RE: Disaster Debris Management Site (DDMS) Extension Authorization - Irma

Dear David Braxton,

In accordance with the Emergency Final Order OGC No. 17-0989 (the Order), which was executed on 9/5/2017, the Department may issue field authorizations for disaster debris management sites (DDMS) to be used for temporary storage and processing of disaster debris. Disaster debris includes hurricane/storm-generated debris and all other types of disaster debris. The Order also gives the Department authority to include specific conditions in the field authorizations for the operation and closure of a DDMS, which may delineate a required closure date that extends beyond the expiration of the Order. A copy of this Order may be obtained from the DEP website <http://www.dep.state.fl.us/mainpage/em/info.htm>

The Department has evaluated your request for a DDMS extension at the following location:

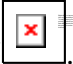

WACS ID: 41193
Southeast County Slf (Picnic Lf)
15960 Cr 672, Lithia
Lat 27:46:30.14 / Long 82:10:59.92
Waste Planned for Management: Construction & Demolition Debris, Yard Trash

The use of this DDMS is approved subject to the following conditions, in addition to the requirements of the Order and Florida Statute 403.7071:

1. Standing water must not be allowed to accumulate in or within 50 feet of areas used to store or process disaster debris;
2. Access to the DDMS must be controlled to prevent unauthorized dumping and scavenging;
3. A DDMS must have spotters to correctly identify and segregate waste types for appropriate management;
4. The DDMS is limited to managing the type(s) of debris listed above; any putrescible waste received at the DDMS must be removed from the site within 48 hours; all other types of prohibited waste should be managed in accordance with the guidance document (see link below);
5. This approval supersedes the authorization issued by the Department for this DDMS on 9/11/2017;
6. Unless otherwise approved by the Department in response to a written request from you, the DDMS must cease operation and all disaster debris must be removed from the site by 11/3/2017; the Department must be notified in writing when the site is closed and stops accepting debris.

The Department has also prepared a guidance document on the establishment, operation and closure of a DDMS for disaster debris. This guidance includes recommended practices, which you are expected to follow as much as practicable, as well as additional requirements from the Order. A copy of this guidance document is available on the DEP website http://www.dep.state.fl.us/mainpage/em/files/debris_guidance.pdf

If you have any questions or comments on this extension letter, or if you require additional time to operate your DDMS, please feel free to contact Melissa Madden by E-mail at melissa.madden@dep.state.fl.us or by phone at

(813) 470-5795 . In order to provide better service to you, the Department is using electronic documents as much as possible. Please provide your E-mail address when replying.

Sincerely,

10/4/2017

Steven Morgan
Southwest District
