Subject: Citrus Central SLF- WACS 39859 supplemental information request
Attachments: 2016.10.26_Citrus_Contamination Assessment Plan.pdf

Mr. Norris,

Per our conversation,

During an internal meeting yesterday in reference to the recently submitted Contamination Assessment Plan- Phase I our team requests that the following information be provided to the Department:

1. The Department requests the measurement of gas at all Monitoring Wells (groundwater monitoring wells) including piezometers
2. The Department requests that the facility provide an evaluation/inspection of integrity of the well casing for MW-19

Following the receipt of this information and its evaluation, the Department will schedule another in person meeting to further discuss the Contamination Assessment Plan- Phase I and provide additional guidance/comments.

Please let me know if you have any questions.

Best Regards,

Nick Roff
