WACS # 33628
Trail Ridge Class I Landfill
(Phase 6)

Attention: Mr. Tom Hawkins.

Permit No: 0013493-026-SC-01

In accordance with Specific Condition 2.B.5. of the above referenced permit, a Certification of Construction Completion (CCC) report was submitted to the Department. The CCC report prepared by CDM Smith, Inc., dated September 23, 2016, was received by the Department on September 23, 2016.

The certification package relates to the construction of Phase 6, a lateral expansion of the subject landfill comprised of a double-lined, 31-acre area. Four deviations were noted in the deviation Memorandum (attachment to FDEP form 62-701.900(2)), however these were considered to be minor deviations. Department staff inspected the facility on July 28 and October 4, 2016.

Based upon review of the Construction Quality Assurance Plan, site visits, and review of the CCC report, the Department has no objections to the submitted certification. The referenced permit authorizes the construction and operation of new Phases 6 through 14 located north of existing Phases 1 through 5. However, this approval is solely for the construction of Phase 6.
