COMMENTS:

Note that this inspection facility type has been recorded as "Other User Defined". This is to prevent this inspection report from indicating that another Level of Service inspection had been conducted this fiscal year (FY), which would have overstated the number of inspections for the FY.

The sole purpose for this report was to document/answer Item Number 1.6 concerning potential adverse effects on the ground water from solid waste operations at the facility. This question was documented as "Unknown" on the inspection report dated 9/24/2019 due to staff shortages. Since then a review of ground water reports for the period including the last half of 2016 through the first half of 2019 shows that "OK" is an appropriate answer for Item Number 1.6.
