Subject: Citrus County Central Landfill - Notification

All:

On behalf of the Citrus County Solid Waste Management Division, we are notifying FDEP that the leachate storage tanks at the Central Landfill overflowed this morning. All leachate was contained in the secondary containment system, and there was no release of leachate through the valves or other appurtenances. The County has a contract with a private hauler to remove the leachate from the site; the hauler is in the process of removing the material.

Please contact me or Henry Norris, Solid Waste Director, with any questions.

Regards,

Carol
