Re: Certification of Construction Completion Approval for
Webber Recycling, LLC as a Waste Tire Processing Facility
Duval County – Solid Waste
Facility Name: Webber Recycling, LLC
Facility WACS I.D. Number: 106211
DEP Permit Number: 378243-001-WT

Dear Ms. Yang:

The Florida Department of Environmental Protection (Department) has reviewed the Certification of Construction Completion for the Webber Recycling, LLC (Facility) submitted on December 16, 2019.

Based on our review of the submitted documents and inspection of the Facility, the Webber Recycling, LLC has been constructed substantially in accordance with the above-referenced Permit and is, by this correspondence, authorized to begin accepting and process waste tires.

See Attachment 1: Memorandum dated December 20, 2019, prepared by Michael Bogin.

If you have any comments concerning this matter, please contact Michael Bogin at the letterhead address, via email at michael.bogin@floridadep.gov, or at telephone number (904) 256-1579.

Sincerely,

A handwritten signature in blue ink, appearing to read "T. Kallemeyn".

Florida Department of

Memorandum

Environmental Protection

TO: Files

THROUGH: Thomas Kallemeyn, Permitting Program Administrator

FROM: Michael Bogin, Engineering Specialist IV

DATE: December 20, 2019

SUBJECT: Certification of Construction Certification Approval
for the Webber Recycling, LLC

The Florida Department of Environmental Protection (Department) has reviewed the following documents submitted pursuant to Florida Administrative Code Chapter 62-701 and Section 2.B.2 of the Permit:

Document 1 – Florida Department of Environmental Protection Certification of Construction Completion of a Solid Waste Management Facility form 62-701.900(2) for the Webber Recycling, LLC, prepared by Encon Consulting, LLC, signed and sealed by Paul W. Porter, P.E., dated and received December 16, 2019.

Document 2 – Webber Recycling, LLC Waste Tire Processing facility Permit Site Inspection Letter Report, prepared by Encon Consulting, LLC, signed and sealed by Paul W. Porter, P.E., dated and received December 16, 2019.

The above-listed documents complete the documentation required for certification of construction completion. In addition to the Department's review of the presented documents, Department staff conducted construction completion inspection on December 20, 2019.

A review of the listed documents and the inspection of the Facility appears to demonstrate that the Webber Recycling, LLC was constructed substantially in accordance with the above-referenced Permit and is ready to accept and process waste tires.
