Item No. 1.6 - Unknown - The ground water report is reviewed as a separate function and is not

Inspection Date: 06/01/2016

deemed part of this inspection

Daniel Galarza - Operator

Leslie Holmes and Michael Johnson - Spotters

Currently placing waste in Cell 4. Intermediate cover is being placed on Cell 3

Leachate is both applied on the active portion of the landfill and piped to the City of Apopka's wastewater treatment plant. A review of the dust suppression log revealed five loads of leachate was applied on April 2, 2016. Mr. Galarza stated the water truck holds 5,000 gallons. The permit allows only four loads or 20,000 gallons per day. Deborah Perez, District Manager, stated they will ensure no more than four loads are applied daily
