Subject: Southeast Landfill - OGC File No. 17-0058 May 2018 Analytical Data Report
Attachments: 2018-5 SCLF Spplmental Eval Report.pdf; 41193_20180507_SWzdd.zip

Dear Mr. Tafuni,

On behalf of the Hillsborough County Solid Waste Management Division, we are pleased to submit the Analytical Data Report for the supplemental groundwater monitoring conducted at the Southeast County Landfill on May 7-8, 2018. Representative samples were collected from monitoring wells, TH-20A, TH-66A, TH-67, TH-79, TH-80, TH-81, TH-82, and TH-83 to evaluate the impacts to groundwater in the area east of Phase II. A groundwater sample from monitoring well TH-38B was unable to be collected due to the very low water table conditions of the surficial aquifer. In accordance with Consent Agreement OGC File No. 17-0058 and the associated Corrective Action Plan, monitoring events shall continue on the required quarterly basis, and reports will be submitted to you electronically. Additionally, this submittal includes the AdaPT files from the this sampling event, Clark Moore, and the AdaPT mail box are copied on this e-mail. Should you or anyone copied on this electronic submittal have any questions, please let me know.

Best Regards,

Michael D. Townsel
