Item 1.6 marked unknown: The water quality report is reviewed as a separate function and is not deemed part of this inspection report.

Inspection Date: 03/22/2016

The facility accepts waste tires for collection, and the tires are sent out about once a month. The facility is current on quarterly records required for the tires. The waste tire processing facility is in compliance.

Disposal is currently occurring in Cell 11. A liner was in the process of installation in Cell 13 during the time of the inspection. The west slope of Cell 8 recently had new wells installed and sodding is scheduled for this week.

Six employees were observed conducting litter control operations during the inspection.

No objectionable odor was detected off site during the inspection. The facility continues to follow its odor management plan and discusses odor concerns with complainants.
