Good afternoon Allan,

The Department acknowledges receipt of a request for time extension to complete the Water Quality Monitoring Plan Evaluation Report (WQMPER) for the above-referenced facility. The WQMPER was originally due on March 31, 2018. The Department finds the proposed 60-day extension acceptable. The new due date for the WQMPER is May 30, 2018. Feel free to contact me if you have any additional questions concerning this matter.

Regards,  
Justin

Good Afternoon Justin,

We respectfully request an extension of 60 Days for submittal of the Water Quality Monitoring Plan Evaluation Report (WQMPER) for our Class I landfills. The deadline for submittal is March 31, 2018. With an extension, we will submit the WQMPER to you at the end of May. As you know I am now serving as the Acting Solid Waste Director. My new role and the variety of active projects at Solid Waste and Resource Recovery have delayed my work on preparing the WQMPER, plus the analytical data for the last event in 2017 came to me later than expected.

I appreciate your consideration. Please do not hesitate to call or email if you have any questions.

Thank You,

**Allan Biddlecomb, PG**
