**III. ESTIMATE ADJUSTMENT**

40 CFR Part 264 Subpart H as adopted by reference in Rule 62-701.630, Florida Administrative Code, (F.A.C.) sets forth the method of annual cost estimate adjustment. Cost estimates may be adjusted by using an inflation factor or by recalculating the maximum costs of closure in current dollars. Select one of the methods of cost estimate adjustment below.

(a) Inflation Factor Adjustment

(b) Recalculated or New Cost Estimates

Inflation adjustment using an inflation factor may only be made when a Department approved closure cost estimate exists and no changes have occurred in the facility operation which would necessitate modification to the closure plan. The inflation factor is derived from the most recent Implicit Price Deflator for Gross National Product published by the U.S. Department of Commerce in its survey of Current Business. The inflation factor is the result of dividing the latest published annual Deflatory by the Deflator for the previous year. The inflation factor may also be obtained from the Solid Waste website [www.dep.state.fl.us/waste/categories/swfr](http://www.dep.state.fl.us/waste/categories/swfr) or call the Financial Coordinator at (850) 245-8706.

This adjustment is based on the Department approved closing cost estimate dated: March 1, 2011

Latest Department Approved Closing Cost Estimate:		Current Year Inflation Factor, e.g. 1.02		Inflation Adjusted Closing Cost Estimate:
<u>\$4,100.40</u>	x	<u>1.01</u>	=	<u>\$4,141.40</u>

This adjustment is based on the Department approved long-term care cost estimate dated: \_\_\_\_\_

Latest Department Approved Annual Long-Term Care Cost Estimate:		Current Year Inflation Factor, e.g. 1.02		Inflation Adjusted Annual Long-Term Care Cost Estimate:
_____	x	_____	=	_____

Number of Years of Long Term Care Remaining: \_\_\_\_\_ x \_\_\_\_\_ = \_\_\_\_\_

Re: WACS 98523 - American Cement Waste Tire Processing Facility

Dear Mr. Robertson:

I reviewed the documentation submitted to demonstrate financial assurance for the above referenced facility and find it is in order. Hartford Fire Insurance Company increase rider, dated January 14, 2011 to guarantee bond number 13BSBFQ9243, adequately covers the Department approved closing cost estimate of \$4,100.40, dated January 14, 2011. Therefore, American Cement Waste Tire Processing Facility is in compliance with the financial assurance requirements of 40 CFR Part 264, Subpart H, as adopted by reference in Rule 62-701.630, Florida Administrative Code, at this time.

**III. ESTIMATE ADJUSTMENT**

40 CFR Part 264 Subpart H as adopted by reference in Rule 62-701.630, Florida Administrative Code, (F.A.C.) sets forth the method of annual cost estimate adjustment. Cost estimates may be adjusted by using an inflation factor or by recalculating the maximum costs of closure in current dollars. Select one of the methods of cost estimate adjustment below.

(a) Inflation Factor Adjustment

(b) Recalculated or New Cost Estimates

Inflation adjustment using an inflation factor may only be made when a Department approved closure cost estimate exists and no changes have occurred in the facility operation which would necessitate modification to the closure plan. The inflation factor is derived from the most recent Implicit Price Deflator for Gross National Product published by the U.S. Department of Commerce in its survey of Current Business. The inflation factor is the result of dividing the latest published annual Deflator by the Deflator for the previous year. The inflation factor may also be obtained from the Solid Waste website [www.dep.state.fl.us/waste/categories/swfr](http://www.dep.state.fl.us/waste/categories/swfr) or call the Financial Coordinator at (850) 245-8706.

This adjustment is based on the Department approved closing cost estimate dated: January 12, 2010

Latest Department Approved Closing Cost Estimate:		Current Year Inflation Factor, e.g. 1.02		Inflation Adjusted Closing Cost Estimate:
<u>\$4,020.00</u>	x	<u>1.02</u>	=	<u>\$4,100.40</u>

This adjustment is based on the Department approved long-term care cost estimate dated: \_\_\_\_\_

Since Nancy wrote the permit for this facility, I checked with her for verification. I'll prepare an approval letter and email it today or Monday. Re: WACS 44150 – American Cement Waste Tire Facility

Dear Ms. Cohrs:

I reviewed the documentation submitted to demonstrate financial assurance for the above referenced facility and find it is in order. Hartford Fire Insurance Company guarantee bond number 13BSBFQ9243, effective January 19, 2010, is in the amount of the Department approved closing cost estimate of \$4,020. In addition, Salem Trust Company standby trust fund agreement, entered into as of February 18, 2010, is acceptable. Therefore, American Cement Waste Tire Facility is in compliance with the financial assurance requirements of 40 CFR Part 264, Subpart H, as adopted by reference in Rule 62-701.630, Florida Administrative Code, at this time.

If you have any questions, please contact me at (850) 245-8745.
