Subject: Southeast County Landfill Survey and Groundwater Monitoring - June 2019

Hi Justin,

We wanted to notify the Department that the County is scheduling a new groundwater conductivity survey in the vicinity of Phase II and would like to collect another round of groundwater samples for TH-67 and TH-83 for conductivity and TDS as part of this evaluation. We have it tentatively scheduled for this Thursday and will include this additional information in the next water quality report.

Please let me know if you have any questions.

Thanks!

Michael D. Townsel
