**Re: Minor Permit Modification Application
Enterprise Recycling & Disposal Facility
FDEP Permit No. 177982-007-SO/T3
Pasco County, Florida**

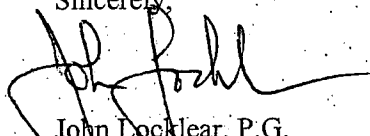

Dear Susan:

On behalf of Angelo's Aggregate Materials, Ltd. (Angelo's), HDR Engineering, Inc. (HDR) is submitting the enclosed Minor Permit Modification application for the Enterprise Recycling and Disposal Facility in Dade City, Florida. Specifically, the application proposes to change the site background well location and remove one piezometer from the monitoring network. Enclosed please find four signed/sealed copies of the permit modification application including:

- DEP Form 900
- Revised Monitoring Network Location Map
- Revised Specific Condition #E3
- \$250 Permit Application Fee

Please call me at 352-682-0781 if you have any questions.

Sincerely,

John Locklear, P.G.
Senior Project Manager

INTRODUCTION

INTRODUCTION

This minor permit modification application is being submitted to the Florida Department of Environmental Protection (DEP) for the Enterprise Class III Landfill and Recycling Facility (Identification Number SWD/51/87895) to modify permit 177982-007-SO/T3. The permit was issued on May 31, 2007 and expires on May 31, 2012.

The site is located southeast of Dade City north of Enterprise Road and west of Auton Road in Pasco County, Florida. The site consists of approximately 60.9 disposal acres.

This application is being submitted to request a minor permit modification to change portions of the requirements of Specific Condition #E3 of Permit #177982-007-SO/T3. Specifically, we are requesting that MW-1 be abandoned and removed from the network. MW-1 will be replaced by existing well MW-1A. MW-1A and MW-1B will serve as the site background wells while minimizing interference with on-site activities. As detailed in the current permit, MW-1A was intended to replace MW-1 as the site background well once operations begin in Sequences 5, 6 and 7. Therefore, our request is to implement this change earlier than expected. Additionally, we are requesting that piezometer P-2 be abandoned and removed from the monitoring network. Water level data for the northern portion of the site is provided by MW-2A, MW-2B, MW-3A and MW-3B which bracket P-2 to the west and the east.

1. Specific Condition #E3

The existing permit specific condition states the following and the requested deletions are struck through while proposed additions are underlined. Note that since the condition is lengthy, only those portions of the condition to be changed are provided. All portions of the condition not listed here shall remain unchanged.

#E3 (Page 22 of 34)

3. Ground Water Monitor Well Locations. The ground water monitoring well network for Sequences 1 through 8 shall be located as shown on ~~Figure 15A, entitled "Well Location Map," prepared by HAI, as revised by JEA, dated October 2006, received November 13, 2006~~ Figure 1 entitled "Proposed Monitoring Network", prepared by HDR dated September 2007(attached), as follow:

INSTRUCTIONS TO APPLY FOR A SOLID WASTE MANAGEMENT FACILITY PERMIT

I. General

Solid Waste Management Facilities shall be permitted pursuant to Section 403.707, Florida Statutes, (FS) and in accordance with Florida Administrative Code (FAC) Chapter 62-701. A minimum of four copies of the application shall be submitted to the Department's District Office having jurisdiction over the facility. The appropriate fee in accordance with Rule 62-701.315, FAC, shall be submitted with the application by check made payable to the Department of Environmental Protection (DEP).

Complete appropriate sections for the type of facility for which application is made. Entries shall be typed or printed in ink. All blanks shall be filled in or marked "not applicable" or "no substantial change". Information provided in support of the application shall be marked "submitted" and the location of this information in the application package indicated. The application shall include all information, drawings, and reports necessary to evaluate the facility. Information required to complete the application is listed on the attached pages of this form.

II. Application Parts Required for Construction and Operation Permits

- A. Landfills and Ash Monofills - Submit parts A,B, D through T
- B. Asbestos Monofills - Submit parts A,B,D,E,F,G,J,L,N, P through S, and T
- C. Industrial Solid Waste Facilities - Submit parts A,B, D through T
- D. Non-Disposal Facilities - Submit parts A,C,D,E,J,N,S and T

NOTE: Portions of some parts may not be applicable.

NOTE: For facilities that have been satisfactorily constructed in accordance with their construction permit, the information required for A,B,C and D type facilities does not have to be resubmitted for an operation permit if the information has not substantially changed during the construction period. The appropriate portion of the form should be marked "no substantial change".

III. Application Parts Required for Closure Permits

- A. Landfills and Ash Monofills - Submit parts A,B,M, O through T
- B. Asbestos Monofills - Submit parts A,B,N, P through T
- C. Industrial Solid Waste Facilities - Submit parts A,B, M through T
- D. Non-Disposal Facilities - Submit parts A,C,N,S and T

NOTE: Portions of some parts may not be applicable.

IV. Permit Renewals

The above information shall be submitted at time of permit renewal in support of the new permit. However, facility information that was submitted to the Department to support the expiring permit, and which is still valid, does not need to be re-submitted for permit renewal. Portions of the application not re-submitted shall be marked "no substantial change" on the application form.
