking off-set wings, 1/4" thick, wings plug welded to pans
Chain: 2" wide x 1/4" thick (2) strands
Side Bars: Precision die punched HR 1044 high carbon steel
Bushings: Solid, 3/4" I.D. x 1-1/8" O.D. x 2-1/16" hardened RC50-60 press fit into inner side bars

Hinge Sleeve: Steel tubing liner over pin through belt hinge joint to embrace strength and extend life

Pins: CR1045 steel, 3/4" diameter, pin ends are milled flat to lock into outer side bars

Rollers: Single Flange: 3" diameter x 1-1/2" face Sintered Steel Wheels
Tracks: 25# ASCE rail designed to prevent material buildup and provide a smooth surface for belt and rollers to travel

Cleats: Angle type, 4" high x 3/8" thick welded to belt pans on 6" centers
Belt Sprockets: 6 tooth, 9" pitch, 18" pitch diameter, flame cut with hardened teeth at tail and head ends of conveyor

SHAFTING:

Both head and tail shafts fabricated out of C1045 steel. Shafts are

Distributors For:

Tracks
will last
much
longer than
side
rails

DRIVE:

 *Strongest drive in the industry*

SPEED:**SPECIAL FEATURES:****FRAME:**

Side & Belly Guards:
Side Skirts:

Load Bars:

PAINT:

mounted in heavy duty ball bearing pi blocks with cast iron housings.

7.5 HP 1800 RPM electric motor 230/460 volts, 3 phase, 60 Hertz, TEFC continuous duty motor with a 1.15 s.f. and roller chain from reducer to sprocket of head shaft. This conveyor also supplied with a shear pin sprocket hub assembly for overload protection and comes with an adjustable steel base for drive assembly.

Constant 30 FPM

Conveyor is furnished with back stop to prevent conveyor belt from roll back under full load. Electric oiler(s), gravity fed, 1-gallon capacity. Also included and shipped loose for field mounting are (2) push button "E" stops and disconnect switch.

Heavy duty open frame construction from structural shapes and formed plate. Frame is braced and reinforced for rigidity in all planes and is completely shop fitted and welded.

Provided in areas of personal access up to 8' above grade 12" high on lower horizontal and 36" high on incline and upper horizontal

To limit deflection of belt under impact

Finish coat Hustler Blue

The total price for the equipment referenced above including motor drive and all necessary guards is \$38,600.00.

Option #1: Item #1 above will fit in the existing 42" deep pit however there will be little room for cleaning under the conveyor because our conveyor frame is also 42". However, a 6" pitch steel belt frame is only 36" and this would allow for some flexibility during install as well as make cleaning and maintenance more accessible. Therefore, if we were to supply item #1 above as a 1/4" plate 6" pitch steel belt conveyor the total add-on for this would be \$1,150.00.

Item #2:

1) 60" wide x 39' long Flat Belt Sorting Conveyor,

DIMENSIONS:

Belt Width: 60"
Belt Length: 39' measured along belt path
Elevation: Horizontal
CONSTRUCTION: All steel custom unit fabrication

FRAME:

Sub-Frame: Channel fabricated from 1/4" plate with top pan fabricated out of 1/4" plate
Height of Sides: 6" high belly rest sides

 *Makes the conveyor strong & can be put into pit w/o putting whole frame into the water*

This conveyor to be supplied with heavy duty gussets for added strength and cross bracing inside of conveyor. Extra heavy duty tail plates for tail shaft and bearings and extra heavy duty head plates for head shaft and bearings.

PULLEYS:

Head Pulley: to be supplied with rubber lagging and XT hubs and bushings
Head Shaft: fabricated out of C1045 steel
Tail Pulley: to be Self-Cleaning Wing Style
Tail Shaft: fabricated out of C1045 steel

BELTING:**DRIVE:**

PVC200 with 1-1/2" cleats on 4' centers

7-1/2 HP 1800 RPM electric motor, 230/460 volts, 3 phase, 60 hertz, TEFC with a 1.15 s.f., gear reducer and drive guard

PAINT:

Finish coat Hustler Blue

The total price for the equipment referenced above including motor drive and all necessary guards is \$24,100.00

Item #3:

1) 60" wide x 21' long Reversing Flat Belt Slider Style Conveyor

DIMENSIONS:

Belt Width: 60"
Belt Length: 21' measured along belt path
Elevation: Horizontal

All other specifications remain the same as item #2 above, with the exception of a 5 horsepower motor and be supplied with V-groove belting.

The total price for the equipment referenced above including motor drive and all necessary guards is \$19,650.00.

All prices are F.O.B. - Our Plant - St. Charles, Missouri and are valid for 60 days.

This price does not include any State, Local or Use Taxes if applicable.

Final determination of dimensions and horsepowers is made by our Engineering Department. Any changes deemed necessary may result in a pricing adjustment.

Terms are 20% with the order, 80% prior to shipment; otherwise not later than three weeks after notification goods are ready for delivery

The approximate freight costs for shipping this equipment to job site in Tampa, FL is \$1,850.00 per truck. Approximately (2) trucks will be needed to ship this equipment.

Equipment purchaser/user is responsible for determining and supplying the safety features to be furnished in order to comply with local, state and federal rules and regulations pertaining to the safety, health and welfare of the worker.

All parts and equipment manufactured by Hustler Conveyor Company are warranted for 2080 hours of operation or one year from date of shipment, whichever comes first. The sale of the equipment covered in this proposal will be subject to Hustler's Standard Terms and Conditions of Sales and Hustler's Warranty as set forth therein, all of which are incorporated on the reverse side of this proposal. All purchased parts and their warranties are passed on to the end user.

Crigler Enterprises will furnish all of the necessary misc. steel, labor to install the system, and rigging equipment necessary to complete the installation for \$9,400.00.

We are looking forward to a favorable response to our proposal.

Regards,

Kenneth Roberts

RE: Response to October 12, 2001 Letter – Training for Operators and Spotters
Dear Mr. Butera:

Hardee County Solid Waste Department currently has three, trained landfill operators:

Janice Williamson	Employed on 1/27/92	Certified	Landfill	Operator
Steve Strickland	Employed on 9/28/92	HEO/	Landfill	Operator
Jerry Hutto	Employed on 12/9/91	RRO/	Landfill Operator	

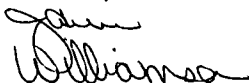

There are four individuals within the Landfill who work under the direct supervision of the Landfill Operators and may perform the duties of operators or spotters for the facility. These individuals, in my opinion have shown competency and have sufficient work experience, education and training to serve as interim operators.

Stephen Wingo	Employed on 7/7/1998	RRO
Moises Serrano	Employed on 2/8/2000	RRO
Ed Pearce	Employed on 8/24/98	Truck Driver
Donald Albritton	Employed on 10/18/2000	HEO

All of these employees, as well as the prison inmate labor used, have received training from the Central Florida Regional Planning Council (Bert McKey) in regards to recognizing unacceptable and hazardous waste and proper safety procedures while working in the MRF. In addition, we have provided safety programs and videos on the proper use of fire extinguishers, operations of the different types of equipment, slip and falls, proper lifting, avoiding hazards and so on... These programs and videos have been provided by our Contractors, our Public Risk Management group, Fire and Rescue Department and In-house therefore, employees do not usually receive certificates. We will now request proof of attendance from all agencies providing these services. We will develop an operator/spotter training plan to be included in our next permit renewal listing the programs we currently have available through the different agencies and in house.

I have proposed to the BOCC, to add a spotter position to our department and should this position be approved, that person will receive training as required by the new rule.

Sincerely,

Janice Williamson,
Solid Waste Superintendent

Re: Training for Operators and Spotters
Hardee County MRF

Dear Ms. Williamson:

The Department's solid waste regulations were amended on May 27, 2001 to include training requirements for operators and spotters at waste processing facilities including materials recovery facilities and transfer stations (Florida Administrative Code, Rule 62-701.710). This rule and 62-701.320(15) requires each facility to have trained operators and spotters by July 1, 2001, however the Department does not expect all facilities to fully comply until December 1, 2001. Please refer to the attached memorandum dated September 13, 2001 for further clarification. Attached you will also find registration information for courses offered in October to meet some of these new training requirements.

Course #020516 – 16-Hour Initial Training Course for Transfer Station Operators, October 31 – November 1, 2001 in Tampa – Fee: \$325 (*this course is for transfer station operators only*)

Course #020515 – Spotting at Construction and Demolition Sites, Landfills and Transfer Stations, November 1, 2001 in Tampa – Fee \$250 (*this course is for materials recovery facility spotters also*)

Course #(unknown) – 16-Hour Initial Training Course for Materials Recovery Facility Operators, in Tampa – Date and Fee are unknown at this time.

Completion of these courses may be the most convenient and timely way to fulfill the initial requirements for 16 hours of training for operators and 8 hours of training for spotters. The Department will initiate enforcement if your facility fails to comply with these requirements.

By October 25, 2001, you are requested to provide a list of the following:

- (1) individuals currently trained and copies of their attendance certificates, and
- (2) individuals to be trained and which courses they will attend.

The Department suggests that each facility have more than one trained operator and spotter.

Your continued cooperation is appreciated. If you have any questions, please call Kim Ford at (813) 744-6100, extension 382.

Sincerely,

Robert J. Butera, P.E.

"More Protection, Less Process"

Florida Department of
Environmental Protection

Memorandum

TO: District Waste Program Administrators
District Solid Waste Engineers

FROM: Richard B. Tedder, Administrator
Solid Waste Section

Chris McGuire, Senior Assistant General Counsel
Office of General Counsel

DATE: September 13, 2001

SUBJECT: Operator and Spotter Training Requirements

On May 27, 2001, Chapter 62-701 was substantially amended. One of those changes was the creation of Rule 62-701.320(15), F.A.C., which essentially consolidated and updated the training requirements for operators and spotters of solid waste management facilities. Since then, some questions have arisen regarding the spotter requirements.

Rule 62-701.320(15)(d) specifies that the training requirements for operators and spotters at waste processing facilities, and the training requirements for spotters at land clearing debris disposal facilities, shall be effective on July 1, 2001. These types of facilities had not previously required trained operators or spotters, and the Department intended to give them about six months to come into compliance. However, the July 1 date was chosen when we expected the rule to become effective in December; when adoption was delayed by a few months, we simply forgot to change this compliance date. Therefore, it will be our practice that the training requirements for operators and spotters at waste processing facilities, and the training requirements for spotters at land clearing debris disposal facilities, will be enforced only after December 1, 2001.

Other questions have arisen regarding interim operators and interim spotters. First, the definitions of "interim" operators and spotters in Rules 62-701.320(15)(g) and (i) include requirements to show competency "through a combination of work experience, education and training." This phrase should not be interpreted to mean that the interim operator or spotter must have received formal, Department-approved training, but simply that the person has received sufficient training, either on-the-job or in some other manner, to perform his or her duties while under the supervision of a trained operator or spotter.

Secondly, these same rules provide that interim operators may perform the duties of an operator only under the supervision of a trained operator, and that interim spotters may perform the duties of a spotter only under the supervision of a trained operator or trained spotter. This means that the interim operator must be under the direct supervision of a trained operator who is actually acting as an operator at the facility, and the interim spotter must be under the direct supervision of a trained operator or spotter who is actually acting as a spotter at the facility. The fact that a facility's administrative setup may show that the interim employee is under the supervision of a

trained operator is not sufficient; if it were, no spotter would ever need to be trained since all facilities could have a trained operator acting as a supervisor. Categories for interim operators and spotters were created as a way of allowing new employees to receive on-the-job training under the watchful eyes of trained personnel, not as a way to avoid the expense and inconvenience of training programs.

Caveat

This guidance memorandum does not constitute policy or rule of the Department. It is intended solely as internal guidance to District permit review staff, and is not intended to create additional requirements for the regulated community or to affect the rights of substantially affected parties to any agency decision. Please do not cite any part of this memorandum as though it were a standard, rule, or requirement.

SWANA - Florida Chapter

Fall Training Symposia - Tampa, FL

Landfill Gas and Leachate Systems

October 31, 2001 • Fee: \$250

8:00 a.m. - 5:00 p.m.

This eight-hour course teaches you how to comply with the local, state and federal regulations governing landfill gas and leachate systems. During course presentations and demonstrations, you learn up-to-date technologies on the control processes and designs of the systems. Topics include: Biological Decomposition of Waste, Characteristics of Landfill Gas and Leachate, Migration and Monitoring of Landfill Gas Design Considerations and Treatment Options. Contact hours: 8, SWANA CEUs: 5. Instructors provided by SCS Engineers.

Spotting at Construction and Demolition Sites, Landfills and Transfer Stations

November 1, 2001 • Fee: \$250

8:00 a.m. - 5:00 p.m.

This one-day initial training course for spotters provides an overview of spotter operations at landfills, construction and demolition sites, and transfer stations. Topics include: Spotter Responsibility, Communication, Traffic Management, State Regulations, Compliance Inspections, Forms, Random Load Inspections, Classes of Landfills, Prohibited Waste Material, Hazardous Waste Material, C&D Debris Facilities, Personal Safety, Personal Hygiene, and Landfill Fires. Contact hours: 8, SWANA CEUs: 5. Instructors provided by JEA, Inc.

16-Hour Initial Training Course for Transfer Station Operators

October 31- November 1, 2001 • Fee: \$325

7:30 a.m. - 5:30 p.m.

This two-day course is approved as an initial training course for transfer station operators. The course includes an exam, which attendees must achieve 70% proficiency. Topics include: Brief History of Solid Waste Management in U.S., Regulatory Aspects of Transfer Station Operation, The Modern Transfer Station, Siting, Leachate and Storm Water, Ventilation and Odor Control, Waste Control, Operating Guidelines, Employee Health and Safety, Contingency Planning, Financial Responsibility, Monitoring Site Development and Efficiency, Transfer Station Closure. Instructor: Chris Kohl, Kohl Training, Inc. Contact hours: 16

Manager of Landfill Operations (MOLO) Exam

October 30, 2001 Fee: \$125 member, \$250 non-member

1:00 p.m. - 4:00 p.m.

For individuals interested in seeking the voluntary certification as a Manager of Landfill Operations with the Solid Waste Association of North America (SWANA), you are now allowed to take the exam without taking the course if you have certain landfill operations experience and meet the minimum qualifications. Certification application and qualifications available on-line at www.swana.org or contact Dawn Jenkins at 352.392.9570 ext 127. Registration Deadline: October 22, 2001.

Location and Accommodations

Hilton Garden Inn Tampa-North, 600 Tampa Oaks Blvd [I-75 and Fletcher Ave, exit #55], Temple Terrace, FL 33637, 813.342.5000, \$85 single or double. To receive this rate, make your reservation prior to October 16, 2001 and mention you are a participant of the SWANA Fall Training Symposia.

Information: 352.392.9570 or visit www.treeo.ufl.edu

Course: Dawn Jenkins, ext 127 or djenkin@treeo.doce.ufl.edu Registration: Janet Touchton, ext 112 or jtoucht@treeo.doce.ufl.edu

Note: All training is approved for continuing education contact hours. Participants must be in attendance for the entire course to receive Florida approved contact hours or CEUs and a certificate of attendance. Participants are on their own for lunch.

Fax completed registration form to 352/392-6910 or register on-line at www.treeo.ufl.edu

NOTICE OF PERMIT

Hardee County Solid Waste Department
Ms. Janice Williamson, Superintendent
685 Airport Road
Wauchula, Fl. 33873

Dear Ms. Williamson:

Enclosed is Material Recovery Facility **Operation Permit Number 126620-001-SO**, issued pursuant to Section(s) 403.087(1), Florida Statutes.

A person whose substantial interests are affected by this permit may petition for an administrative proceeding (hearing) in accordance with Section 120.57, Florida Statutes. The petition must contain the information set forth below and must be filed (received) in the Department's Office of General Counsel, 3900 Commonwealth Blvd., Mail Station #35, Tallahassee, 32399-3000, within fourteen (14) days of receipt of this notice. Petitioner shall mail a copy of the petition to the applicant at the address indicated above at the time of filing. Failure to file a petition within fourteen (14) days shall constitute a waiver of any right such person has to an administrative determination (hearing) pursuant to Section 120.57, Florida Statutes.

The petition shall contain the following information;

- (a) The name, address, and telephone number of each petitioner, the applicant's name and address, the Department Permit File Number and the county in which the project is proposed;
- (b) A statement of how and when each petitioner received notice of Department's action, or proposed action;
- (c) A statement of how each petitioner's substantial interests are affected by the Department's action or proposed action;

"More Protection, Less Process"

Printed on recycled paper.

- (d) A statement of the material facts disputed by Petitioner, if any;
- (e) A statement of facts which petitioner contends warrant reversal or modification of the Department's action or proposed action;
- (f) A statement of which rules or statutes petitioner contends warrant reversal or modification of the Department's action or proposed action; and
- (g) A statement of the relief sought by petitioner, stating precisely the action petitioner wants the Department to take with respect to the Department's action or proposed action.

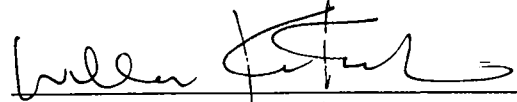

If a petition is filed, the administrative hearing process is designed to formulate agency action. Accordingly, the Department's final action may be different from the position taken by it in this notice. Persons whose substantial interests will be affected by any decision of the Department with regard to the application have the right to petition to become a party to the proceeding. The petition must conform to the requirements specified above and be filed (received) within 14 days of publication of this notice in the Office of General Counsel at the above address of the Department. Failure to petition within the allowed time frame constitutes a waiver of any right such person has to request a hearing under Section 120.57, F.S., and to participate as a party to this proceeding. Any subsequent intervention will only be at the approval of the presiding officer upon motion filed pursuant to Rule 28-5.207, F.A.C. Mediation is not available in this proceeding.

This permit is final and effective on the date filed with the Clerk of the Department unless a petition is filed in accordance with the above paragraphs or unless a request for extension of time in which to file a petition is filed within the time specified for filing a petition and conforms to Chapters 62-110, and 28-106, F.A.C. Upon timely filing of a petition or a request for an extension of time this permit will not be effective until further Order of the Department.

When the Order (Permit) is final, any party to the Order has the right to seek judicial review of the Order pursuant to Section 120.68, Florida Statutes, by the filing of a Notice of Appeal pursuant to Rule 9.110, Florida Rules of Appellate Procedure, with the Clerk of the Department in the Office of General Counsel, 3900 Commonwealth Blvd., Mail Station #35, Tallahassee, 32399-3000; and by filing a copy of the Notice of Appeal accompanied by the applicable filing fees with the appropriate District Court of Appeal. The Notice of Appeal must be filed within 30 days from the date the Final Order is filed with the Clerk of the Department.

Executed in Tampa, Florida.

Materials Recovery
Facility

This permit is issued under the provisions of Chapter 403, Florida Statutes, and Florida Administrative Code Rule(s) 62-3, 62-4, 62-25, 62-522, 62-550, 62-701, and 62-711. The above named permittee is hereby authorized to perform the work or operate the facility shown on the application and approved drawing(s), plans and other documents, attached hereto or on file with the Department and made a part hereof and specifically described as follows:

To **operate** a materials recovery facility, referred to as the **Hardee County Materials Recovery Facility**, located on Airport Road, near the City of Wauchula, Hardee County, Florida, subject to the specific and general conditions attached,. The specific conditions attached are for the operation of:

1. Materials Recovery Facility

Replaces Permit Number: S025-271793

This permit contains compliance items summarized in **Attachment 1** that shall be complied with and submitted to the Department by the dates noted. If the compliance dates are not met and submittals are not received by the Department on the dates noted, enforcement action may be initiated to assure compliance with the conditions of this permit.

GENERAL CONDITIONS:

1. The terms, conditions, requirements, limitations and restrictions set forth in this permit, are "permit conditions" and are binding and enforceable pursuant to Sections 403.141, 403.161, 403.727, or 403.861, Florida Statutes. The permittee is placed on notice that the Department will review this permit periodically and may initiate enforcement action for any violation of these conditions.
2. This permit is valid only for the specific processes and operations applied for and indicated in the approved drawings or exhibits. Any unauthorized deviation from the approved drawings, exhibits, specifications, or conditions of this permit may constitute grounds for revocation and enforcement action by the Department.
3. As provided in subsections 403.087(6) and 403.722(5), F.S., the issuance of this permit does not convey any vested rights or any exclusive privileges. Neither does it authorize any injury to public or private property or any invasion of rights, nor any infringement of federal, State, or local laws or regulations. This permit is not a waiver of or approval of any other Department permit that may be required for other aspects of the total project which are not addressed in this permit.
4. This permit conveys no title to land or water, does not constitute State recognition or acknowledgment of title, and does not constitute authority for the use of submerged lands unless herein provided and the necessary title or leasehold interests have been obtained from the State. Only the Trustees of the Internal Improvement Trust Fund may express State opinion as to title.
5. This permit does not relieve the permittee from liability for harm or injury to human health or welfare, animal, or plant life, or property caused by the construction or operation of this permitted source, or from penalties therefore; nor does it allow the permittee to cause pollution in contravention of Florida Statutes and Department rules, unless specifically authorized by an order from the Department.
6. The permittee shall properly operate and maintain the facility and systems of treatment and control (and related appurtenances) that are installed and used by the permittee to achieve compliance with the conditions of this permit, are required by Department rules. This provision includes the operation of backup or auxiliary facilities or similar systems when necessary to achieve compliance with the conditions of the permit and when required by Department rules.

GENERAL CONDITIONS:

7. The permittee, by accepting this permit, specifically agrees to allow authorized Department personnel, upon presentation of credentials or other documents as may be required by law and at reasonable times, access to the premises where the permitted activity is located or conducted to:

- (a) Have access to and copy any records that must be kept under conditions of the permit;
- (b) Inspect the facility, equipment, practices, or operations regulated or required under this permit; and
- (c) Sample or monitor any substances or parameters at any location reasonably necessary to assure compliance with this permit or Department rules.

Reasonable time may depend on the nature of the concern being investigated.

8. If, for any reason, the permittee does not comply with or will be unable to comply with any condition or limitation specified in this permit, the permittee shall immediately provide the Department with the following information:

- (a) A description of and cause of noncompliance; and
- (b) The period of noncompliance, including dates and times; or, if not corrected, the anticipated time the noncompliance is expected to continue, and steps being taken to reduce, eliminate, and prevent recurrence of the noncompliance.

The permittee shall be responsible for any and all damages which may result and may be subject to enforcement action by the Department for penalties or for revocation of this permit.

9. In accepting this permit, the permittee understands and agrees that all records, notes, monitoring data and other information relating to the construction or operation of this permitted source which are submitted to the Department may be used by the Department as evidence in any enforcement case involving the permitted source arising under the Florida Statutes or Department rules, except where such use is prescribed by Sections 403.111 and 403.73, F.S. Such evidence shall only be used to the extent it is consistent with the Florida Rules of Civil Procedure and appropriate evidentiary rules.

10. The permittee agrees to comply with changes in Department rules and Florida Statutes after a reasonable time for compliance; provided, however, the permittee does not waive any other rights granted by Florida Statutes or Department rules.

GENERAL CONDITIONS:

11. This permit is transferable only upon Department approval in accordance with Rule 62-4.120 and 62-730.300, Florida Administrative Code, as applicable. The permittee shall be liable for any non-compliance of the permitted activity until the transfer is approved by the Department.

12. This permit or a copy thereof shall be kept at the work site of the permitted activity.

13. This permit also constitutes:

- (a) Determination of Best Available Control Technology (BACT)
- (b) Determination of Prevention of Significant Deterioration (PSD)
- (c) Certification of compliance with State Water Quality Standards (Section 401, PL 92-500)
- (d) Compliance with New Source Performance Standards

14. The permittee shall comply with the following:

(a) Upon request, the permittee shall furnish all records and plans required under Department rules. During enforcement actions, the retention period for all records will be extended automatically unless otherwise stipulated by the Department.

(b) The permittee shall hold at the facility or other location designated by this permit records of all monitoring information (including all calibration and maintenance records and all original strip chart recordings for continuous monitoring instrumentation) required by the permit, copies of all reports required by this permit, and records of all data used to complete the application for this permit. These materials shall be retained at least three years from the date of the sample, measurement, report, or application unless otherwise specified by Department rule.

(c) Records of monitoring information shall include:

- 1. the date, exact place, and time of sampling or measurements;
- 2. the person responsible for performing the sampling or measurements;
- 3. the dates analyses were performed;
- 4. the person responsible for performing the analyses;
- 5. the analytical techniques or methods used;
- 6. the results of such analyses.

GENERAL CONDITIONS:

15. When requested by the Department, the permittee shall within a reasonable time furnish any information required by law which is needed to determine compliance with the permit. If the permittee becomes aware the relevant facts were not submitted or were incorrect in the permit application or in any report to the Department, such facts or information shall be corrected promptly.

16. In the case of an underground injection control permit, the following permit conditions also shall apply:

(a) All reports or information required by the Department shall be certified as being true, accurate and complete.

(b) Reports of compliance or noncompliance with, or any progress reports on, requirements contained in any compliance schedule of this permit shall be submitted no later than 14 days following each schedule date.

(c) Notification of any noncompliance which may endanger health or the environment shall be reported verbally to the Department within 24 hours and again within 72 hours, and a final written report provided within two weeks.

1. The verbal reports shall contain any monitoring or other information which indicate that any contaminant may endanger an underground source of drinking water and any noncompliance with a permit condition or malfunction of the injection system which may cause fluid migration into or between underground sources of drinking water.

2. The written submission shall contain a description of and a discussion of the cause of the noncompliance and, if it has not been corrected, the anticipated time the noncompliance is expected to continue, the steps being taken to reduce, eliminate, and prevent recurrence of the noncompliance, and all information required by Rule 62-28.230(4)(b), F.A.C.

(d) The Department shall be notified at least 180 days before conversion or abandonment of an injection well, unless abandonment within a lesser period of time is necessary to protect waters of the State.

GENERAL CONDITIONS:

17. The following conditions also shall apply to a hazardous waste facility permit.

(a) The following reports shall be submitted to the Department:

1. Manifest discrepancy report. If a significant discrepancy in a manifest is discovered, the permittee shall attempt to rectify the discrepancy. If not resolved within 15 days after the waste is received, the permittee shall immediately submit a letter report, including a copy of the manifest, to the Department.
2. Unmanifested waste report. The permittee shall submit an unmanifested waste report to the Department within 15 days of receipt of unmanifested waste.
3. Biennial report. A biennial report covering facility activities during the previous calendar year shall be submitted by March 1 of each even numbered year pursuant to Chapter 62-730, F.A.C.

(b) Notification of any noncompliance which may endanger health or the environment, including the release of any hazardous waste that may endanger public drinking water supplies or the occurrence of a fire or explosion from the facility which could threaten the environment or human health outside the facility, shall be reported verbally to the Department within 24 hours, and a written report shall be provided within 5 days. The verbal report shall include the name, address, I.D. number, and telephone number of the facility, its owner or operator, the name and quantity of materials involved, the extent of any injuries, an assessment of actual or potential hazards, and the estimated quantity and disposition of recovered material. The written submission shall contain:

1. A description and cause of the noncompliance.
2. If not corrected, the expected time of correction, and the steps being taken to reduce, eliminate, and prevent recurrence of the noncompliance.

(c) Reports of compliance or noncompliance with, or any progress reports on, requirements in any compliance schedule shall be submitted no later than 14 days after each schedule date.

(d) All reports or information required by the Department by a hazardous waste permittee shall be signed by a person authorized to sign a permit application.

SPECIFIC CONDITIONS:

1. **Facility Designation.** This site shall be classified as a materials recovery facility for materials recovery, sorting and recycling, and shall be constructed and operated in accordance with all applicable requirements of Chapters 62-3, 62-4, 62-25, 62-28, 62-520, 62-522, 62-550, and 62-701 Florida Administrative Code (F.A.C.) and all applicable requirements of Department Rules.
2. **Permit Application Documentation.** This permit is valid for operation of the material recovery facility and related facilities in accordance with the reports, plans and other information, submitted by Hardee County, as follows:
 - a. Application for Permit Renewal for Hardee County Board of-county Commissioners, Material Recovery Facility, dated March 2000 (received April 18, 2000);
 - b. Additional information dated May 17, 2000 (received May 26, 2000 and July 11, 2000 via fax);
 - c. Record Drawings received May 31, 1995, entitled, Hardee County Solid Waste Recycling Center, originally dated December 1991 and prepared by Briley, Wild and Associates;
 - d. and in accordance with all applicable requirements of Department rules.
3. **Permit Modifications.** Any activities not previously approved as part of this permit shall require a separate Department permit unless the Department determines a permit modification to be more appropriate. Any significant changes to the facility shall require a permit modification. Permits shall be modified in accordance with the requirements of Rule 62-4.080, F.A.C. A modification which is reasonably expected to lead to substantially different environmental impacts, and which requires a detailed review by the Department, is considered a substantial modification.
4. **Permit Renewal.** No later than **sixty (60) days** before the expiration of the Department Permit, the permittee shall apply for a renewal of a permit on forms and in a manner prescribed by the Department, in order to assure conformance with all applicable Department rules.
5. **Prohibitions.** The prohibitions of Rule 62-701.300, F.A.C., shall not be violated by the operation of this facility.
6. **Facility Operation Requirements.**
 - a. The permittee shall operate this facility in accordance with Rule 62-701.700, F.A.C.; the information and drawings as listed in Specific Condition #2 above; and any other applicable requirements.
 - b. Litter shall be collected at least once daily.

SPECIFIC CONDITIONS:

(Specific Condition #6 cont'd)

c. In the event of extended downtime (greater than 72 hours) of equipment, or other emergency conditions, unprocessed materials and residuals shall be removed and transported to the onsite Class I Landfill or other appropriate disposal facility.

d. The owner or operator shall remove from the site 75% of all recyclable goods each year, either for recycling or disposal.

e. At no time shall any material be allowed to be stored on the tipping floor for more than **72 hours** from the time of receipt.

f. Except as authorized by Class I Landfill permit 38414-002-SO or its successors, all incoming loads of waste and recyclables shall be unloaded and processed inside the building only.

7. **Operation Plan and Operating Record.** A copy of the Department approved permit, operational plan, construction reports and record drawings, and supporting information shall be kept at the facility at all times for reference and inspections. The operations plan shall be reviewed and all changes, or a statement indicating that no changes have occurred, shall be submitted to the Department **annually, by April 15th** each year.

8. **Storage of Materials.**

a. Storage of processed and unprocessed materials, and residuals, shall not exceed the quantities or timeframes listed in **Attachment 2** of this permit, or as otherwise specified by this permit.

b. All materials which are stored outside the building, shall be stored on impermeable surfaces and shall be covered, or shall be stored in covered containers to prevent precipitation infiltration of the materials.

c. All residuals (non-recoverable, non-recyclable materials) shall be stored in areas with leachate collection, and shall be disposed of **within 24 hours** of processing the material and generating the residual.

d. All recovered materials shall be removed from the site for recycling or disposal in accordance with the schedule outlined in **Attachment 2** of this permit. In any event, recovered materials shall be removed from the facility within one year of processing/recovering the material.

SPECIFIC CONDITIONS:

9. **Waste Records.** The owner or operator of the materials recovery facility shall record, in tons per day, the amount of material received at the MRF. The quantity, in tons, of each material (e.g. aluminum cans, steel/tin cans, glass, plastic, newsprint, cardboard, residuals, etc.) which is removed from the site for recycling or disposal shall be compiled monthly and submitted to the Department **quarterly**, by **January 15th, April 15th, July 15th and October 15th** of each year. The operating authority shall remove from the site, 75% of all recovered materials each year, for recycling or disposal.
10. **Monitoring of Waste.** The permittee shall not accept hazardous waste or any hazardous substance at this site. Hazardous waste is a waste in Chapter 62-730, F.A.C. Hazardous substances are those defined in Section - 403.703, Florida Statute or in any other applicable state or federal law or administrative rule.
12. **Drainage Requirements.**
- a. All areas shall be cleaned at the end of each day's operation, at a minimum, or as needed, to prevent odor or vector problems. All washdown water shall be contained within the building. All liquids discharged from unloading vehicles shall be contained within the building. Floors shall be free of standing liquids.
- b. All drains and leachate collection sumps shall be inspected for damage and clogging at least **daily**, and shall be cleaned as required. The leachate collection drains and sumps shall be cleaned at least **weekly**. In the event that liquids do not freely flow into the drains, the grates shall **immediately (within 24 hours)** be removed and cleaned. In no event shall leachate be allowed to discharge beyond the leachate collection system. In the event that the drains do not provide adequate removal of leachate from the building, corrective actions shall be taken to correct the deficiencies in accordance with Specific condition #18, below.
13. **Closure Requirements.** The facility owner or operator shall notify the Department of the facility's closure, **no later than 180 days** prior to the date when the facility is expected to close, as required by Rule 62-701.700(3)(d), F.A.C. The facility shall be closed in accordance with Rule 62-701.700(3)(d), F.A.C., and the Closure Plan submitted in the information listed in Specific Condition #2, above.
14. **Financial Assurance.** The permittee shall provide financial assurance for the material recovery facility site in accordance with Rule 62-701.700(4), F.A.C.
- a. All costs for closure shall be adjusted for inflation and changes in the facility operations, and submitted **annually, by September 1st each year** to: Solid Waste Manager, Solid Waste Section, Department of Environmental Protection, 3804 Coconut Palm Drive, Tampa, Florida 33619-8318.

SPECIFIC CONDITIONS:

(Specific Condition #14 cont'd)

- b. Proof that the financial mechanism has been adequately funded shall be submitted **annually**, to: Financial Coordinator, Solid Waste Section, MS#4565, Department of Environmental Protection, 2600 Blair Stone Road, Tallahassee, Florida 32399-2400.

15. **Control of Nuisance Conditions.** The operating authority shall be responsible for the control of odors and fugitive particulates arising from this construction and operation. Such control shall minimize the creation of nuisance conditions on adjoining property. Complaints received from the general public, and confirmed by Department personnel upon site inspection, shall constitute a nuisance condition, and the permittee must take immediate (**within 24 hours**) corrective action to abate the nuisance. The owner or operator shall control disease vectors so as to protect the public health and welfare.

16. **Stormwater System.** The site shall continue to have a stormwater management system operated and maintained to prevent surface water flow into waste processing and storage areas. The stormwater management system shall be operated and maintained in accordance with Chapter 62-330, F.A.C., and any other applicable Department or water management district rules.

17. **Fire Safety Survey.**

- a. **Annually**, the permittee shall arrange for a fire safety inspection by the local fire protection authorities. The inspection shall be conducted no later than **January 15th** each year. The fire safety inspection report, which includes a statement from the local protection authorities that the site meets the requirements of the local fire protection authorities, shall be maintained at the facility for five years, and copies shall be provided to the Department upon request.

- b. In the event that deficiencies are noted, **within 30 days** of completion, the permittee shall provide documentation to the Department indicating correction of any deficiencies noted in the annual Fire Safety Survey. The documentation shall include approval of the corrections by the local fire authority.

18. **Facility Maintenance and Repair.**

- a. The site shall be properly maintained including building maintenance, and maintenance of equipment, drainage systems, leachate collection and removal systems, and stormwater systems. In the event of damage to any portion of the site facilities or failure of any portion of the associated systems, the permittee shall **immediately (within 24 hours)** notify the Department explaining such occurrence and remedial measures to be taken and time needed for repairs. Written detailed notification shall be submitted to the Department **within seven (7) days** following the occurrence.

SPECIFIC CONDITIONS:

(Specific Condition #18 cont'd)

b. In the event of a fire which requires outside assistance from the local fire protection authorities, the MRF shall cease accepting waste until the fire is completely extinguished and normal operations may resume.

19. **Professional Certification.** Where required by Chapter 471 (P.E.) or Chapter 492 (P.G.), Florida Statutes, applicable portions of permit applications and supporting documents which are submitted to the Department for public record shall be signed and sealed by the professional(s) who prepared or approved them.

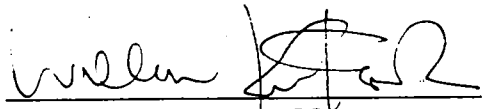

20. **General Conditions.** The permittee shall be aware of and operate under the "General Conditions". General Conditions are binding upon the permittee and enforceable pursuant to Chapter 403, Florida Statutes.

21. **Permit Acceptance.** By acceptance of this Permit, the Permittee certifies that he/she has read and understands the obligations imposed by the Specific and General Conditions contained herein and also including date of permit expiration and renewal deadlines. It is a violation of this permit for failure to comply with all conditions and deadlines.

22. **Regulations.** Rule 62-701.700, F.A.C., effective April 23, 1997, is incorporated into this permit by reference. In the event that the regulations governing this permitted operation are revised, the Department will notify the permittee, and the permittee shall request modification of those specific conditions which are affected by the revised regulations to incorporate those revisions.

Executed in Tampa, Florida.

Tampa, FL 33619

RE: Response to RAI dated April 26, 2000
Hardee County Material Recovery Facility Operations Permit
Pending Permit No. 126620-001-SO

Dear Ms. Pelz:

In response to the above referenced, the following is submitted for your review:

1. Rule 62-701.320(8), FAC Please publish the attached Notice and provide proof of publication to the Department.

A copy of the certificate of publication for the Herald Advocate is attached.

2. Rule 62-701.700(2) and (3), FAC Please provide the following information as part of the Operations Plan. (a) A projection of waste quantities expected in future years, and the assumptions used to make those projections:

The population projections were calculated by the University of Florida and the waste projections were calculated on current percentages and pound per capita per day. Tables were submitted in the 1999-2000 annual Solid Waste Report through

May 17, 2000

Page 2

the Recycling and Education Grant Application, Part II.

(b) A description of the loading, unloading and processing areas, specifically describing the leachate collection system:

(c) Provisions for leachate containment and management:

The entire concrete building floor is sealed to facilitate maintenance and sanitation. The tipping floor and processing areas are equipped with floor drains, which drain to a pre-fab pumping station near the building. The pumping station pumps "waste" water to the leachate storage tanks at the Class I Landfill site. The floors are dry sweated daily and pressure washed once a week to minimize the production of "waste" water. "Waste" water generated in the loading dock at the rear of the facility is pumped with a ½ hp trash pump directly into the floor drains.

Surface water quality on the site is protected by construction of an 18,500 sq. ft retention pond and widened swells. Surface drainage from the building and surface areas are stored in these facilities per the requirements of FAC 17-25. No mixing of surface water and water used to wash the tipping floor or otherwise coming into contact with solid waste is allowed.

(d) A plan for the disposal of unmarketable recyclables:

Should any type of baled recyclable become "unmarketable" due to condition or lack of vendor, those bales will be disposed of in the Class I Landfill. At no time will recyclables be stored outside of the facility for a period of longer than twelve months.

(e) A contingency plan to cover operations interruptions due to emergency conditions such as fire, explosion, etc., which impact access to the site:

In the event, for mechanical or other reasons, the MRF has to cease operations, the scalehouse operators will direct the waste loads to the Class I Landfill for compaction and disposal by conventional landfill methods.

3. Rules 62-701.700 (2)© and (d), FAC Please verify and complete the following table:

See completed Table attached.

4. Rules 62-701.700 (2) © and (d) FAC Please verify the time frame listed for baled OCC on the "Method of Storage for Recyclables" table in Appendix C. It does not appear to correlate with the narrative.

May 17, 2000

Page 3

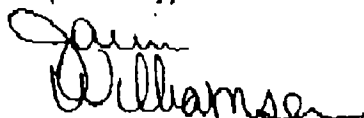

The timeframe stated in the narrative is correct. Copy of new table attached.

5. *Rule 62-701.700 (4) FAC The financial assurance cost estimates will be reviewed based on the quantities listed in the response to Comment #3, above.*

Additional information on financial assurance approval from DEP provided for general information.

This RAI has been incorporated into the Operations Plan for this facility. We hope that we have addressed all concerns adequately. However, should you need additional information, please feel free to contact us.

Sincerely,

Janice Williamson
Solid Waste Superintendent

RE: Hardee County ~~Class I Landfill~~ ^{MRF} Operation Permit Renewal
Pending Permit No.: 126620-001-SO MRF Operations Renewal

Dear Ms. Williamson:

This is to acknowledge receipt of your application dated March 31, 2000 (received April 18, 2000) to continue to operate a solid waste management facility, referred to as the Hardee County Materials Recovery Facility.

This letter constitutes notice that a permit will be required for your project pursuant to Chapter(s) 403, Florida Statutes. Your application for a permit is incomplete. This is the Department's first request for additional information. Please provide the information listed below promptly. Evaluation of your proposed project will be delayed until all requested information has been received.

The following information is needed in support of the solid waste application [Chapter 62-701, Florida Administrative Code (F.A.C.)]:

1. **Rule 62-701.320(8), F.A.C.** Please publish the attached Notice and provide proof of publication to the Department.
2. **Rules 62-701.700(2) and (3), F.A.C.** Please provide the following information as part of the Operations Plan:
 - a. A projection of waste quantities expected in future years, and the assumptions used to make those projections;
 - b. A description of the loading, unloading and processing areas, specifically describing the leachate collection system;
 - c. Provisions for leachate containment and management;
 - d. A plan for the disposal of unmarketable recyclables; and
 - e. A Contingency Plan to cover operations interruptions due to emergency conditions such as fire, explosion, etc., which impact access to the site.

"More Protection, Less Process"

Printed on recycled paper.

3. Rules 62-701.700(2)(c) and (d), F.A.C. Please verify and complete the following table:

Material	Max. Storage Qty. (cy, tons)	Storage Method	Max. Storage time	Storage Location
Unprocessed Waste				Tipping floor
Processed: Clear Glass	25 cy	Roll-off		On pavement, SW corner
Amber glass	25 cy	Roll-off		On pavement, SW corner
Commingled aluminum and bimetal cans		Covered containers	1 week	
Baled aluminum			4-6 months	Inside MRF bldg.
Baled bimetal			3-6 months	Scrap metal site
Plastics		Loose		Pavement east of bldg.
Plastics		Baled		Pavement south of bldg.
Newsprint			1-3 months	Trailer northeast of bldg.
OCC		Loose	1 week	Pavement east of bldg.
OCC		Baled	2-3 months	Pavement south of bldg.

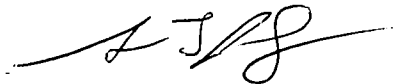

4. Rules 62-701.700(2)(c) and (d), F.A.C. Please verify the timeframe listed for baled OCC on the "Method of Storage for Recyclables" table in Appendix C. It does not appear to correlate with the narrative.

5. Rule 62-701.700(4), F.A.C. The financial assurance cost estimates will be reviewed based on the quantities listed in the response to Comment #3, above.

"NOTICE! Pursuant to the provisions of Section 120.60, F.S. if the Department does not receive a complete response to this request for information within 30 days of the date of this letter, the Department may issue a final order denying your application. You need to respond within 30 days after the date of this letter, responding to all of the information requests and indicating when a response to any unanswered questions will be submitted. If the response will require longer than 30 days to develop, you should develop a specific time table for the submission of the requested information for Department review and consideration. Failure to comply with a time table accepted by the Department will be grounds for the Department to issue a Final Order of Denial for lack of a timely response. A denial for lack of information or response will be unbiased as to the merits of the application. The applicant can reapply as soon as the requested information is available."

You are requested to submit three copies of your response to this letter together, as one complete package. If there are points which must be discussed and resolved, please contact me at (813) 744-6100 ext. 386.

Sincerely,

Susan J. Pelz, P.E.

62-110.106 (6) Public Notice of Application and Proposed Agency Action
Publication of a notice of application shall be required for those projects that, because of their size, potential effect on the environment or natural resources, controversial nature, or location, are reasonably expected by the Department to result in a heightened public concern or likelihood of request for administrative proceedings. If required, the notice shall be published by the applicant one time only within fourteen days after a complete application is filed and shall contain the name of the applicant, a brief description of the project and its location, the location of the application file, and the times when it is available for public inspection. The notice shall be prepared by the Department and shall comply with the following format:

State of Florida
Department of Environmental Protection
Notice of Application

The Department announces the receipt of an application for permit from Hardee County Board of County Commissioners, Mr. Minor Bryant, Chairman, for continued operation of a solid waste materials recovery facility, referred to as the Hardee County Materials Recovery Facility, located at the Hardee County Regional Landfill, 675 Airport Road, Wauchula, Florida.

This application is being processed and is available for public inspection during normal business hours, 8:00 a.m. to 5:00 p.m. Monday through Friday, except legal holidays, at the Department of Environmental Protection, Southwest District Office, 3804 Coconut Palm Drive, Tampa, Florida 33619-8318.

RE: MRF Permit Renewal, SO25-271793

Dear Ms. Pelz:

Attached for your review and approval is the renewal permit application for the operation of the Hardee County Material Recovery Facility.

Please note that the general information in parts A and C has been updated. Because there have been no substantial changes in the operation of this facility or in quantity and types of materials received, parts D and S are marked "no substantial change" (except for current closure estimates). Part T has been signed by the chairman of the Hardee County Board of County Commissioners and verified by Hardee County's Engineer.

In addition, attached is our request for permit fee reduction and the reduced fee for \$100.00. Should you have any questions or request for additional information please feel free to contact me.

Sincerely,

Janice Williamson
Solid Waste Superintendent

NOTICE OF PERMIT

Hardee County Board of County Commissioners
Mr. J.R. Prestridge, Assistant County Manager
413 West Orange Street
Wauchula, Fl. 33873

Dear Mr. Prestridge:

Enclosed operation Permit Number **S025-271793**, issued pursuant to Section(s) 403.087(1), Florida Statutes.

A person whose substantial interests are affected by this permit may petition for an administrative proceeding (hearing) in accordance with Section 120.57, Florida Statutes. The petition must contain the information set forth below and must be filed (received) in the Department's Office of General Counsel, 2600 Blair Stone Road, Tallahassee, 32399-2400, within fourteen (14) days of receipt of this notice. Petitioner shall mail a copy of the petition to the applicant at the address indicated above at the time of filing. Failure to file a petition within fourteen (14) days shall constitute a waiver of any right such person has to an administrative determination (hearing) pursuant to Section 120.57, Florida Statutes.

The petition shall contain the following information;

- (a) The name, address, and telephone number of each petitioner, the applicant's name and address, the Department Permit File Number and the county in which the project is proposed;
- (b) A statement of how and when each petitioner received notice of Department's action, or proposed action;
- (c) A statement of how each petitioner's substantial interests are affected by the Department's action or proposed action;
- (d) A statement of the material facts disputed by Petitioner, if any;

- (e) A statement of facts which petitioner contends warrant reversal or modification of the Department's action or proposed action;
- (f) A statement of which rules or statutes petitioner contends warrant reversal or modification of the Department's action or proposed action; and
- (g) A statement of the relief sought by petitioner, stating precisely the action petitioner wants the Department to take with respect to the Department's action or proposed action.

If a petition is filed, the administrative hearing process is designed to formulate agency action. Accordingly, the Department's final action may be different from the position taken by it in this notice. Persons whose substantial interests will be affected by any decision of the Department with regard to the application have the right to petition to become a party to the proceeding. The petition must conform to the requirements specified above and be filed (received) within 14 days of publication of this notice in the Office of General Counsel at the above address of the Department. Failure to petition within the allowed time frame constitutes a waiver of any right such person has to request a hearing under Section 120.57, F.S., and to participate as a party to this proceeding. Any subsequent intervention will only be at the approval of the presiding officer upon motion filed pursuant to Rule 28-5.207, F.A.C.

This permit is final and effective on the date filed with the Clerk of the Department unless a petition is filed in accordance with the above paragraphs or unless a request for extension of time in which to file a petition is filed within the time specified for filing a petition and conforms to Rule 17-103.070, F.A.C. Upon timely filing of a petition or a request for an extension of time this permit will not be effective until further Order of the Department.

When the Order (Permit) is final, any party to the Order has the right to seek judicial review of the Order pursuant to Section 120.68, Florida Statutes, by the filing of a Notice of Appeal pursuant to Rule 9.110, Florida Rules of Appellate Procedure, with the Clerk of the Department in the Office of General Counsel, 2600 Blair Stone Road, Tallahassee, 32399-2400; and by filing a copy of the Notice of Appeal accompanied by the applicable filing fees with the appropriate District Court of Appeal. The Notice of Appeal must be filed within 30 days from the date the Final Order is filed with the Clerk of the Department.

Executed in Tampa, Florida.

Materials Recovery
Facility

This permit is issued under the provisions of Chapter 403, Florida Statutes, and Florida Administrative Code Rule(s) 62-3, 62-4, 62-25, 62-522, 62-550, 62-701, and 62-711. The above named permittee is hereby authorized to perform the work or operate the facility shown on the application and approved drawing(s), plans and other documents, attached hereto or on file with the Department and made a part hereof and specifically described as follows:

To construct and operate a materials recovery facility, referred to as the Hardee County Materials Recovery Facility, located on Airport Road, near the City of Wauchula, Hardee County, Florida, subject to the specific and general conditions attached,. The specific conditions attached are for the operation of:

1. Materials Recovery Facility

Replaces Permit Number: SC25-179573

This permit contains compliance items summarized in Attachment 1 that shall be complied with and submitted to the Department by the dates noted. If the compliance dates are not met and submittals are not received by the Department on the dates noted, enforcement action may be initiated to assure compliance with the conditions of this permit.

GENERAL CONDITIONS:

1. The terms, conditions, requirements, limitations and restrictions set forth in this permit, are "permit conditions" and are binding and enforceable pursuant to Sections 403.141, 403.161, 403.727, or 403.861, Florida Statutes. The permittee is placed on notice that the Department will review this permit periodically and may initiate enforcement action for any violation of these conditions.
2. This permit is valid only for the specific processes and operations applied for and indicated in the approved drawings or exhibits. Any unauthorized deviation from the approved drawings, exhibits, specifications, or conditions of this permit may constitute grounds for revocation and enforcement action by the Department.
3. As provided in subsections 403.087(6) and 403.722(5), F.S., the issuance of this permit does not convey any vested rights or any exclusive privileges. Neither does it authorize any injury to public or private property or any invasion of rights, nor any infringement of federal, State, or local laws or regulations. This permit is not a waiver of or approval of any other Department permit that may be required for other aspects of the total project which are not addressed in this permit.
4. This permit conveys no title to land or water, does not constitute State recognition or acknowledgment of title, and does not constitute authority for the use of submerged lands unless herein provided and the necessary title or leasehold interests have been obtained from the State. Only the Trustees of the Internal Improvement Trust Fund may express State opinion as to title.
5. This permit does not relieve the permittee from liability for harm or injury to human health or welfare, animal, or plant life, or property caused by the construction or operation of this permitted source, or from penalties therefore; nor does it allow the permittee to cause pollution in contravention of Florida Statutes and Department rules, unless specifically authorized by an order from the Department.
6. The permittee shall properly operate and maintain the facility and systems of treatment and control (and related appurtenances) that are installed and used by the permittee to achieve compliance with the conditions of this permit, are required by Department rules. This provision includes the operation of backup or auxiliary facilities or similar systems when necessary to achieve compliance with the conditions of the permit and when required by Department rules.

GENERAL CONDITIONS:

7. The permittee, by accepting this permit, specifically agrees to allow authorized Department personnel, upon presentation of credentials or other documents as may be required by law and at reasonable times, access to the premises where the permitted activity is located or conducted to:

- (a) Have access to and copy any records that must be kept under conditions of the permit;
- (b) Inspect the facility, equipment, practices, or operations regulated or required under this permit; and
- (c) Sample or monitor any substances or parameters at any location reasonably necessary to assure compliance with this permit or Department rules.

Reasonable time may depend on the nature of the concern being investigated.

8. If, for any reason, the permittee does not comply with or will be unable to comply with any condition or limitation specified in this permit, the permittee shall immediately provide the Department with the following information:

- (a) A description of and cause of noncompliance; and
- (b) The period of noncompliance, including dates and times; or, if not corrected, the anticipated time the noncompliance is expected to continue, and steps being taken to reduce, eliminate, and prevent recurrence of the noncompliance.

The permittee shall be responsible for any and all damages which may result and may be subject to enforcement action by the Department for penalties or for revocation of this permit.

9. In accepting this permit, the permittee understands and agrees that all records, notes, monitoring data and other information relating to the construction or operation of this permitted source which are submitted to the Department may be used by the Department as evidence in any enforcement case involving the permitted source arising under the Florida Statutes or Department rules, except where such use is prescribed by Sections 403.111 and 403.73, F.S. Such evidence shall only be used to the extent it is consistent with the Florida Rules of Civil Procedure and appropriate evidentiary rules.

10. The permittee agrees to comply with changes in Department rules and Florida Statutes after a reasonable time for compliance; provided, however, the permittee does not waive any other rights granted by Florida Statutes or Department rules.

GENERAL CONDITIONS:

11. This permit is transferable only upon Department approval in accordance with Rule 62-4.120 and 62-730.300, Florida Administrative Code, as applicable. The permittee shall be liable for any non-compliance of the permitted activity until the transfer is approved by the Department.

12. This permit or a copy thereof shall be kept at the work site of the permitted activity.

13. This permit also constitutes:

- (a) Determination of Best Available Control Technology (BACT)
- (b) Determination of Prevention of Significant Deterioration (PSD)
- (c) Certification of compliance with State Water Quality Standards (Section 401, PL 92-500)
- (d) Compliance with New Source Performance Standards

14. The permittee shall comply with the following:

- (a) Upon request, the permittee shall furnish all records and plans required under Department rules. During enforcement actions, the retention period for all records will be extended automatically unless otherwise stipulated by the Department.
- (b) The permittee shall hold at the facility or other location designated by this permit records of all monitoring information (including all calibration and maintenance records and all original strip chart recordings for continuous monitoring instrumentation) required by the permit, copies of all reports required by this permit, and records of all data used to complete the application for this permit. These materials shall be retained at least three years from the date of the sample, measurement, report, or application unless otherwise specified by Department rule.
- (c) Records of monitoring information shall include:
 - 1. the date, exact place, and time of sampling or measurements;
 - 2. the person responsible for performing the sampling or measurements;
 - 3. the dates analyses were performed;
 - 4. the person responsible for performing the analyses;
 - 5. the analytical techniques or methods used;
 - 6. the results of such analyses.

PERMITTEE: Hardee Co. Board of County of Commissioners
Mr. J. R. Prestridge, Asst. County Manager

PERMIT NO: SO25-271793
Hardee Co. MRF

GENERAL CONDITIONS:

15. When requested by the Department, the permittee shall within a reasonable time furnish any information required by law which is needed to determine compliance with the permit. If the permittee becomes aware the relevant facts were not submitted or were incorrect in the permit application or in any report to the Department, such facts or information shall be corrected promptly.

SPECIFIC CONDITIONS:

1. **Facility Designation.** This site shall be classified as a resource recovery facility for materials recovery, sorting and recycling, and shall be constructed and operated in accordance with all applicable requirements of Chapters 62-3, 62-4, 62-25, 62-28, 62-520, 62-522, 62-550, and 62-701 Florida Administrative Code (F.A.C.) and all applicable requirements of Department Rules.

2. **Permit Application Documentation.** This permit is valid for operation of the material recovery facility and related facilities in accordance with the reports, plans and other information, submitted by Hardee County, Mr. Ronald D. Stowers, P.E., as follows:

Renewal Application - Solid Waste Recycle Center dated May 31, 1995;
Additional information dated June 29, 1995;
Record Drawings received May 31, 1995, entitled, Hardee County Solid Waste Recycling Center, originally dated December 1991 and prepared by Briley, Wild and Associates;
and in accordance with all applicable requirements of Department rules.

3. **Permit Modifications.** Any activities not previously approved as part of this permit shall require a separate Department permit unless the Department determines a permit modification to be more appropriate. Any significant changes to the operations at the facility shall require a permit modification. Permits shall be modified in accordance with the requirements of 62-4.080, F.A.C. A modification which is reasonably expected to lead to substantially different environmental impacts which require a detailed review by the Department is considered a substantial modification.

4. **Permit Renewal.** As required by F.A.C. 62-4.090(1), no later than **sixty (60) days** before the expiration of the Department Permit, the permittee shall apply for a renewal of a permit on forms and in a manner prescribed by the Department, in order to assure conformance with all applicable Department rules. Permits shall be renewed at least every five years as required by F.A.C. 62-701.330(3).

5. **Prohibitions.** The prohibitions of F.A.C. 62-701.300 shall not be violated.

6. **Facility Operation Requirements.** The permittee shall operate this facility in accordance with F.A.C. 62-701.700; and the Operations Plan in Renewal Application - Solid Waste Recycle Center dated May 31, 1995; the additional information dated June 29, 1995; and any other applicable requirements.

SPECIFIC CONDITIONS:

7. **Operation Plan and Operating Record.** A copy of the Department approved permit, operational plan, construction reports and record drawings, and supporting information shall be kept at the facility at all times for reference and inspections. The operations plan shall be reviewed and all changes, or a statement indicating that no changes have occurred, shall be submitted to the Department annually, by April 15th each year.

8. **Storage of Materials.**

a. All materials shall be stored as indicated on the Table, "Method of Storage for Recyclables" dated June 29, 1995.

b. All materials which are stored outside the building, shall be stored on impermeable surfaces and shall be covered, or shall be stored in covered containers to prevent precipitation infiltration of the materials.

c. All residuals (non-recoverable, non-recyclable materials) shall be stored in areas with leachate collection, and shall be disposed of within 24 hours of processing the material and generating the residual.

d. All recovered materials shall be removed from the site for recycling or disposal in accordance with the schedule outlined in the Table, "Method of Storage for Recyclables" dated June 29, 1995. In any event, recovered materials shall be removed from the facility within one year of processing/recovering the material.

9. **Waste Records.** The owner or operator of the materials recovery facility shall record, in tons per day, the amount of material received. The quantity, in tons, of each material (e.g. aluminum cans, steel/tin cans, glass (clear, amber), plastic (#1-7), newsprint, cardboard, residuals, etc.) which is removed from the site for recycling or disposal shall be compiled monthly and submitted to the Department quarterly, by January 15th, April 15th, July 15th and October 15th of each year. The operating authority shall remove from the site, 75% of all recovered materials each year, for recycling or disposal.

10. **Monitoring of Waste.** The permittee shall not accept hazardous waste or any hazardous substance at this site. Hazardous waste is a waste in Chapter 62-730, F.A.C. Hazardous substances are those defined in Section 403.703, Florida Statute or in any other applicable state or federal law or administrative rule.

SPECIFIC CONDITIONS:

11. **Drainage Requirements.** All areas shall be cleaned at the end of each day's operation, at a minimum, or as needed, to prevent odor or vector problems. All liquids shall be contained within the building. Floors shall be free of standing liquids. All drains and conveyor pits shall be inspected for damage and clogging at least weekly, and shall be cleaned as required.

12. **Closure Requirements.** The facility owner or operator shall notify the Department of the facility's closure, no later than **180 days prior** to the date when the facility is expected to close, as required by F.A.C. 62-701.700(3)(d). The facility shall be closed in accordance with F.A.C. 62-701.700(3)(d) and the Closure Plan submitted in the Renewal Application - Solid Waste Recycle Center dated May 31, 1995.

13. **Financial Assurance.** The permittee shall provide financial assurance for the material recovery facility site in accordance with F.A.C. 62-701.700(4).

a. All costs for closure shall be adjusted and submitted **annually, by March 1st each year** to: Solid Waste Manager, Solid Waste Section, Department of Environmental Protection, 3804 Coconut Palm Drive, Tampa, Florida 33619-8318.

b. Proof that the financial mechanism has been adequately funded shall be submitted **annually, by September 1st each year**, to: Financial Coordinator, Solid Waste Section, Department of Environmental Protection, 2600 Blair Stone Road, Tallahassee, Florida 32399-2400.

14. **Control of Nuisance Conditions.** The operating authority shall be responsible for the control of odors and fugitive particulates arising from this construction and operation. Such control shall minimize the creation of nuisance conditions on adjoining property. Complaints received from the general public, and confirmed by Department personnel upon site inspection, shall constitute a nuisance condition, and the permittee must take immediate corrective action to abate the nuisance. The owner or operator shall control disease vectors so as to protect the public health and welfare.

15. **Stormwater System.** The site shall continue to have a stormwater management system operated and maintained in accordance with F.A.C. 62-25, 62-330, and any other applicable Department rules.

16. **Fire Safety.** The permittee shall submit to the Department a fire safety survey **annually** which includes a statement from the local protection authorities that the site meets the requirements of the local fire protection authorities. This report shall be submitted by **January 15th** of each year.

SPECIFIC CONDITIONS:

17. **Facility Maintenance and Repair.** The site shall be properly maintained including building maintenance, and maintenance of processing equipment, drainage systems, and stormwater systems. In the event of damage to any portion of the site facilities or failure of any portion of the associated systems, the permittee shall immediately (**within 24 hours**) notify the Department of Environmental Protection explaining such occurrence and remedial measures to be taken and time needed for repairs. Written detailed notification shall be submitted to the Department **within seven (7) days** following the occurrence.

18. **Professional Certification.** Where required by Chapter 471 (P.E.) or Chapter 492 (P.G.), Florida Statutes, applicable portions of permit applications and supporting documents which are submitted to the Department for public record shall be signed and sealed by the professional(s) who prepared or approved them.

19. **General Conditions.** The permittee shall be aware of and operate under the "General Conditions". General Conditions are binding upon the permittee and enforceable pursuant to Chapter 403, Florida Statutes.

20. **Permit Acceptance.** By acceptance of this Permit, the Permittee certifies that he/she has read and understands the obligations imposed by the Specific and General Conditions contained herein and also including date of permit expiration and renewal deadlines. It is a violation of this permit for failure to comply with all conditions and deadlines.

21. **Regulations.** A copy of F.A.C. 62-701.700, effective May 19, 1994, attached, is a part of this permit and shall remain attached for future reference. In the event that these regulations governing this permitted operation are revised, the Department shall notify the permittee, and the permittee shall request modification of those specific conditions which are affected by the revision of regulations to incorporate those revisions.

Executed in Tampa, Florida.

RE: Material Recovery Facility, Hardee County
Pending Permit No. SO25-271793
Response to letter dated June 26, 1995

Dear Susan:

In response to your letter dated June 26, 1995, the following information is submitted:

o/c 1. Clear or transparent bags which contain commingled recyclables may be placed in the drop-off trailer located at the entrance of the facility, before passing over the scales. Approximately once every other day, the contents of the trailer is loaded onto the flatbed truck, weighed in, and transported to the Material Recovery Facility. It is unloaded onto the tipping floor and pushed onto the conveyor belt. The trustees, which are stationed on either side of the belt, will rip the bags open by hand or by using knives. Recyclables are removed and separated, non-recyclables, including empty trash bags, continue down the belt and into the baler. Baled waste is transported to the Class I Landfill. Bags containing recyclables which are brought directly to the Material Recovery Facility (such as in garbage trucks) will be dealt with in the same process.

o/c 2. Please refer to the attached chart.

o/c 3. The glass crusher is listed in the Equipment List as item number 7. The shredder is utilized only for shredding whole waste tires. The waste tire site is located adjacent to the Class I Landfill. The shredder is housed in the Material Recovery Facility for maintenance purposes. We are permitted to process 500 tires per month. This particular equipment was purchased through the Waste Tire Grant and its operational procedures are included in the Landfill Operational Plan. However, because of its location I will add it to the Material Recovery Facility's Operational Plan as well.

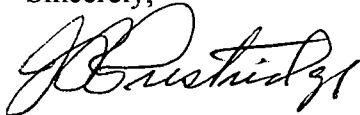

Phone: (813) 773-5089 • FAX: (813) 773-0958

Page 2 of 2

The above is submitted as a summary of direct answers to your questions. Please make note that our Operational Plan has also been modified to include this information. A revised copy is enclosed.

We thank you for your time and cooperation and as always, should you have further questions or comments please feel free to contact us.

Sincerely,

A handwritten signature in black ink, appearing to read "J.R. Prestridge". The signature is fluid and cursive, with the first letters of the first and last names being capitalized and prominent.

HARDEE COUNTY MATERIAL RECOVERY FACILITY
METHOD OF STORAGE FOR RECYCLABLES

MATERIAL	STORAGE UNPROCESSED/LOOSE	STORAGE PROCESSED/BALED	STORAGE TIME
GLASS - CLEAR AND AMBER	Stored in metal dump carts until carts are full. Metal dump carts are kept inside the facility, usually underneath the sorting belt. ✓	Stored in one of two 25 cubic yard roll-off bins provided by the vendor. Bins are located outside of the facility on the south west side of the pavement. ✓	It takes approximately two to three months for the bins to be filled. Bins weigh an average of 9.5 tons.
ALUMINUM CANS	Loose aluminum cans are stored in plastic bins with covers. The bins are stored outside the south end of the facility beside the loading dock. ✓	Baled aluminum cans are stored inside the facility directly behind the east containment wall of the tipping floor. ✓	The storage time of aluminum varies greatly depending on market pricing and quantity. On the average it is stored four to six months.
STEEL OR TIN CANS	Loose steel or tin cans are stored in plastic bins with covers. The bins are stored outside the south end of the facility beside the loading dock. ✓	Baled cans are transported to the scrap metal site located adjacent the Class I Landfill. Baled cans are sold along with the scrap metal. This site has a hard shell floor. ✓	Scrap metal is usually stored for three to six months before selling.
PLASTIC- NO. 1-7	Loose plastic is stored in a wooden, fenced storage area outside of the facility on the south west corner of the pavement. Outside storage is limited to two weeks. ✓	Baled plastic is stored in a semi-box trailer located in the loading lock on the south end of the facility. ✓	Storage of baled plastic is estimated to be six months.
NEWSPRINT	Loose newsprint is stored in the drop-off trailer located to the right at the entrance of the landfill. ✓	N/A	Storage time may be as long as one year.
OCC	Loose cardboard is stored in a paved, fenced-in area connected to the east door of the facility. Cardboard is processed weekly. ✓	Baled cardboard is stored outside of the facility on the south pavement. ✓	Markets require 22 to 32 bales. This requires one to two months of storage time. Average loads weigh 22.5 tons.

RE: Materials Recovery Facility, Hardee County
Pending Permit No. S025-271793

Dear Mr. Prestridge:

This is to acknowledge receipt of your permit application, to operate a solid waste management facility, referred to as the Hardee County Materials Recovery Facility.

This letter constitutes notice that a permit will be required for your project pursuant to Chapter(s) 403, Florida Statutes.

Your application for a permit is incomplete. Please provide the information listed below promptly. Evaluation of your proposed project will be delayed until all requested information has been received.

The following information is needed in support of the solid waste application [Chapter 62-701, Florida Administrative Code (F.A.C.)]:

ok 1. Please provide the operational procedures for managing plastic bags. At what point are bags removed? How are bags removed? What is the final disposition of the bags?

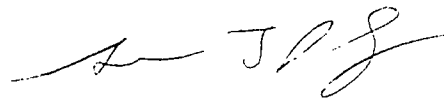

ok 2. Please provide a description or table which indicates each material recovered, the maximum quantities (or time period) that materials are stored at the facility, the type of storage (e.g., container, baled, loose), and the storage location (e.g., with or without roof, with or without pavement, location in the building, etc.). A portion of this information has been provided, however in several instances the information submitted indicates that materials are stored "until sufficient quantities accumulate for market." (page 19) While the Department understands that market conditions fluctuate, a maximum time period or quantity for storage should be provided.

3. Please clarify if the Shredder, 1500 E, presented in the equipment list is the glass crusher. The glass crusher was not listed. If the shredder is not the glass crusher, please describe the purpose of the shredder and provide operational procedures relating the shredder to the materials recovery process.

"NOTICE! Pursuant to the provisions of Section 120.600, F.S. and Chapter 62-12.070(5), F.A.C., if the Department does not receive a complete response to this request for information within 30 days of the date of this letter, the Department may issue a final order denying your application. You need to respond within 30 days after the date of this letter, responding to all of the information requests and indicating when a response to any unanswered questions will be submitted. If the response will require longer than 30 days to develop, you should develop a specific time table for the submission of the requested information for Department review and consideration. Failure to comply with a time table accepted by the Department will be grounds for the Department to issue a Final Order of Denial for lack of a timely response. A denial for lack of information or response will be unbiased as to the merits of the application. The applicant can reapply as soon as the requested information is available."

You are requested to submit your response to this letter together, as one complete package. If there are points which must be discussed and resolved, please contact me at (813) 744-6100 ext. 386.

Sincerely,

Susan J. Pelz, E. I

Hardee County, FL
Application for Renewal of Permit SL25-179573

Dear Mr. Butera:

Forwarded for your review and consideration is the Renewal Application Permit for Hardee County Solid Waste Recycling Center. Included are the following:

1. Application for Renewal Permit Parts A, C, D, S and T (3);
2. Permit Fee Check \$100 with letter requesting Permit Fee Reduction (3);
3. As-Built Construction Drawing (3);
4. Aerial Photos of Site (3).

If there are any questions, you may contact me at (941) 773-3236.

Re: Permit Fee Reduction

Dear Mr. Butera:

Pursuant to the Florida Law 94-278, Hardee County is requesting a permit fee reduction.

Hardee County is currently at the ten mill ad valorem tax cap. Florida Law states that millage greater than eight mills would justify a permit fee reduction or waiver to be granted on the basis of fiscal hardship. Hardee County certifies that the cost of the permit processing fee is a fiscal hardship due to the fact that ad valorem operating millage is greater than eight mills.

Attached you will find the certification of the county millage by the Hardee County Property Appraisers Office.

Thank You,

A handwritten signature in dark ink, appearing to read "Ted Hite", written over a horizontal line.

T. CERTIFICATION BY APPLICANT AND ENGINEER OR PUBLIC OFFICER

A. Applicant

The undersigned applicant or authorized representative of Hardee County is aware that statements made in this form and attached information are an application for a Permit Renewal SC25-179573 Permit from the Florida Department of Environmental Regulation and certifies that the information in this application is true, correct and complete to the best of his knowledge and belief. Further, the undersigned agrees to comply with the provisions of Chapter 403, Florida Statutes, and all rules and regulations of the Department. It is understood that the Permit is not transferable, and the Department will be notified prior to the sale or legal transfer of the permitted facility.

Signature of Applicant or Agent

Ted Hite, Chairman of the Board of County
Name and Title Commissioners

Date: 5/26/95

Attach letter of authorization if agent is not a governmental official, owner, or corporate officer.

B. Professional Engineer Registered in Florida or Public Officer as required in Section 403.707 and 403.707(5), Florida Statutes.

This is to certify that the engineering features of this solid waste management facility have been designed/examined by me and found to conform to engineering principals applicable to such facilities. In my professional judgement, this facility, when properly maintained and operated, will comply with all applicable statutes of the State of Florida and rules of the Department. It is agreed that the undersigned will provide the applicant with a set of instructions of proper maintenance and operation of the facility.

NOTICE OF PERMIT

MAY - 8 1992

Mr. James Harrison, Chairman
Hardee County Board of
County Commissioners
Room A-204, Courthouse Annex
412 West Orange Street
Wauchula, FL 33873-2867

Dear Mr. Harrison:

Enclosed is a modification of the existing permit, Permit Number SC25-179573, issued pursuant to Section(s) 403.087(1), Florida Statutes.

Persons whose substantial interests are affected by this permit have a right, pursuant to Section 120.57, Florida Statutes, to petition for an administrative determination (hearing) on it. The petition must conform to the requirements of Chapters 17-103 and 28-5.201, F.A.C., and must be filed (received) in the Department's Office of General Counsel, 2600 Blair Stone Road, Tallahassee 32399-2400, within fourteen (14) days of receipt of this notice. Failure to file a petition within the fourteen (14) days constitutes a waiver of any right such person has to an administrative determination (hearing) pursuant to Section 120.57, Florida Statutes. This permit is final and effective on the date filed with the Clerk of the Department unless a request for extension of time in which to file a petition is filed within the time specified for filing a petition and conforms to Rule 17-103.070, F.A.C. Upon timely filing of a petition or a request for an extension of time this permit will not be effective until further Order of the Department.

When the Order (Permit) is final, any party to the Order has the right to seek judicial review of the Order pursuant to Section 120.68, Florida Statutes, by the filing of a Notice of Appeal pursuant to Rule 9.110, Florida Rules of Appellate Procedure, with the Clerk of the Department in the Office of General Counsel, 2600 Blair Stone Road, Tallahassee, Florida 32399-2400; and by filing a copy of the Notice of Appeal accompanied by the applicable filing fees with the appropriate District Court of Appeal. The Notice of Appeal must be filed within 30 days from the date the Final Order is filed with the Clerk of the Department.

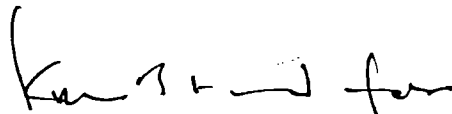

Mr. James Harrison, Chairman

Dear Mr. Butera,

In reference to our phone conversation on April 29, 1992 we are hereby requesting a permit extension for permit number SC25-179573 for the Hardee County Material Recovery Facility.

The construction is now complete and has been certified by John Cummings of Briley Wild and Associates, Inc. The facility was also inspected by the Department of Environmental Regulation on December 7, 1991.

Enclosed is a check for fifty dollars for the permit fee.

Sincerely,

J.R. Prestridge

SPECIFIC CONDITIONS:

1. This site shall be classified as a resource recovery facility for materials recovery, sorting and recycling, and shall be constructed and operated in accordance with all applicable requirements of Chapters 17-25 and 17-701, Florida Administrative Code. This permit is valid for construction and operation in accordance with the reports and plans by Briley, Wild & Associates submitted on April 26, 1990, and additional information submitted by Briley, Wild & Associates on June 20, 1990, and in accordance with all applicable requirements of Department rules. Any construction not previously approved as part of this permit shall require a separate Department permit unless the Department determines a permit modification to be more appropriate.

2. After all significant initial construction of the site or facility components have been completed, the engineer or the authorized public officer shall complete an Application to Operate Only Resource Recovery and Management Facility-Certification of Construction Completion, Department Form 17-7.130(2) and contact the Department to arrange for Department representatives to inspect the facility in the company of the permittee, the engineer, and the proposed on-site facility operator. The inspection is to ensure that the site or facility components have been developed in accordance with the approved permit. "Record Drawings" shall be submitted to the Department.

3. The site shall have a surface water management system operated and maintained to prevent surface water flow onto waste filled areas, and a stormwater runoff control system operated and maintained to collect and control stormwater to meet requirements of Florida Administrative Code Rule 17-25 and requirements of the respective water management district.

4. In the event of damage to any portion of the site facilities or failure of any portion of the systems, the permittee shall immediately notify the Department of Environmental Regulation explaining such occurrence and remedial measures to be taken and time needed for repairs. Written detailed notification shall be made within one week following the occurrence.

5. Prior to 90 days before the expiration of the Department Permit, the permittee shall apply for a renewal of a permit on forms and in a manner prescribed by the Department, in order to assure conformance with all applicable Department rules.

PERMITTEE: Mr. Ben Albritton
Hardee County Materials Recovery Facility

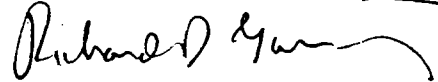

PERMIT NO: SC25-179573

SPECIFIC CONDITIONS:

6. The permittee shall submit to the Department a fire safety survey annually which includes a statement from the local fire protection authorities that the site meets the requirements of the local fire protection authorities. This survey report shall be submitted by January 1st of each year.
7. A trained supervisor or foreman shall be responsible for maintaining the facility in an orderly, safe, and sanitary manner. Sufficient personnel shall be employed as noted in the operation plan to adequately operate the facility.
8. The permittee shall remove from the site 75% of all recyclable goods each year, either for recycling or disposal.
9. The permittee shall dispose of all nonrecyclable goods in a landfill authorized by the Department.
10. The permittee shall be aware of and operate under the attached "General Conditions". General Conditions are binding upon the permittee and enforceable pursuant to Chapter 403, Florida Statutes.

Issued this 31 day of July, 1990

STATE OF FLORIDA DEPARTMENT
OF ENVIRONMENTAL REGULATION

Richard D. Garrity, Ph.D.
Deputy Assistant Secretary
Southwest District

ATTACHMENT - GENERAL CONDITIONS:

1. The terms, conditions, requirements, limitations and restrictions set forth in this permit, are "permit conditions" and are binding and enforceable pursuant to Sections 403.141, 403.161, 403.727, or 403.859 through 403.861, Florida Statutes. The permittee is placed on notice that the Department will review this permit periodically and may initiate enforcement action for any violation of these conditions.

2. This permit is valid only for the specific processes and operations applied for and indicated in the approved drawings or exhibits. Any unauthorized deviation from the approved drawings, exhibits, specifications, or conditions of this permit may constitute grounds for revocation and enforcement action by the Department.

3. As provided in subsections 403.087(6) and 403.722(5), F.S., the issuance of this permit does not convey any vested rights or any exclusive privileges. Neither does it authorize any injury to public or private property or any invasion of personal rights, nor any infringement of federal, State, or local laws or regulations. This permit is not a waiver of or approval of any other Department permit that may be required for other aspects of the total project which are not addressed in this permit.

4. This permit conveys no title to land or water, does not constitute State recognition or acknowledgement of title, and does not constitute authority for the use of submerged lands unless herein provided and the necessary title or leasehold interests have been obtained from the State. Only the Trustees of the Internal Improvement Trust Fund may express State opinion as to title.

5. This permit does not relieve the permittee from liability for harm or injury to human health or welfare, animal, or plant life, or property caused by the construction or operation of this permitted source, or from penalties therefore; nor does it allow the permittee to cause pollution in contravention of Florida Statutes and Department rules, unless specifically authorized by an order from the Department.

6. The permittee shall properly operate and maintain the facility and systems of treatment and control (and related appurtenances) that are installed and used by the permittee to achieve compliance with the conditions of this permit, are required by Department rules. This provision includes the operation of backup or auxiliary facilities or similar systems when necessary to achieve compliance with the conditions of the permit and when required by Department rules.

7. The permittee, by accepting this permit, specifically agrees to allow authorized Department personnel, upon presentation of credentials or other documents as may be required by law and at reasonable times, access to the premises where the permitted activity is located or conducted to:

- (a) Have access to and copy any records that must be kept under conditions of the permit;
- (b) Inspect the facility, equipment, practices, or operations regulated or required under this permit; and

- (c) Sample or monitor any substances or parameters at any location reasonably necessary to assure compliance with this permit or Department rules.

Reasonable time may depend on the nature of the concern being investigated.

8. If, for any reason, the permittee does not comply with or will be unable to comply with any condition or limitation specified in this permit, the permittee shall immediately provide the Department with the following information:

- (a) A description of and cause of noncompliance; and
- (b) The period of noncompliance, including dates and times; or, if not corrected, the anticipated time the noncompliance is expected to continue, and steps being taken to reduce, eliminate, and prevent recurrence of the noncompliance.

The permittee shall be responsible for any and all damages which may result and may be subject to enforcement action by the Department for penalties or for revocation of this permit.

9. In accepting this permit, the permittee understands and agrees that all records, notes, monitoring data and other information relating to the construction or operation of this permitted source which are submitted to the Department may be used by the Department as evidence in any enforcement case involving the permitted source arising under the Florida Statutes or Department rules, except where such use is prescribed by Sections 403.111 and 403.73, F.S. Such evidence shall only be used to the extent it is consistent with the Florida Rules of Civil Procedure and appropriate evidentiary rules.

10. The permittee agrees to comply with changes in Department rules and Florida Statutes after a reasonable time for compliance; provided, however, the permittee does not waive any other rights granted by Florida Statutes or Department rules.

11. This permit is transferable only upon Department approval in accordance with Rule 17-4.120 and 17-730.300, Florida Administrative Code, as applicable. The permittee shall be liable for any non-compliance of the permitted activity until the transfer is approved by the Department.

12. This permit or a copy thereof shall be kept at the work site of the permitted activity.

13. This permit also constitutes:

- () Determination of Best Available Control Technology (BACT)
- () Determination of Prevention of Significant Deterioration (PSD)
- () Certification of compliance with State Water Quality Standards (Section 401, PL 92-500)
- () Compliance with New Source Performance Standards

14. The permittee shall comply with the following:

- (a) Upon request, the permittee shall furnish all records and plans required under Department rules. During enforcement actions, the retention period for all records will be extended automatically unless otherwise stipulated by the Department.
- (b) The permittee shall hold at the facility or other location designated by this permit records of all monitoring information (including all calibration and maintenance records and all original strip chart recordings for continuous monitoring instrumentation) required by the permit, copies of all reports required by this permit, and records of all data used to complete the application for this permit. These materials shall be retained at least three years from the date of the sample, measurement, report, or application unless otherwise specified by Department rule.
- (c) Records of monitoring information shall include:
 - 1. the date, exact place, and time of sampling or measurements;
 - 2. the person responsible for performing the sampling or measurements;
 - 3. the dates analyses were performed;
 - 4. the person responsible for performing the analyses;
 - 5. the analytical techniques or methods used;
 - 6. the results of such analyses.

15. When requested by the Department, the permittee shall within a reasonable time furnish any information required by law which is needed to determine compliance with the permit. If the permittee becomes aware the relevant facts were not submitted or were incorrect in the permit application or in any report to the Department, such facts or information shall be corrected promptly.

SUBJECT: Solid Waste Construction Permit
SC25-179573, Hardee County
Hardee County Materials Recovery Facility

The purpose of this permit is to construct a resource recovery facility (approximately 5 acres), referred to as the Hardee County Materials Recovery Facility, subject to the specific conditions attached, for materials recovery, storing and recycling, located at near Airport Road and S.R. 64A, northeast of Wauchula, Hardee County, Florida.

This permit allows the construction of a new building for sorting recyclables from municipal solid waste and grinding or baling the waste for disposal into the nearby Class I landfill. The facility includes a conveyor for hand-sorting waste, a baler and a shredder with leachate collection for wash-down water, surrounded by a large paved area for access and a stormwater management system. These activities are allowed by DER's rules.

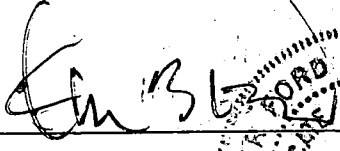

I recommend this permit based upon an evaluation of the project correspondence.

State of Florida
Department of Environmental Regulation
Notice of Proposed Agency Action
on Permit Application

The Department gives notice of its intent to issue a permit
to Mr. Ben Albritton, Chairman, Hardee County Board of
County Commissioners, who applied on April 26, 1990, to
the Department of Environmental Regulation for a permit
to construct a resource recovery facility (approximately 5
acres), referred to as the Hardee County Materials
Recovery Facility, subject to the specific conditions at-
tached, for materials recovery, storing and recycling,
located near Airport Road and S.R. 64A, northeast of
Wauchula, Hardee County, Florida.

Persons whose substantial interests are affected by the
Department's proposed permitting decision may petition for
an administrative proceeding (hearing) in accordance with
Section 120.57, Florida Statutes. The petition must con-
form to the requirements of Chapters 17-103 and 28-5,
Florida Administrative Code, and must be filed (received) in
the Office of General Counsel of the Department at 2600
Blair Stone Road, Twin Towers Office Building, Tallahassee,
Florida 32399-2400, within fourteen (14) days of
publication of this notice. Failure to file a request for
hearing within this time period shall constitute a waiver any
right such person may have to request an administrative
determination (hearing) under Section 120.57, Florida
Statutes.

If a petition is filed, the administrative hearing process is
designed to formulate agency action. Accordingly, the
Department's final action may be different from the position
taken by it in this preliminary statement. Therefore, per-
sons who may not object to the proposed agency action
may wish to intervene in the proceeding. A petition for in-
tervention must be filed pursuant to Model Rule 28-5.207
at least five (5) days before the final hearing and be filed
with the hearing officer if one has been assigned at the
Division of Administrative Hearings, Department of Ad-
ministration, 2009 Apalachee Parkway, Tallahassee, Florida
32301. If no hearing officer has been assigned, the petition
is to be filed with the Department's Office of General
Counsel, 2600 Blair Stone Road, Tallahassee, Florida
32399-2400. Failure to petition to intervene within the
allowed time frame constitutes a waiver of any right such
person has to request a hearing under Section 120.57,
Florida Statutes.

The application is available for public inspection during
normal business hours 8:00 a.m. to 5:00 p.m., Monday
through Friday, except legal holidays, at 4520 Oak Fair
Boulevard, Tampa, Florida 33610-7347.

JUL - 2 1990

INTENT TO ISSUE

The Department of Environmental Regulation hereby gives notice of its Intent to Issue a construction permit (copy attached) for the proposed project as detailed in the application specified above. The Division is issuing this Intent of Issue for the reasons stated below.

The applicant, Mr. Ben Albritton, Chairman, Hardee County Board of County Commissioners, applied on April 26, 1990, to the Department of Environmental Regulation for a permit to construct a resource recovery facility (approximately 5 acres), referred to as the Hardee County Materials Recovery Facility, subject to the specific conditions attached, for materials recovery, storing and recycling, located near Airport Road and S.R. 64A, northeast of Wauchula, Hardee County, Florida.

The Department has permitting jurisdiction under 403.707 and 403.861, Florida Statutes, and Rules 17-4 and 17-701, Florida Administrative Code (F.A.C.). The project is not exempt from permitting procedures. The Department has determined that a construction permit is required for the proposed work.

The Department intends to issue this permit based on its belief that reasonable assurances have been provided to indicate that the proposed project will not adversely impact water quality and the proposed project will comply with the appropriate provisions of Chapters 17-25 and 17-701, subject to the specific conditions attached in the permit.

Pursuant to Section 403.815, F.S. and DER Rule 17-103.150, F.A.C., you (the applicant) are required to publish at your own expense the enclosed Notice of Proposed Agency Action on permit application. The notice must be published one time only in a section of a major local newspaper of general circulation in the county in which the project is located and within thirty (30) days from receipt of this intent. Proof of publication must be provided to the Department within seven days of publication of the notice. Failure to publish the notice and provide proof of publication within the allotted time may result in the denial of the permit.

The Department will issue the permit with the attached conditions unless petition for an administrative proceeding (hearing) is filed pursuant to the provisions of Section 120.57, F.S. A person whose substantial interests are affected by the Department's proposed permitting decision may petition for an administrative proceeding (hearing) in accordance with Section 120.57, Florida Statutes. Petitions must comply with the requirements of Florida Administrative Code Rule 17-103.155 and 28-5.201 (copies enclosed) and be filed with (received by)

the Office of General Counsel of the Department at 2600 Blair Stone Road, Tallahassee, Florida 32399-2400. Petitions filed by the permit applicant must be filed within fourteen (14) days of receipt of this intent. Petitions filed by other persons must be filed within fourteen (14) days of publication of the public notice or within fourteen (14) days of receipt of this intent, whichever first occurs. Failure to file a petition within this time period shall constitute a waiver of any right such person may have to request an administrative determination (hearing) under Section 120.57, Florida Statutes, concerning the subject permit application. Petitions which are not filed in accordance with the above provisions will be dismissed.

Executed in Tampa, Florida.

Issued this 29th day of June, 1990

Department of Environmental Regulation
Notice of Proposed Agency Action on Permit Application

The Department gives notice of its intent to issue a permit to Mr. Ben Albritton, Chairman, Hardee County Board of County Commissioners, who applied on April 26, 1990, to the Department of Environmental Regulation for a permit to construct a resource recovery facility (approximately 5 acres), referred to as the Hardee County Materials Recovery Facility, subject to the specific conditions attached, for materials recovery, storing and recycling, located near Airport Road and S.R. 64A, northeast of Wauchula, Hardee County, Florida.

Persons whose substantial interests are affected by the Department's proposed permitting decision may petition for an administrative proceeding (hearing) in accordance with Section 120.57, Florida Statutes. The petition must conform to the requirements of Chapters 17-103 and 28-5, Florida Administrative Code, and must be filed (received) in the Office of General Counsel of the Department at 2600 Blair Stone Road, Twin Towers Office Building, Tallahassee, Florida 32399-2400, within fourteen (14) days of publication of this notice. Failure to file a request for hearing within this time period shall constitute a waiver any right such person may have to request an administrative determination (hearing) under Section 120.57, Florida Statutes.

If a petition is filed, the administrative hearing process is designed to formulate agency action. Accordingly, the Department's final action may be different from the position taken by it in this preliminary statement. Therefore, persons who may not object to the proposed agency action may wish to intervene in the proceeding. A petition for intervention must be filed pursuant to Model Rule 28-5.207 at least five (5) days before the final hearing and be filed with the hearing officer if one has been assigned at the Division of Administrative Hearings, Department of Administration, 2009 Apalachee Parkway, Tallahassee, Florida 32301. If no hearing officer has been assigned, the petition is to be filed with the Department's Office of General Counsel, 2600 Blair Stone Road, Tallahassee, Florida 32399-2400. Failure to petition to intervene within the allowed time frame constitutes a waiver of any right such person has to request a hearing under Section 120.57, Florida Statutes.

The application is available for public inspection during normal business hours, 8:00 a.m. to 5:00 p.m., Monday through Friday, except legal holidays, at 4520 Oak Fair Boulevard, Tampa, Florida 33610-7347.

RULES OF THE ADMINISTRATION COMMISSION, MODEL RULES OF PROCEDURE
CHAPTER 28-5, DECISIONS DETERMINING SUBSTANTIAL INTERESTS
PART II, FORMAL HEARINGS
A) PREHEARING PROCEDURES

28-5.201 Initiation of Formal Proceedings.

(1) Initiation of formal proceedings shall be made by petition to the Agency responsible for rendering final Agency action. The term petition as used herein includes any application or other document which expresses a request for formal proceedings. Each petition should be printed, typewritten or otherwise duplicated in legible form on white paper of standard legal size. Unless printed, the impression shall be on one side of the paper only and lines shall be double-spaced and indented.

(2) All petitions filed under these rules should contain:

(a) The name and address of each Agency affected and each Agency's file or identification number, if known;

(b) The name and address of the petitioner or petitioners, and an explanation of how his/her substantial interests will be affected by the Agency determination;

(c) A statement of when and how petitioner received notice of the Agency decision of intent to render a decision;

(d) A statement of all disputed issues of material fact. If there are none, the petition must so indicate;

(e) A concise statement of the ultimate facts alleged, as well as the rules and statutes which entitle the petitioner to relief;

(f) A demand for relief to which the petitioner deems himself entitled; and

(g) Other information which the petitioner contends is material.

(3) Upon receipt of a petition for formal proceedings, the Agency shall either accept or deny the petition, and if accepted shall elect either to conduct the hearing itself through the Agency head, or member thereof, assign a person authorized by Subsection 120.57(1)(a) or other authority, or request that a Hearing Officer from the Division of Administrative Hearings be assigned to conduct the hearing.

(a) A petition may be denied if the petitioner does not state adequately a material factual allegation, such as a substantial interest in the Agency determination, or if the petition is untimely.

(b) The Agency shall promptly give written notice to all parties of the action taken on the petition, and shall state with particularity its reasons therefor.

(4) If the Agency elects to request that a Hearing Officer of the Division of Administrative Hearings be assigned to conduct the hearing, the Agency shall forward the petition, and all materials filed with the Agency, to the Division of Administrative hearings, and shall notify all parties of its action.

Specific Authority: 120.53(1), 120.54(10), F.S.
Law Implemented: 120.57, F.S.
History: New 3-23-80

Section 17-103.155, Florida Administrative Code
Rules of Administrative Procedure
Final Agency Action (Non-Rulemaking) and Appeal

17-103.155 Petition for Administrative Hearing; Waiver of Right to Administrative Proceeding.

(1)(a) Any person whose substantial interests may be affected by proposed or final agency action by the Department may file a petition for formal administrative hearing in accordance with this rule if the person disputes the material facts upon which the Department's action is based.

(b) Any person whose substantial interests may be affected by proposed or final action by the Department may file a petition for informal administrative hearing in accordance with this rule if the person objects to the Department's action but does not dispute the material facts upon which the Department's action is based.

(2) A petition for formal or informal administrative hearing pursuant to Section 120.57, F.S., shall contain the following information:

(a) The name, address, and telephone number of each petitioner. If the petitioner challenges a Department action or proposed action on a permit application, the applicant's name and address, the Department Permit File Number and the county in which the project is proposed shall also be included;

(b) A statement of how and when each petitioner received notices of the Department action or proposed action;

(c) A statement of how each petitioner's substantial interests are affected by the Department's action or proposed action;

(d) A statement of those material facts (i.e., those facts upon which the Department's action or proposal is based) is disputed by petitioner. If no facts are disputed, petitioner shall so state;

(e) A statement of facts which petitioner contends warrant reversal or modification of the Department's action or proposed action;

(f) A statement of which rules or statutes petitioner contends require reversal or modification of the Department's action or proposed action;

(g) A statement of relief sought by petitioner, stating precisely the action petitioner wants the Department to take with respect to the Department's action or proposed action.

(3)(a) A petition shall be in the form required by this rule and must be filed (received) in the Office of General Counsel of the Department within the following number of days after receipt or publication (whichever occurs first) of notice of proposed agency action or of notice of agency action:

1. Petitions concerning Department action or proposed action on applications for permits (except permits for hazardous waste facilities): 15 days;

2. Petitions concerning Department action or proposed action on applications for hazardous waste facility permits: 45 days;

3. Petitions concerning notices of violation when no informal conference is held: 20 days after receipt of the notice of violation;

4. Petitions concerning notices of violation when an informal conference is held: 10 days after receipt of notice of completion of the informal conference;

5. Petitions concerning other Department actions or proposed actions: 21 days. The petitioner shall also serve a copy of the petition on all other parties to the proceeding, as identified in the published notice, at the time of filing.

(b) Failure to timely file a petition within the applicable time period after receipt of notice of agency action or receipt of notice of proposed agency action, whichever notice first occurs, shall constitute a waiver if any right to request an administrative proceeding under Chapter 120, F.S.

(4) If a petition is filed that does not substantially comply with the requirements of subsection (2) of this rule, the Department shall issue an order dismissing the petition with leave to file an amended petition complying with the requirements of this rule within 15 days of service of the order. If an amended petition complying with this rule is not filed (received) within 15 days of service of the order, the petitioner's right to a proceeding under Section 120.57, F.S., is waived.

(5) When there has been no publication of notice of agency action or notice of proposed agency action as prescribed in Rule 17-103.150, F.A.C., a person who has actual knowledge of the agency action or has knowledge which would lead a reasonable person to conclude that the Department has taken final agency action, has a duty to make further inquiry within 14 days of obtaining such knowledge by contacting the Department to ascertain whether action has occurred. The Department shall upon receipt of such an inquiry, if agency action has occurred, promptly provide the person with notice as prescribed by Rule 17-103.150, F.A.C. Failure of the person to make inquiry with the Department within 14 days after obtaining such knowledge may stop the person from obtaining an administrative proceeding on the agency action.

(6)(a) "Receipt of notice of agency action" means receipt of written notice of final agency action, as prescribed by Department rule, or the publication, pursuant to Department rule, of notice of final agency action, whichever first occurs.

(b) "Receipt of notice of proposed agency action" means receipt of written notice (such as a letter of intent) that the Department proposes to take certain action, or the publication pursuant to Department rule of notice of proposed agency action, whichever first occurs.

(7) Notwithstanding any other provision in this Chapter, should a substantially affected person who fails to timely request a hearing under Section 120.57, F.S., administratively appeal the final Department action or order, the record on appeal shall be limited to:

(a) the application and accompanying documentation submitted by the applicant prior to the issuance of the agency's intent to issue or deny the requested permit;

(b) the materials and information relied upon by the agency in determining the final agency action or order;

(c) any notices issued or published; and

(d) the final agency action or order entered concerning the permit application.

(8) In such cases where persons do not timely exercise their rights accorded by Section 120.57(1), Florida Statutes, the allegations of fact contained in or incorporated by the final agency action shall be deemed uncontested and true, and appellants may not dispute the truth of such allegations upon subsequent appeal.

(9) Any applicant may challenge the Department's request for additional information by filing with the Office of General Counsel an appropriate petition for administrative proceeding pursuant to Section 120.60, F.S., following receipt by the applicant of the Department's notification pursuant to Section 403.0876, F.S., that additional information is required.

This permit is issued under the provisions of Chapter 403, Florida Statutes, and Florida Administrative Code Rule(s) 17-25 and 17-701. The above named permittee is hereby authorized to perform the work or operate the facility shown on the application and approved drawing(s), plans, and other documents, attached hereto or on file with department and made a part hereof and specifically described as follows:

To construct a resource recovery facility (approximately 5 acres), referred to as the Hardee County Materials Recovery Facility, subject to the specific conditions attached, for materials recovery, storing and recycling, located near Airport Road and S.R. 64A, northeast of Wauchula, Hardee County, Florida.

Replaces Permit No.: N/A, New

PERMITTEE: Mr. Ben Albritton
Hardee County Materials Recovery Facility

PERMIT NO: SC25-179573

SPECIFIC CONDITIONS:

DRAFT

1. This site shall be classified as a resource recovery facility for materials recovery, sorting and recycling, and shall be constructed and operated in accordance with all applicable requirements of Chapters 17-25 and 17-701, Florida Administrative Code. This permit is valid for construction and operation in accordance with the reports and plans by Briley, Wild & Associates submitted on April 26, 1990, and additional information submitted by Briley, Wild & Associates on June 20, 1990, and in accordance with all applicable requirements of Department rules. Any construction not previously approved as part of this permit shall require a separate Department permit unless the Department determines a permit modification to be more appropriate.

2. After all significant initial construction of the site or facility components have been completed, the engineer or the authorized public officer shall complete an Application to Operate Only Resource Recovery and Management Facility-Certification of Construction Completion, Department Form 17-7.130(2) and contact the Department to arrange for Department representatives to inspect the facility in the company of the permittee, the engineer, and the proposed on-site facility operator. The inspection is to ensure that the site or facility components have been developed in accordance with the approved permit. "Record Drawings" shall be submitted to the Department.

3. The site shall have a surface water management system operated and maintained to prevent surface water flow onto waste filled areas, and a stormwater runoff control system operated and maintained to collect and control stormwater to meet requirements of Florida Administrative Code Rule 17-25 and requirements of the respective water management district.

4. In the event of damage to any portion of the site facilities or failure of any portion of the systems, the permittee shall immediately notify the Department of Environmental Regulation explaining such occurrence and remedial measures to be taken and time needed for repairs. Written detailed notification shall be made within one week following the occurrence.

5. Prior to 90 days before the expiration of the Department Permit, the permittee shall apply for a renewal of a permit on forms and in a manner prescribed by the Department, in order to assure conformance with all applicable Department rules.

PERMITTEE: Mr. Ben Albritton
Hardee County Materials Recovery Facility

PERMIT NO: SC25-179573

DRAFT

SPECIFIC CONDITIONS:

6. The permittee shall submit to the Department a fire safety survey annually which includes a statement from the local fire protection authorities that the site meets the requirements of the local fire protection authorities. This survey report shall be submitted by January 1st of each year.
7. A trained supervisor or foreman shall be responsible for maintaining the facility in an orderly, safe, and sanitary manner. Sufficient personnel shall be employed as noted in the operation plan to adequately operate the facility.
8. The permittee shall remove from the site 75% of all recyclable goods each year, either for recycling or disposal.
9. The permittee shall dispose of all nonrecyclable goods in a landfill authorized by the Department.
10. The permittee shall be aware of and operate under the attached "General Conditions". General Conditions are binding upon the permittee and enforceable pursuant to Chapter 403, Florida Statutes.

Issued this _____ day of _____, 1990

STATE OF FLORIDA DEPARTMENT
OF ENVIRONMENTAL REGULATION

Richard D. Garrity, Ph.D.
Deputy Assistant Secretary
Southwest District

ATTACHMENT - GENERAL CONDITIONS:

1. The terms, conditions, requirements, limitations and restrictions set forth in this permit, are "permit conditions" and are binding and enforceable pursuant to Sections 403.141, 403.161, 403.727, or 403.859 through 403.861, Florida Statutes. The permittee is placed on notice that the Department will review this permit periodically and may initiate enforcement action for any violation of these conditions.
2. This permit is valid only for the specific processes and operations applied for and indicated in the approved drawings or exhibits. Any unauthorized deviation from the approved drawings, exhibits, specifications, or conditions of this permit may constitute grounds for revocation and enforcement action by the Department.
3. As provided in subsections 403.087(6) and 403.722(5), F.S., the issuance of this permit does not convey any vested rights or any exclusive privileges. Neither does it authorize any injury to public or private property or any invasion of personal rights, nor any infringement of federal, State, or local laws or regulations. This permit is not a waiver of or approval of any other Department permit that may be required for other aspects of the total project which are not addressed in this permit.
4. This permit conveys no title to land or water, does not constitute State recognition or acknowledgement of title, and does not constitute authority for the use of submerged lands unless herein provided and the necessary title or leasehold interests have been obtained from the State. Only the Trustees of the Internal Improvement Trust Fund may express State opinion as to title.
5. This permit does not relieve the permittee from liability for harm or injury to human health or welfare, animal, or plant life, or property caused by the construction or operation of this permitted source, or from penalties therefore; nor does it allow the permittee to cause pollution in contravention of Florida Statutes and Department rules, unless specifically authorized by an order from the Department.
6. The permittee shall properly operate and maintain the facility and systems of treatment and control (and related appurtenances) that are installed and used by the permittee to achieve compliance with the conditions of this permit, are required by Department rules. This provision includes the operation of backup or auxiliary facilities or similar systems when necessary to achieve compliance with the conditions of the permit and when required by Department rules.
7. The permittee, by accepting this permit, specifically agrees to allow authorized Department personnel, upon presentation of credentials or other documents as may be required by law and at reasonable times, access to the premises where the permitted activity is located or conducted to:
 - (a) Have access to and copy any records that must be kept under conditions of the permit;
 - (b) Inspect the facility, equipment, practices, or operations regulated or required under this permit; and

- (c) Sample or monitor any substances or parameters at any location reasonably necessary to assure compliance with this permit or Department rules.

Reasonable time may depend on the nature of the concern being investigated.

8. If, for any reason, the permittee does not comply with or will be unable to comply with any condition or limitation specified in this permit, the permittee shall immediately provide the Department with the following information:

- (a) A description of and cause of noncompliance; and
- (b) The period of noncompliance, including dates and times; or, if not corrected, the anticipated time the noncompliance is expected to continue, and steps being taken to reduce, eliminate, and prevent recurrence of the noncompliance.

The permittee shall be responsible for any and all damages which may result and may be subject to enforcement action by the Department for penalties or for revocation of this permit.

9. In accepting this permit, the permittee understands and agrees that all records, notes, monitoring data and other information relating to the construction or operation of this permitted source which are submitted to the Department may be used by the Department as evidence in any enforcement case involving the permitted source arising under the Florida Statutes or Department rules, except where such use is prescribed by Sections 403.111 and 403.73, F.S. Such evidence shall only be used to the extent it is consistent with the Florida Rules of Civil Procedure and appropriate evidentiary rules.

10. The permittee agrees to comply with changes in Department rules and Florida Statutes after a reasonable time for compliance; provided, however, the permittee does not waive any other rights granted by Florida Statutes or Department rules.

11. This permit is transferable only upon Department approval in accordance with Rule 17-4.120 and 17-730.300, Florida Administrative Code, as applicable. The permittee shall be liable for any non-compliance of the permitted activity until the transfer is approved by the Department.

12. This permit or a copy thereof shall be kept at the work site of the permitted activity.

13. This permit also constitutes:

- () Determination of Best Available Control Technology (BACT)
- () Determination of Prevention of Significant Deterioration (PSD)
- () Certification of compliance with State Water Quality Standards (Section 401, PL 92-500)
- () Compliance with New Source Performance Standards

14. The permittee shall comply with the following:

- (a) Upon request, the permittee shall furnish all records and plans required under Department rules. During enforcement actions, the retention period for all records will be extended automatically unless otherwise stipulated by the Department.
- (b) The permittee shall hold at the facility or other location designated by this permit records of all monitoring information (including all calibration and maintenance records and all original strip chart recordings for continuous monitoring instrumentation) required by the permit, copies of all reports required by this permit, and records of all data used to complete the application for this permit. These materials shall be retained at least three years from the date of the sample, measurement, report, or application unless otherwise specified by Department rule.
- (c) Records of monitoring information shall include:
 - 1. the date, exact place, and time of sampling or measurements;
 - 2. the person responsible for performing the sampling or measurements;
 - 3. the dates analyses were performed;
 - 4. the person responsible for performing the analyses;
 - 5. the analytical techniques or methods used;
 - 6. the results of such analyses.

15. When requested by the Department, the permittee shall within a reasonable time furnish any information required by law which is needed to determine compliance with the permit. If the permittee becomes aware the relevant facts were not submitted or were incorrect in the permit application or in any report to the Department, such facts or information shall be corrected promptly.

16. The following conditions also shall apply to a hazardous waste facility permit.

(a) The following reports shall be submitted to the Department:

- 1. Manifest discrepancy report. If a significant discrepancy in a manifest is discovered, the permittee shall attempt to rectify the discrepancy. If not resolved within 15 days after the waste is received, the permittee shall immediately submit a letter report, including a copy of the manifest, to the Department.
- 2. Unmanifested waste report. The permittee shall submit an unmanifested waste report to the Department within 15 days of receipt of unmanifested waste.
- 3. Annual report. An annual report covering facility activities during the previous calendar year shall be submitted pursuant to Chapter 17-730, F.A.C.

- (b) Notification of any noncompliance which may endanger health or the environment, including the release of any hazardous waste that may endanger public drinking water supplies or the occurrence of a fire or explosion from the facility which could threaten the environment or human health outside the facility, shall be reported verbally to the Department within 24 hours, and a written report shall be provided within 5 days. The verbal report shall include the name, address, I.D. number, and telephone number of the facility, its owner or operator, the name and quantity of materials involved, the extent of any injuries, an assessment of actual or potential hazards, and the estimated quantity and disposition of recovered material. The written submission shall contain:
1. A description and cause of the noncompliance.
 2. If not corrected, the expected time of correction, and the steps being taken to reduce, eliminate, and prevent recurrence of the noncompliance.
- (c) Reports of compliance or noncompliance with, or any progress reports on, requirements in any compliance schedule shall be submitted no later than 14 days after each schedule date.
- (d) All reports or information required by the Department by a hazardous waste permittee shall be signed by a person authorized to sign a permit application.

Re: Hardee County Solid Waste Recycle Center
SC25-179573

Dear Mr. Weeks:

On behalf of our client, we provide the following replies to your letter of May 23, 1990.

- ✓ 1. Proof of publication of required notice is enclosed.
- ✓ 2. We have added extra floor drains to the construction drawings as suggested (sh. 5 of 12).
- ✓ 3. We have shown details of floor drain screens (sh. 9 of 12).
- ✓ 4. The pipe referred in your Item No. 4 is 8" diameter and the slope is set at 0.4%. This slope is adequate and will provide self cleansing velocities as is desirable. We don't think a change is necessary.
- ✓ 5. We have added a drain in the conveyor pit as suggested (sh. 5 of 12).
- ✓ 6. We have corrected Item 19, page 7 of 10, of the Solid Waste Data Sheet to indicate water table at 80.0 NGVD. Corrected sheet is submitted in six copies.
- ✓ 7. A permit from SWFWMD is being requested. We have included stormwater calculations (six sealed copies) with this reply.
- ✓ 8. We have revised the 4" drain pipe from the loading dock area. Slope is changed to 1.00% (sh. 3 of 12).

Mr. Ernest G. Weeks
Solid Waste Section
June 18, 1990
Page Two

- ✓ 9. The swale is typical on both sides. This has been noted on the plans (sh. 3 of 12). The purpose of the swales is to intercept runoff from parking area and to provide retention volume. Calculations for stormwater treatment are included with this letter.
- ✓ 10. We have provided a detail for the 4" well on the plans (sh. 2 of 12).
- ✓ 11. Mr. Prestridge, Hardee County Solid Waste Superintendent, will provide confirmation regarding facility cleanup. His letter is attached.
- ✓ 12. The baler will be cleaned of any waste residue, as necessary, prior to baling of recyclables. Cleaning may be done by wash down or by running a load of waste paper through the baler.
- ✓ 13. Sorted recyclable materials may be stored as long as 90 days. Storage trailers will be available for exterior storage. Interior storage areas have been shown on the plans (sh. 5 of 12).
- ✓ 14. The County plans to use Gaylord boxes and special containers for temporary storage of recyclable materials.
- 15. As to handling and storage of pre-sorted items on the tipping floor:
 - ✓ a. Cardboard will be isolated on the tipping floor until sufficient quantity for baling is accumulated.
 - b. Large items of furniture will be isolated and shredded as sufficient quantities are accumulated.
 - c. Tires will be temporarily stored on the tipping floor periphery or in other areas as desirable. Passenger car or smaller tires will be shredded as required. Larger tires will be disposed of by removal by a private contractor or by removal to other permitted sites.
- ✓ 16. Solid waste quantity indicated in Item No. 23 was not tons/week. It was tons per day. Corrected figures are shown on revised Solid Waste Volume Reduction and Resource Recovery Facility Data Form attached (six copies).

Six blue prints of the revised drawings is forwarded herewith for your use and records. We hope that the information submitted answers all of your concerns. If there is need for further clarification, please advise.

Very truly yours,

John W. Cumming, P.E.

STATE OF FLORIDA
DEPARTMENT OF
ENVIRONMENTAL REGULATION
NOTICE OF APPLICATION

The Department announces receipt of an application for
permit from Mr. Benny Albritton, Commission Chairman,
Hardee County Board of County Commissioners, to con-
struct a solid waste resource recovery facility (approximately
five acres), referred to as the Hardee County Solid Waste
Recycle Center, subject to all the requirements of Depart-
ment rules, located at the Hardee County Class 1 Sanitary
Landfill off of Airport Road, north of S.R. 636, near Wauch-
ula, Hardee County, Florida.

This application is being processed and available for public
inspection during normal business hours, 8:00 a.m. to 5:00
p.m., Monday through Friday, except legal holidays, at the
Department of Environmental Regulation, Southwest District
Office, 4520 Oak Fair Boulevard, Tampa, Florida 33610-
7347.

CERTIFICATION BY APPLICANT AND ENGINEER OR PUBLIC OFFICER

A. Applicant

The undersigned applicant or authorized representative of Hardee County is aware that statements made in this form and attached information are an application for a materials separation facility construction Permit from the Florida Department of Environmental Regulation and certifies that the information in this application is true, correct and complete to the best of his knowledge and belief. Further, the undersigned agrees to comply with the provisions of Chapter 403, Florida Statutes, and all rules and regulations of the Department. It is understood that the Permit is not transferable, and, the Department will be notified prior to the sale or legal transfer of the permitted facility.

Signature of Applicant or Agent

Benny W. Albritton, Commission Chairman

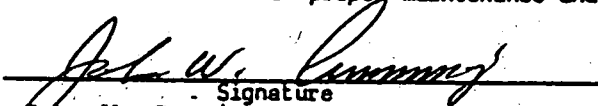

Name and Title

Date: April 6, 1990

Attach letter of authorization if agent is not a governmental official, owner, or corporate officer.

B. Professional Engineer Registered in Florida or Public Officer as Required in Section 403.707 and 403.7075, Florida Statutes

This is to certify that the engineering features of this resource recovery and management facility have been designed/examined by me and found to conform to engineering principals applicable to such facilities. In my professional judgement, this facility, when properly maintained and operated, will comply with all applicable statutes of the State of Florida and rules of the Department. It is agreed that the undersigned will provide the applicant with a set of instructions of proper maintenance and operation of the facility.

AFFIDAVIT OF PUBLICATION
The Herald-Advocate

Published Weekly at Wauchula, Florida

STATE OF FLORIDA,
COUNTY OF HARDEE

Before the undersigned authority personally appeared Jim Kelly
who on oath says he is the editor of The Herald-Advocate, a news-
paper published at Wauchula, in Hardee County, Florida; that the attached copy of

advertisement, being a notice of application
in the matter of constructing a solid waste resource recovery facility
in the _____ Court, was published in said newspaper in
the issues of 6-7, 1990

Affiant further says that the said Herald-Advocate is a newspaper published
at Wauchula, in said Hardee County, Florida, and that the said newspaper has hereto-
fore been continuously published in said Hardee County, Florida, each week and has
been entered as second class mail matter at the post office in Wauchula, in said Har-
dee County, Florida, for a period of one year next preceding the publication of the
attached copy of advertisement, and affiant further says that he has neither paid nor
promised any person, firm or corporation any discount, rebate, commission or refund
for the purpose of securing this advertisement for publication in the said newspaper.

STATE OF FLORIDA
DEPARTMENT OF
ENVIRONMENTAL REGULATION
NOTICE OF APPLICATION

The Department announces receipt of an application for
permit from Mr. Benny Albritton, Commission Chairman,
Hardee County Board of County Commissioners, to con-
struct a solid waste resource recovery facility (approximately
five acres), referred to as the Hardee County Solid Waste
Recycle Center, subject to all the requirements of Depart-
ment rules, located at the Hardee County Class 1 Sanitary
Landfill off of Airport Road, north of S.R. 636, near Wauch-
ula, Hardee County, Florida.

This application is being processed and available for public
inspection during normal business hours, 8:00 a.m. to 5:00
p.m., Monday through Friday, except legal holidays, at the
Department of Environmental Regulation, Southwest District
Office, 4520 Oak Fair Boulevard, Tampa, Florida 33610-
7347.

Re: Hardee County Solid Waste Recycle Center
Hardee County, SC25-179573

Dear Mr. Albritton:

This is to acknowledge receipt of your permit application SC25-179573 to construct a solid waste resource recovery facility.

This letter constitutes notice that a permit will be required for your project pursuant to Chapter(s) 403, Florida Statutes.

Your application for a permit is incomplete. Please provide the information listed below promptly. Evaluation of your proposed project will be delayed until all requested information has been received.

The following information is needed in support of the solid waste application [Chapter 17-701, Florida Administrative Code (F.A.C.)]:

- ✓ 1. Please provide proof of publication of notice of application as per FAC Section 17-701.030(4), see attachment.
- ✓ 2. Floor drains should be installed near Hopper/Baler and roll-off on either side of conveyor. These will catch leachate created during washdown operations in this area. Please show a slope toward the floor drains for the entire enclosed area.
- ✓ 3. Please provide a detail of the screens you plan to install on the floor drains to ensure solids do not enter your drain pipes and clog them.

- ✓ 4. The slope on the 21'-8" section of floor drain pipe in the northwest corner of the facility appears to be too flat. You may want to raise the 81.26' invert to provide at least a 1.0% slope in all directions.
- ✓ 5. Your conveyor pit design does not appear to include floor drains. Please describe how washdown leachate will be removed from this pit.
- ✓ 6. Depth of water table listed on your "solid waste disposal facility data form" is "2.5-3.5 ft. (NGVD)". Please correct this to show the depth of water table using NGVD.
- ✓ 7. You may need to obtain a permit from SWFWMD for your project. Please provide stormwater calculations (signed and sealed by a professional engineer) which demonstrate compliance with Chapter 17-25, FAC.
- ✓ 8. Why is 27' - 4" PVC pipe from load dock to proposed retention area graded at a 0.00% slope? Why do you want standing water in this pipe?
- ✓ 9. Is the swale detailed in section "A" on sheet 3 typical of the swale on the western side of the entrance way? Are the proposed elevations the same? What is purpose of these swales? Again, calculations are needed for all swales and ditches used for stormwater treatment.
- ✓ 10. Please provide a detail of the proposed 4" well south of the facility, and a plan view of the piping connecting the well to the facility.
- ✓ 11. Please provide confirmation that "all solid waste storage areas in the volume reduction plant shall be maintained and cleaned at the end of each day's operations or during continuous operation, as necessary, to prevent fly, rodent and other vector problems," pursuant to Rule 17-701.090(8), FAC.
- ✓ 12. Please describe the operating procedures you plan to use for your baler when switching from bailing waste to baling recyclables. What type of cleaning will take place?
- ✓ 13. How long will the sorted recyclable materials be "temporarily stored" at the facility? Please show your proposed storage areas on a plan sheet.
- ✓ 14. What types of containers will be used for temporary storage of glass, plastic, cans, and paper "until sufficient quantities are available for packaging for shipment"?

Mr. Benny Albritton
Hardee County

May 23, 1990
Page Three

- ✓ 15. Please discuss handling and storage procedures for waste "pre-sorted on the tipping floor for removal of cardboard, large items such as furniture, tires or items prohibited from entering the landfill". Also indicate where these items are taken for disposal.
- ✓ 16. Please provide confirmation that the amounts of material recovered that are indicated in Item "23" of your "solid waste volume reduction and resource recovery facility data form" are "tons/week". If correct, this would indicate you plan to recycle only approximately 6% of your projected waste stream.

As this request serves as a summary of all remaining items needed to complete this submittal, we will expect to receive the requested information within the next 30 days. If you cannot provide this information within 30 days, please contact us and arrange an appropriate schedule thru which the information can be provided. If we cannot reach a satisfactory agreement concerning timely submittal of this information, the Department will be placed in the position of denying this request for a permit. Therefore, if there are points which must be discussed and resolved, please contact me at (813) 623-5561, extension 399 to arrange a meeting.

Sincerely,

Ernest G. Weeks

REMARKS:

Here is a copy of an
application to construct a
Solid Waste RECYCLE CENTER
for Hardee County, FL.

This may need a SWFWMD
permit for surface water
management, etc.

Please inform them.

Thanks
