Subject: Requested Addition For Future Groundwater Sampling Reports

Good afternoon and Happy Friday Ms. Mulhern and/or Mr. Roessler,

I have a requested addition for future semiannual groundwater reports for Pasco Resource Recovery (WACS # 45799). Most of our facilities choose to include a short paragraph of the facility's conclusion and recommendations based off the data, groundwater exceedances, sampling problems, etc. encountered during the sampling event. The addition of such a paragraph would be helpful to us (the Department) and would also assist the facility with creating the 2.5 year technical reports down-the-line.

Please review and consider.
Thank you,

Benjamin Hsu
