Subject: Confirmation Monitoring Results Letter for GW-19 - Lena Road Landfill (WACS ID 44795)
Attachments: 09217088.15 Notification Letter for Confirmation Monitoring Results 2020....pdf

Good afternoon Steven,

Please see attached Confirmation Monitoring Results Letter for monitoring well GW-19 at the Lena Road Landfill as required by Appendix 3, Condition 4 of Permit No. 39884-021-SO-01. This result will be discussed further in the semiannual monitoring report.

Please feel free to contact me if you have any questions or comments regarding this correspondence.

Thank you,

Whitney Rodriguez, P.E.

Subject: Confirmation Monitoring Results for Monitoring Well GW-19
Lena Road Class I Landfill, Manatee County, Florida
WACS Facility ID No. 44795
FDEP Permit No. 39884-021-SO-01

Dear Mr. Tafuni:

On behalf of Manatee County, SCS Engineers (SCS) prepared this letter to notify the Florida Department of Environmental Protection (FDEP) of a detection of total dissolved solids (TDS) of 581 milligrams per liter (mg/L) exceeding the secondary drinking water standard of 500 mg/L, in monitoring well GW-19 at the Lena Road Landfill. This exceedance occurred during the second 2019 routine semiannual water quality monitoring event. TDS was detected during the confirmation monitoring event at a concentration of 644 mg/L.

This is a first time exceedance of TDS in well GW-19 and the results have been confirmed. In accordance with Appendix 3, Condition 4 of Permit No. 39884-021-SO-01, SCS is notifying FDEP of this first time exceedance. This result will be discussed further in the semiannual monitoring report. Please feel free to contact us if you have any questions regarding this matter.

Sincerely,

Whitney Rodriguez, P.E.
