DEP Form # 62-701.900(28), F.A.C.
Form Title: Closure Cost Estimating Form
For Solid Waste Facilities
Effective Date: January 6, 2010
Incorporated in Rule 62-701.630(3), F.A.C.

CLOSURE COST ESTIMATING FORM FOR SOLID WASTE FACILITIES

Date of DEP Approval: _____

I. GENERAL INFORMATION:

Facility Name: Sumter County Solid Waste Facility WACS ID: _____
 Permit Application or Consent Order No.: _____ Expiration Date: _____
 Facility Address: 835 CR 529, Sumterville, Florida 33585
 Permittee or Owner/Operator: Sumter County Board of County Commissioners
 Mailing Address: 7375 Powell Road, Wildwood, Florida 34785

Latitude: 28 ° 44 ' 30 " Longitude: 82 ° 05 ' 20 "
 Coordinate Method: conjugate graticule Datum: NGVD 29
 Collected by: Springstead Engineering, Inc. Company/Affiliation: Springstead Engineering, Inc.

Solid Waste Disposal Units Included in Estimate:

Phase / Cell	Acres	Date Unit Began Accepting Waste	Active Life of Unit From Date of Initial Receipt of Waste	If active: Remaining life of unit	If closed: Date last waste received	If closed: Official date of closing
N/A						

Total disposal unit acreage included in this estimate: _____ Closure: _____ Long-Term Care: _____

Facility type: Class I Class III C&D Debris Disposal
 (Check all that apply) Other: Community Drop-Off Area

II. TYPE OF FINANCIAL ASSURANCE DOCUMENT (Check type)

- Letter of Credit* Insurance Certificate Escrow Account
- Performance Bond* Financial Test Form 29 (FA Deferral)
- Guarantee Bond* Trust Fund Agreement

* - Indicates mechanisms that require the use of a Standby Trust Fund Agreement

III. ESTIMATE ADJUSTMENT

40 CFR Part 264 Subpart H as adopted by reference in Rule 62-701.630, Florida Administrative Code, (F.A.C.) sets forth the method of annual cost estimate adjustment. Cost estimates may be adjusted by using an inflation factor or by recalculating the maximum costs of closure in current dollars. Select one of the methods of cost estimate adjustment below.

(a) Inflation Factor Adjustment

(b) Recalculated or New Cost Estimates

Inflation adjustment using an inflation factor may only be made when a Department approved closure cost estimate exists and no changes have occurred in the facility operation which would necessitate modification to the closure plan. The inflation factor is derived from the most recent Implicit Price Deflator for Gross National Product published by the U.S. Department of Commerce in its survey of Current Business. The inflation factor is the result of dividing the latest published annual Deflator by the Deflator for the previous year. The inflation factor may also be obtained from the Solid Waste website www.dep.state.fl.us/waste/categories/swfr or call the Financial Coordinator at (850) 245-8706.

This adjustment is based on the Department approved closing cost estimate dated: _____

Latest Department Approved Closing Cost Estimate:	x	Current Year Inflation Factor, e.g. 1.02	=	Inflation Adjusted Closing Cost Estimate:
_____		_____		_____

This adjustment is based on the Department approved long-term care cost estimate dated: _____

Latest Department Approved Annual Long-Term Care Cost Estimate:	x	Current Year Inflation Factor, e.g. 1.02	=	Inflation Adjusted Annual Long-Term Care Cost Estimate:
_____		_____		_____
Number of Years of Long Term Care Remaining:			x	_____
Inflation Adjusted Long-Term Care Cost Estimate:			=	_____

RE: Sumter County Solid Waste proposal request per our conversation
McGinnis, Dan [Dmcginni@wm.com]

Sent: Wednesday, April 11, 2012 3:52 PM

To: Staff Engineer

Cc: McCoy, Doug [dmccoy@wm.com]

Jason,

Thank you for the opportunity to provide a quote for the Sumter County Drop-off Area closure. As I mentioned on the phone yesterday we are presently doing the hauling for Sumter County, with the County responsible for the disposal charges at the respective disposal sites for the material we deliver.

To perform the hauling services and continuing the arrangement where Sumter County pays for the actual disposal, the hauling rates for a 20, 30, or 40-yard containers. The haul charges from Waste Management are \$135.00 per haul with an option to select the three container sizes at the same haul rate, with the actual disposal charges billed to Sumter County by the disposal facilities, which is the present practice.

- 60 - Cubic yards of household waste - 3 each 20-yard container or 2 each 30 yard containers
- 120- Cubic yards of brush & yard waste - 3 each 40-yard containers
- 40 - Cubic yards const & demo waste - 2 each 20-yrd containers
- 40 - Cubic yards Class III waste- 2 each 20-yard containers

If the quantities represented are correct it will require a maximum of 10 roll hauls at the rate of \$135.00 per haul to complete the work.

Let us know if you have any additional question, and thanks again for thinking of Waste Management.

Dan McGinnis

Subject: Sumter County Solid Waste proposal request per our conversation

Mr. McGinnis,

Thanks for speaking with me this morning about the Sumter County Customer Drop-off Area closure cost proposal. Your company has been provided to us on a list of vendors that provide services to Sumter County Solid Waste and we appreciate your willingness to assist us. We are required by FDEP to gather the estimated costs in the event that the facility were closed. While this is in no way expected to happen, we are still required to provide a dollar figure to the removal efforts of each material that is handled at the facility.

Our information indicates that a maximum of 60 cu yds of household waste, 120 cu yds of brush & yard waste, 40 cu yds const & demo waste, and 40 cu yds of class III waste would need to be picked up and transported from the facility and properly disposed of. We would like a proposal or estimate from your company for this service. If there is no cost to the county for this, please propose a minimum fuel/labor charge. We are required to provide this in a hardcopy form, so we do ask for an email response or fax.

Your assistance is much appreciated.

Thank you,

Jason Hurley

RE: Sumter County Solid Waste Proposal
Jeffrey Levy (TMR) [Jeffrey.Levy@tmrecycling.com]

Sent: Thursday, April 12, 2012 4:32 PM

To: Staff Engineer

Jason:

Our trucking is billed out using \$120.00 per hour. The travel time (including the hookup and dumping time) would be 2 1/2 hours for Sumter Landfill - thus the cost of \$300.00 per container would apply.

Mr. Levy,

Thanks for speaking with me this morning about the Sumter County Customer Drop-off Area closure cost proposal. Your company has been provided to us on a list of vendors that provide services to Sumter County Solid Waste and we appreciate your willingness to assist us. We are required by FDEP to gather the estimated costs in the event that the facility were closed. While this is in no way expected to happen, we are still required to provide a dollar figure to each material that must be removed from the facility.

Our information indicates that a maximum of 15 cu yds of scrap aluminum, 10 cu yds of aluminum cans, 30 units of white goods (appliances, fridges, stoves, etc.) would need to be picked up and transported from the facility and properly disposed of. We would like a proposal or estimate from your company for this service at the current market value. If there is no cost to the county for this, please propose a minimum fuel/labor charge to transport these recyclables. We are required to provide this in a hardcopy form, so we do ask for an email response or fax.

In addition to the above materials, I would also like your cost to remove 5 cu yds of mixed paper and 5 cu yds of old corrugated cardboard if your company handles these as well.

Your assistance is much appreciated.

Thank you,

Subject: Sumter County Solid Waste Proposal

Dear Mr. Hurley:

Per your email request dated Monday, April 9, 2012 (2:06 PM), F.D.S. Disposal, Inc. offers the following pricing proposal for transporting a maximum of ten (10) cubic yards of plastic bottles from the Sumter County Customer Drop-off Area to either a certified Class 1 disposal facility or an approved recyclable materials processing facility.

Option 1: Transportation to the Citrus County Central Landfill located in Lecanto, Florida.

- \$175.00 per haul – 15-cubic yard open-top (roll-off) container.
- Landfill disposal cost: \$30.00 per ton

Option 2: Transportation to Single Stream Processors, Inc., a Recovered Materials Processing Facility (RMPF) owned and operated by F.D.S. Disposal, Inc. in Lecanto, Florida.

- \$175.00 per haul – 15 cubic yard open-top (roll-off) container.
- Landfill disposal cost (for “residual” waste only): \$30.00 per ton

The above proposal is made with the assumption that no hazardous waste materials are present and that the subject plastic bottles are empty.

Should you have any questions please feel free to contact me at your convenience.

Very truly yours,

F.D.S. DISPOSAL, INC.

William Ray

Attn: Jason Hurley
Ref: Sumter County Waste Tire Removal

Dear Mr. Hurley,

Pursuant to our recent conversation regarding the above referenced project and on behalf of Waste Services of Florida, Inc. ("WSI"), I am pleased to submit the price schedule for the following services:

- 1-Disposal of Approximately 350 Scrap Tires ----- \$300.00
- 2- Transportation-----\$600.00

All the above waste tires will be shredded and used for beneficial reuse or disposed of at the WSI owned and operated JED Solid Waste Management Facility located at 1501 Omni Way, St. Cloud, Florida. All prices are subject to any Federal, State and local fees.

Should you have any questions regarding this quotation please contact me.

Thank you,

Jason

If the tank has 300 gallons or more there is no charge. For less then 300 there is a \$300. Service charge. This all based on the oil passing the sniff or dexsol test

Thanks

Batteries By Fisher will pick up the cores and send them to an EPA licensed smelter for recycling. The charge for this would be \$100.00. Please let us know if we need to schedule this.

to: David Springstead
Subject: Disposal Pricing for Sumter County

David,

Per our conversation, disposal pricing for C&D and for yard debris and brush is \$5.00 per cubic yard. The County currently brings us 40 yd containers at a rate of \$200 per container. If we were to pick up the container it would bring the total pricing to \$250 per 40 yd container.

Re: WACS 53008 - Sumter County Transfer Station

Dear Mr. Kleinsorge:

I reviewed the documentation submitted to demonstrate financial assurance for the above referenced facility and find it is in order. The September 30, 2010 total escrow account balance of \$48,629.22 adequately covers the Sumter County Transfer Station closing cost estimate dated December 20, 2010. Therefore Sumter County Class I Landfill and Transfer Station are in compliance with the financial assurance requirements of Rule 62-701.630, F.A.C., at this time.

If you have any questions, please contact me at (850) 245-8745.

Sincerely,

Frank Hornbrook
